NEWS OF THE COUNTY

BAKER'S BRIDGE.

Charley Hatton was married recently to Miss Effie Dallas, and as they were married at church, haven't heard of any tin-pan serenade as yet. This reminds me too, that Walter Mundhenke and Mary Heinrich were married February 2, and left for a wedding trip on the Sound. Haven't returned as yet.

Had a meeting at our schoolhouse not long since to discuss the advisability of getting up a stock company to bore for oil. California experts tell us we have oil here, but nothing definite has been done.

Tom Watts lost a horse a few days ago and it was quite a blow to him, as he can ill afford to buy another. This makes the fourth horse in eight years that he has lost.

Oliver Crader has just finished a course in butter-making at the Agricultural College, and has secured a position as butter maker at the creamery at Independence. He is a bright, energetic boy and we are pleased to make a note of his success.

Our last snow storm played havoc with the telephone lines in every direction, and some are not in working order yet.

J. J. Edgren has his road to Outlook about finished. For the benefit of those who do not know where Outlook is, will say that it constitutes the greater part of the tract D. L. C. It has been platted and sold in three tracts and we're to have a little town here in the near future—most of it is already sold.

Olar Creek Creamery is still doing a thriving business. During January it turned out 14,450 pounds of fancy butter and for December preceding 41 cents was paid to the patrons for better fat. Dairy inspectors were taking a look at things out this way not long ago, and think he found things quite up to date.

A. R. Smith, our butter maker, certainly knows the business and is an all round man and makes premium butter.

Mr. Goodson and sons have purchased a gasoline wood-saw and are cutting wood on Sheridan Lillie's place. Some of the wood goes to the Hawley Paper Mills and some to Oregon City residents.

J. G. Mumpower is getting ready to start up his saw mill again. This time it is to be down on the river below the north approach to the bridge. Anderson & Sons expect to have their mill running again soon. They have turned out some fine lumber and no doubt they will again.

W. E. Mumpower is our new road supervisor. The County Court has agreed to fix up the river road in good shape this Summer and we say let the good work go on and we hope the work done by the new supervisor will be a credit to himself and the county.

Haves' Park is to have a new coat of paint this Spring and it is expected that there will be "something doing" out here this Summer. If you want a good time go to Haves' Park.

Some good tracts of land still for sale here.

Fishermen intend to test the validity of the law closing the Clackamas and other streams.

Road from Baker's Bridge to Clackamas has been badly wrecked by timber or lumber haulers. They have been hauling unusually heavy loads and have about ruined the road.

Miss Bertha Schwerdtmann, of Hillsdale, Portland, was visiting with Mrs. A. R. Smith last week.

Rumer has it that we are soon to lose our primary teacher, but whether she has secured a better position or is going to be married, haven't learned.

A typographical error was made in the issue of two weeks ago in regard to J. L. Mumpower. It should have read "real estate sharp" instead of "realstate shark."

STAFFORD.

After giving us a few days of grace and sunshine to allay our superstitious fears of the bear having seen his shadow last Tuesday, the second of February, the weather became forbidding and threatening again, and Saturday night rained all night, turning on Sunday afternoon, which still continues at the present writing, a wet, disagreeable blanket clinging to everything. About six inches of the beautiful has fallen and the end is not yet. The average Webster would consign to everlasting oblivion the gifted author of "Beautiful Snow," for it is anything but beautiful, coming as it usually does in the mud, or if the ground happens to be frozen a little, our stylish cutters and sleighs are still in the hands of eastern dealers, and dry goods boxes fastened to barrel staves is our only vehicle to take our best girl sleigh riding. But there is no use railing at the editor, he is not to blame, and the six weeks predicted by said bear will soon pass and our lovely green flowery spring will take its place, making the hearts of all rejoice and be glad, who are fortunate enough to have an abiding place in this favored of all places, Clackamas County.

A number of the young people of this place attended the Grange club party at Oswego Grange hall on Saturday evening. The young men of the Grange have been carrying on a series of very enjoyable parties on every Grange night, the second Saturday in each month, lasting until midnight.

The Misses Grace Tiedeman and Bee Gage took supper at Mr. Pomperin's, and returned to church in the evening.

We can hint there is talk of a surprise party on Friday evening. As your paper will not reach the parties till the next day.

Mr. Gage, who has been ailing for the last five or six weeks, is not much better, although he gets out to the barn and does a few chores every day. His son, Arden, came Friday and stayed until Sunday afternoon. He seemed quite anxious about his father, who has had such sick spells for years, lasting a few days at a time. This one seems to hang on longer, and we hope when pleasant weather comes on he will improve.

Mrs. Gage accompanied Arden Gage and wife, last Tuesday, to make inquiries about her daughter, Retta, whom a telephone message had informed them, had been sent to the St. Vincent hospital very ill with scarlet fever. Of course they would not be permitted to see her, but the head nurse received them and gave a very favorable report, stating the delirium had passed, and if no complications set in she would be all right, but that she would have to be detained there until the scales had all peeled off, which would take from four to six weeks. She had been employed at the waist counter in Meier & Frank's store.

Did any of you see Nussbaum and Jake Schatz going home from Delker's after supper the other night? Darker than a "stick of black cats," they fell over a log and found their broadaxe, then started home, and missed one mud hole in the road.

Mr. Kappel, a former resident of Stafford, and father of Mrs. Adolph Delbar, has rented the big hotel near the Pacific Sash and Door Factory on the Macadam road and is doing a thriving business.

It is reported that Frank Seely has already been offered \$2000 more than he paid for his Molalla property, and the price he will sell it, and decide to remain in Wilsonville after all, as we can ill afford to lose Mr. Seely and his family from our community.

Death of H. Hasselbrink.

Residents of Wilsonville were severely shocked on Thursday evening, February 16, to learn of the sudden death of H. L. Hasselbrink, for he was not known to be seriously ill until a few days before he died. Mr. Hasselbrink was a young man of promise, having more than ordinary ability, and his sudden death will leave a vacancy in fraternal, school and social circles that will be hard to fill. He was nearly 31 years of age at the time of his death and had grown up from boyhood upon the same farm upon which he resided his last. He was beloved by his hosts of friends for his honest integrity and humanitarian spirit. He held positions of importance in the community, and was at all times a living example of true and noble manhood. At the time of his death he was president of the M. B. A. Lodge, to which position he had been elected time after time, owing to his popularity with the members of this growing order. He had been a trustee of the village school for several years, and was a ready helper with everything that counted for the uplifting of local affairs.

The funeral was held on Sunday afternoon, at one o'clock, at the family residence, and the large attendance and many floral offerings paid silent tribute to the respect in which this young man was held by his neighbors and friends. The M. B. A. lodge attended in a body and its floral offerings were many and beautiful, one especially handsome piece being emblematic of the order. The funeral sermon was preached by the Rev. Barber, an old family friend, and the lodge service at the grave was conducted by Past President Frank Toole. The pall-bearers were charter members of the lodge. The deceased leaves a widow, two sisters, two brothers and a father to mourn his death, and the sympathy of the entire community goes out to them in their sorrowful bereavement.

The new Southern Pacific depot is in process of construction, and receives many comments. It is rather a burlesque on the expectation of the people; but the assurance is given that it is only a make-shift to answer until the electric car line comes along.
