### Building in Canby.

At the present time there is much activity in the building line of Canby. The work on the cannery, which was suspended for a few days, has been resumed.

The Knight building on Main street is almost completed, and the workmen are now awaiting for the weather to get warmer so that the paper can be hung. The building is now being painted, and is a very neat looking structure. The lower part of the structure will be occupied by Meeks & Baly as a barber shop, and the second floor will be rented by Dr. Dea Leppinasse as a dental parlor.

The new store building being erected on C street is fast nearing completion. This will be one of the most commodious and up-to-date buildings in the city of Canby. The owners and proprietors, Cobb & Dillingham, will put in a new line of general merchandise. They are now arranging the floor and have been successful in business before coming here.

One of the most up-to-date and modern homes to be erected in Canby is that of Mr. and Mrs. C. N. Wall that is now being constructed on the Wall tract. This is an ideal location for a home. The house will be of two and one-half stories high, with full basement. Electric lights, heaters, and two double fireplaces are among the attractive features. Mr. Wall is overseeing the work, and the carpenter work is in charge of Mike Bowman, an architect of many years of experience. The house will have a large reception hall, living room, dining room, kitchen, pantry on the lower floor, while on the second floor will be the four sleeping apartments and bath. The verandas on the three sides of the house will be eight feet wide. Mr. Wall expects to move his family into his new home in about two months.
