SCHOOL NOTES

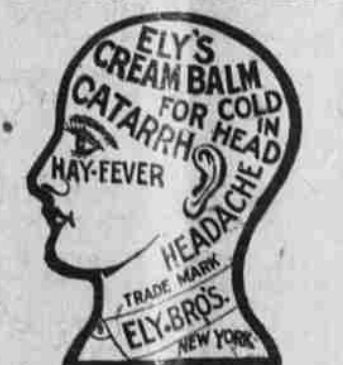

At Assembly on Wednesday morning, April 27th, Rev. Bowen, of the Episcopal church, addressed the students. He talked in a very entertaining manner on the voyage across the Atlantic, which he has taken many times. In addition to reminiscences of the various trips that he has made across the Atlantic he spoke for a few minutes on the immigration question. His talk was very much enjoyed.
On Friday afternoon the students of the High School were entertained with a debate on the question: Resolved, "That Immigration Should Be Further Restricted." Both the affirmative and negative sides gave good support to their cause, but the affirmative won the question. Those debating on the affirmative were: Evelyn Harding, Louise Huntley, Harry Harwood, and Joseph Alldredge. On the negative side were: Marion Money, Eva Alldredge, Ray Welsh and Eleanor Hayden. The judges were: Mesdames Brownell, Andrews and Scott.
A game of ball will be played between the O. C. H. S. team and the Herlow, team of Portland, this week.
Mrs. W. A. Huntley was a very welcome visitor at the high school last Friday afternoon.
Regular monthly teachers' meeting on Monday. The main subject was "Purposes" in school work, or how to make the daily work more effective.

Children Cry FOR FLETCHER'S CASTORIA

ORCHARD AND GARDEN.
Here's to the month of May.
The freezer of the buds,
The spoiler of the peach crop,
The maket of the floods.
Do not plant big blocks of any one variety of fruit. Mixed plantings of different kinds help the trees to fertilize each other's blossoms. Remember that the blossoms of some varieties are more or less self-fertile.
A careful orchardist will see that any tree which has been injured receives prompt attention. Wounds made by careless cultivators should be covered with grafting wax or cow manure and bound at once until the scar is healed.
Whatever you do, do not pile wood ashes over or close around the body of the plant. That would be almost sure to kill it. The best way is to sow the ashes before the plants are set and harrow them into the soil. However, if the foliage is dry and the ashes are not sown too thickly, no injury would be likely to result.

The Alumni of the State Normal at Monmouth ask your support for that school. You know we must have teachers. We must educate the boys and girls; a trained is the best agency for this. The cost is four cents a year on a thousand dollars. Vote. Yes, for Monmouth, and settle this question. J. B. V. Butler, Sec. Com. Paid Adv.

CATARRH

"KNOW OREGON" BANQUET.

Unique Feature To Be Held By State University Students.

Probably one of the most unique banquets ever held in the State is to be held soon by students of the University of Oregon. It is a "Know Oregon" banquet, at which none but Oregon products will be on the menu. Every commercial organization will be asked to furnish its reasons why its locality is the best in the State and these reasons will be set forth in characteristic booster speeches by prominent students from the various counties. Likewise, on the belief that the "proof of the pudding is in the eating," each commercial organization must back its reasons with the goods. Thus Hood River will vie with Medford for apples, Marion County with Lane for cherries, Astoria will show the world for walnuts and potatoes, and so on through the list. It is expected that the banquet will be a time of great merriment and at the same time serve to show the students the great resources of all parts of Oregon.

WOMANLY WISDOM.

