SANDY.

Rain, rain every day; worst winter ever experienced by the oldest settlers here. Spring work of all kinds is away behind; roads in awful bad condition; creek and rivers are flowing over their banks. Rev. Smith, of Portland, held revival meetings the last week in the M. E. church. All meetings were well attended. The Firwood-Dover Telephone Company is doing some good work for this county, spreading telephone lines through all country east of Sandy, and a Telephone Company organized in Sandy with a line to Sandy Ridge and Bullrum. They will put a network of wires over this county and most every progressive farmer will have a telephone in his home. Farmer's Institute will be held in Sandy Thursday, March 3, by Professors of the staff of the O. A. C. Mr. Collins, who is supposed to have been drowned in Bullrum River has not been found. The river has been thoroughly dragged. Some believe he has deserted, using that means to cover up his track. The six-year-old son of J. Haveston met with a serious accident while playing. Hammering a piece of steel a splinter flew into his eye. The boy was taken to Dr. Davis who pronounced it very serious and he was taken to Portland to an eye specialist where it was found necessary to remove the eye. The Sandy country, regardless of bad weather, is progressing rapidly.

Hundreds of acres of land are being cleared, notable among these being the Mt. Hood Land Company, which is clearing a total of about 500 acres; Crist Mensinger, 80 acres; Wm. Beachel 50 acres; W. A. Proctor, 40 acres; J. Strauss, 20 acres; M. Leantz, 10 acres, and many other farmers are clearing from five to ten acres.

KANSAS CITY AND BEUNA VISTA.

J. A. Wever's daughter, Francis, who has been sick in a Portland hospital for the past three months, has improved and returned home. M. Brown, a recent arrival from the East was a visitor here Monday, looking over vacant land with the intention of purchasing. Mr. Mellin was visiting his property recently purchased by Mr. Illings, on Thursday last. The neighbors around here are very anxious to commence ploughing in order to begin putting in garden, but the season has been so unfavorable and wet that nothing can be done until better and warmer weather sets in. Mr. Payne, wife and family, have a farm at Maple Lane. He has rented a part of the Richardson place close in to the city for the benefit of his wife's health. She has recently recovered from typhoid fever. Lon Aldrich has been on the sick list for quite a long time caused by the long, damp, and cold weather. We hope the warm weather comes he will feel better. O. M. Keebaugh, Singer sewing machine agent, of Barlow, was calling here last week in the interest of business. Peter Burgess has sold his place to a Mr. Taylor, of Portland. Consideration \$750. The Independent Order of Owls will have another rousing time in the Willamette Hall Friday night. The lodge will be assisted by the Portland Order of Owls. Mr. Weismann has a very fine place here and is thinking of moving closer into the city. He would like to trade or sell his place here. Miss Ethel Pursfull visited with Mrs. Langford last week. She has just returned from visiting her sister-in-law at Elyville.

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infallible for Skin Eruptions, Eczema, Salt Rheum, Bolls, Fever Sores, Burns, Scalds, Cuts, and Piles. 25c at all druggists.

MOUNTAIN ROAD.

Eddie Christensen made a trip to Wilsonville Wednesday. J. Kaiser and M. Perlot took veal to Portland last week. We have some new neighbors, as Mr. Hersh and family, of Portland, have moved on the Pete Warner place. Miss Polly Koellmeier has been visiting her sister-in-law, Mrs. L. Koellmeier, for a few days. Mr. Eisele made a trip to Wilsonville Wednesday. A dancing party was given at the home of A. J. Hodges. It was largely attended in spite of the inclement weather. A most enjoyable evening was spent in dancing and playing of games. At midnight dainty refreshments of cake, coffee and sandwiches were served. Mrs. Zimmerman and daughter, Louise, spent Sunday with her mother, Mrs. Shrader. A crowd of friends and relatives from Portland, spent Sunday with Mr. and Mrs. Eisele. Mrs. Belle Koellmeier went to Willamette Tuesday to visit her mother, who is very ill at her home in that place. Ernest Boekman was a Wilsonville visitor Monday.