Do not forget to congratulate mother on her birthday.
Equal parts of skimmed milk and water, warmed, will remove fly specks from varnished woodwork or furniture.
Don't see why the oven doesn't bake good? Just scrape the soot and ashes out from under it and you will get an eyepiece on that subject.
Mattresses will wear better and be more easily handled if made in three pieces of equal size, two to lie lengthwise and one across. The wear can be distributed evenly, and they are especially convenient in case of illness, as they are easily moved and aired.
Blessings on the wife who sits down without a bit of grumbling and mends all the holes in the socks of the entire family every week. Every week, mind you! If she did not there would soon be nothing but one great big hole to tackle, and that would mean money for new pairs.
The prudent young man who is looking for a wife who will "wear well," takes note of the appearance of her mother. If she is neat and trim, and looks as if she had help with the work and kindly and loving care, he may safely infer that her daughter will make a good wife.
People who throw away oatmeal or any other breakfast cereal, are throwing good money to the hens and losing the basis for the best gems they ever ate. You don't need a certain measure of cereal for the gems. Take your regular receipt and let the cereal take the place of part of the flour. You'll be glad.
Unless expressly directed to the contrary by the physician, all medicines which are swallowed in tablet or pill form should be immediately followed by a drink of some liquid, as water, milk, tea, etc. Concentrated medicines if allowed to dissolve in close contact with the walls of the stomach often irritate the organ.
All about us this May weather are thousands of bird babies. Every apple and pear tree, every shade tree is a nursery; the vine on our porch, the bare corner of the grass in the meadow, each has its hidden nestful. Their mission is one not only of joy and music but of economic value. Blessings on the bird babies! May their tribe increase!
Fill an old can of any kind with ashes, then pour in sufficient kerosene to saturate the ashes, and put the can in a safe place away from fire. A tablespoonful is plenty to keep a blaze till the wood is caught, and it is worth all the patent fire-kindlers. There is absolutely no danger, and by keeping a supply always made up in the kitchen will not be tempted to use the kerosene can with the too often fatal result.
When wishing a new and inexpensive dish, try browned rice, either as a cereal with cream or as a vegetable with butter or tomato sauce. Brown the dry kernels in the oven until they are the color of ripe wheat and put them away to cook when convenient. A cup of these, with two cupsful of hot water and half a teaspoonful of salt can be steamed in the top of a double boiler in forty minutes. Then the rice should be dry and light, although the kernels will not remain whole.
An easy way to make soap: For five pounds of fat drippings (cleaned and clarified by boiling it up with water and when cold taking it off in a solid cake) use a can of lye, five cents worth of borax (a half pound) and two cents worth of ammonia. Dilute the lye with six cupsful of cold water. When thoroughly dissolved add the borax and ammonia and stir in slowly the fat, melted but not hot. Stir for eight minutes, when it should look like honey. Have ready a large box, wooden or pasteboard. Pour the soap into it, and when set firmly, cut into cakes and put away to harden.

CURED TO STAY CURED.

How Oregon City Citizens Can Find Complete Freedom From Kidney Troubles.

If you suffer from backache—From urinary disorders—From any disease of the kidneys, Be cured to stay cured.
Doan's Kidney Pills make lasting cures.
Grateful people testify.
Here's one case of it:
A. J. Wood, 733 N. Front St., Salem, Ore., says: "About two months ago I began to suffer from kidney and bladder trouble. The kidney secretions were too frequent and painful in passage, causing me much annoyance. I had often heard Doan's Kidney Pills highly recommended and thinking they might prove of benefit I procured a box. I can truthfully say that the use of one box freed me of every symptom of kidney complaint. I strongly advise other kidney sufferers to give this remedy a trial."
The above statement was given on Jan. 30, 1906, and was confirmed on Nov. 20, 1909 by Mr. Wood. He said: "The statement I gave in 1906 publicly recommending Doan's Kidney Pills was correct. This remedy cured me of kidney trouble and I have had no return attacks."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other. 5-6-12.

THE POULTRY YARD.

Let other folks do the fancy poultry business. You stick to practical work. Keep the brooder perfectly clean, and always feed the chicks in a clean place if you want them to live and thrive.
The baby ducks are just as well off, in fact better, without water to swim in until they have grown their crop of feathers.
Bits of meat carried out with brine from the barrel and left on the ground will give hens serious bowel trouble. Don't risk it.