The Lash of a Fiend.

would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough, or hayfever. It relieves quickly and never fails to satisfy. A trial convinces. 50c, \$1.00. Trial bottle free. It's positively guaranteed by all druggists.

CLACKAMAS.

It is a question among the citizens of "our town" why the present condition of the roads in outlying districts, north, south, east and west—is permitted. Last year a special road tax of 2 mills was cheerfully paid, under the supposition that this district would receive the benefit. If the resulting amount of money has been used with so little improvement as appears, those in authority might well take heed and do some "fixing up." One strong argument in favor of the "annexation scheme" is the probability of securing better roads. The Clackamas school and home club holds its deferred annual meeting next Friday afternoon at 3 P. M. at the schoolhouse. Mr. Ed Hensch and family have left Clackamas and gone to reside near Canby. Mr. Rauch has obtained work at the Brodie ranch for the ensuing season. Henry Roadarmel has rented the Amusement Hall and furnishings, which, until recently has been under the management of Mr. Rauch. We are informed that W. T. Haberlach intends to enlarge his store building as soon as favorable weather will allow. Mr. Haberlach is working up a good trade and custom. His many friends will be glad to witness his prosperity. Mr. Newton has sold his place—known as the Kulekerbocker ranch—and is looking for a place in town to rent for a few months. Mr. and Mrs. Miller, of St. Johns, are negotiating for the old Wells'

place.

If the deal carries they will make their future home in Clackamas. Mrs. J. E. Chandler made quite a visit among friends in Portland last week. Mr. and Mrs. Wickland, of East Clackamas, are occupying their cottage in town, leaving the farm to their son, Victor, and his bride. Dr. Bell's Anti-Pain. A sudden attack of Cholera Morbus is dangerous. Keep Dr. Bell's Anti-Pain at hand, a dose relieves almost instantly. It also cures Diarrhoea, Cramps, Flux and all Bowel Complaints.

MOLALLA.

Although the storm is raging, the frogs have discovered their hearing and have begun their spring "lullaby." Our Teasel grover has purchased his brother, Sam's, crop of teasels. Same are being hauled to Molalla for trimming. Molalla Grange had quite a good meeting last Saturday. The juveniles were in evidence. Mrs. Rhoda Mackrell has been engaged to fill the duties of matron for the year. Delegates were elected to the county convention for the 8th of March. Resolutions of condolence were passed on the death of Bro. J. J. Bigelow and T. M. Cross. Molalla Grange 310 went on record as strongly opposing the annexation of the northern part of Clackamas to Multnomah county, but would favor declaring Multnomah county the City of Portland. The Molalla Grange Fair general committee was named by the worthy master to arrange for the annual fair this year. Grange decided to have a committee of three instead of five members as formerly. Worthy Lecturer, O. R. Daugherty had his corner well supplied with the current literature and had something doing from his stand. W. H. Engle gave a talk on road building, and J. W. Thomas gave a report of Grange fire and life insurance. The Molalla tribe is nearly extinct, it is hoped that the last one will live to ride an electric line we hope to have some bright day. There are a few people living that never enter a church, even on funeral occasions, guess they ought to know their fitness best. S. A. D. Humate finished surveying the Robbins and Harless' Addition last Saturday morning. Now people can buy "dirt" at Molalla. The "stumps" have been loosened. Others should go and do likewise, this is the

only way to build up a place. Give the people a chance to come among us instead of keeping them out.

Fred Watts moved his daughter Eva eight miles to the new home. She stood the trip fairly well and her many friends hope the change will be good for her.

Should a third of our county be severed from Clackamas, we would have to quit the (maas) and call the remainder "Clacka" a term fully expressing the conditions.

John Cross has been on the sick list for two weeks. Sidney Cardill has been grubbing with powder between showers.

Loggers Miller & Bowman are slashing a lot of brush for Cross. Frank Adams is moving regardless of the weather.

These changes were made on account of the death of the late President of the lodge, H. L. Hasselbrink.

Capt. Branson and Rev. Egan, who are holding meetings in Wilsonville are meeting with great success, and have made many warm friends.

The Rothenburg family is making preparations to move to their new home in the Molalla country, and Wilsonville and vicinity will lose one of its greatest rustlers, when Mr. Rothenburg leaves, as he has always taken a big interest in school and social affairs.

A petition has been in circulation to have the voting place at Pleasant Hill changed to Wilsonville, this petition being followed by a remonstrance which has been signed by all those residing near Pleasant Hill. A goodly number of the voters think that a better way would be to divide the voting precinct, and by so doing accommodate all the voters.

The Ladies' Aid Society will meet with Mrs. Marion Young, on its regular meeting day, Thursday, March 10. All persons interested are cordially invited to attend.

Mr. Smith recently made a trip to other parts of the county with a view of renting land, but returned to Wilsonville better pleased than ever with our little village, its surroundings and its people.

It is reported that a logging road is to be made its way through Corral Creek district in the near future, for the purpose of taking out cordwood.

March certainly came in like a lion and we hope the lamb-like propensities will show up early in the season, so that the farmers can get their fall plowing out of the way before spring is over.

The "Old Maid's Association" to be given by home talent in Corral Creek school district is scheduled for Friday evening, March 11 in their school house. The play is given earlier than was first planned on account of some of the old maids having decided to leave for brighter fields where marriageable men are more numerous. Bachelors are especially invited to attend. Don't forget the date, Friday evening, March 11.

Children Cry FOR FLETCHER'S CASTORIA

Everywhere we hear the plaint, "I wish it would stop raining." But instead of fretting, suppose we be a little thankful we are in the places we are, instead of even our sister states of Washington or Idaho, with their washouts and snows and snow slides, delaying traffic and transportation, killing and burying over a hundred under 20 feet of snow, and remember, so far, we have been of the favored few, with no very hard storms of wind or rain and the atmosphere would that once a month we have seen the face of the sun.

In spite of the storm Saturday nearly all the Staffordites, who belong to the Frog Pond Grange, and some visiting members, attended Grange and in the evening a goodly number went back to the dance, and had a fine time till midnight. Helme deserves great credit for he faced the storm and brought two of the prettiest girls of Stafford to the dance.

School resumed business again on Monday the 28th, with rather a slim attendance as so many are troubled with sore throat or an affection of the stomach.

Martha Aerni was very sick Saturday. Mr. Kellar's children are doing as well as could be expected.

Miss Elbe Grange and the teachers, had a sore throat Saturday. Miss Grace Fiedeman has a bad cough. Miss Bee Gage is very hoarse since facing the wind and rain Saturday to attend Grange. Miss Julia Weddie went over Sunday to stop a while with Mrs. Joe Byrum, of Tualatin. She will be greatly missed.

J. M. Meiklejohn The Homebuyers Friend

Phone East 1115, B-1437.

Mr. Gage seems to be somewhat better. The Elligsen brothers mended the hill a little, by the church. There were no services at the schoolhouse Sunday owing to the amount of sickness in the neighborhood.

We hear a whisper of a little scrap between a couple of men over some diphtheria flags set out by the Dr., but will say nothing about it as the least said is soonest mended, sometimes. An automobile passed Mr. C. Tiedeman when coming from town Friday, scaring his horses and they bolted. One got a leg over the top, and in their flight broke several straps, almost succeeding in tearing loose from the wagon, but with the assistance of his son, who was with him he succeeded in running them into a stone fence and stopping them. A neighbor coming along just then assisted to right things up, and got the team quieted down so they could drive home. We, who don't own auto's would like to have a law passed that drivers of such machines should stop in the woods half a mile away until we get past.

Miss Rotha Gage confined at St. Vincent's with scarlet fever, writes that she is getting along fine now, and there are a lot of scarlet fever patients there, whom she can visit if she wishes, if she doesn't mix in with other contagious diseases, but as she has now had measles, smallpox, the mumps, and scarlet fever, she feels she ought to be almost immune, and ready to qualify as a nurse in a pest house.

We have a great many sayings handed down from past generations, such as if March comes in like a lion it will go out like a lamb, and another that three first days of March determine the weather for the spring months. Well, March surely came in fierce enough, and according to the next saying we shall have an abundance of moisture and wind this month anyway.

The family at Mr. Nussbams are under the weather with colds, sore throat, and symptoms of lagrippe.
