## NEWS OF THE COUNTY

### STAFFORD.

Again we have had a little warm sprinkle after some days of sunshine. On Sunday afternoon a Sunday school was started at the school house, and will continue every Sunday at 2 P. M.

Mr. Powell again had a sick spell and called a doctor in on Monday morning. It would be money in the pockets of the "powers that be" if they would keep the Pacific States Telephone in running order at least half of the time. At present it is dead to the world.

Mr. and Mrs. Lorea Kruse spent the day Sunday at Jack Ellegesen's. Mrs. Escert, daughter of Portland, and her son, drove out Sunday.

Miss Grace Ledeman is to help Mrs. Thomas, who has been sick and unable to do the work, as they have men working on the barn. Mrs. Millem went home to attend the grange on Saturday and may go to the State Grange this week.

Mr. and Mrs. Nussbaum took their South Dakota visitors to Portland Saturday to see the city hall, the park and other places of interest.

Mr. Aerni is pasturing his cattle in the Iron Company's pasture on the mountain, having the little boys drive them over before school and go for them after school.

Jake Shantz has been sawing wood for Mrs. Nemeec and has moved his engine over to Gage's, where he has a job.

A number of the faithful are preparing to attend the State Grange, which meets in Oregon City this week.

Mr. and Mrs. Nussbaum took their South Dakota visitors to Portland Saturday to see the city hall, the park and other places of interest.

### WILSONVILLE.

Robert Thornton, with his wife and child, left Tuesday for the East. Mabel Seely has been visiting for some time at the home of her brother, Charles, at Woodburn.

Ellen Brobst, of Oregon City, visited her parents on last Saturday and Sunday in Wilsonville. Mrs. Norris Young spent a few days visiting relatives in Portland last week.

Mrs. Jemison went to Portland on Friday to meet her sister, Mrs. Put-

nam, of Long Beach, Calif., who will visit with her for a few weeks. Fred Stalacher's brother left last week for his home in Wisconsin, but it is likely that he will return and buy a place in Oregon.

Allison Baker spent Monday in Oregon City shaking hands with old friends at the County seat.

Mary Murray is visiting her parents at their large farm, near Seattle.

Miss Lewis Lamb, who is playing in "Cousin Kate" in a Portland theatre, visited her friend, Miss Nell Murray, and her uncle, Andrew Woods, last week.

Miss Fletcher, of Portland, visited her sister, Mrs. Joe Epler, on Saturday and Sunday.

Norman Say took an early car to Portland on Saturday, had a piece of machinery fixed up into a spraying machine, and was back to work before 10 o'clock, owing to the splendid service of the Oregon Electric Company.

The Methodist Ladies' Aid Society is going to give an entertainment and supper in our village on the evening of the 21st of May. The proceeds are to be for the very excellent purpose of building a church at Wilsonville, so we ought to join hands with these good people in their undertaking.

The M. B. A. lodge initiated four new members into the mysteries of its order on last Saturday evening.

this place, and some land is changing hands. F. J. Ridings and his two daughters, Marie and Retta, left last week for the hot springs at Medical Lake, where his father and mother went some time ago for their health. At the last report they were improving.

Wallace Albright is to buy an auto soon. Mr. Shoemaker is improving his property by building a large kitchen. His property is on Main street.

Olaf Olson is preparing to build on his property on north Main and Yoder-ville Avenue. There are other improvements under contemplation.

G. W. Bentley has returned home from Oregon City, where he was called as a juror. Children exercises on the last of May.

Several of the young people of Marquam attended the tea cream social at Scott's Mills Saturday night.

Sherman Miller and Arthur Nelson went to Gresham as delegates to the League Convention, which convened on the 6th, 7th and 8th of May.

The young people of Marquam met last week and organized a literary society. The committee is to meet Monday night and adopt its by-laws. The committee is Rev. Mary, Bert Hubbard and Miss Echo Larkins.

The prospects for an extra good apple crop were never better, but the cherries and pears will be light and as for prunes, well, you have to strain your eyes as you do when looking for Halley's comet in order to even see one prune. There will be about one-fourth crop of prunes in this vicinity this season.

Marquam will soon be honored with an orchestra band.

Dr. Bell's Antiseptic Salve is guaranteed for tetter, ringworm, eczema, chapped hands and lips, running sores, ulcers and in fact all skin diseases. Good to use after shaving. 25c a box.

### SUNNYSIDE AND ROCK CREEK.

Died, at 1:20 o'clock Saturday morning, May 7th, at the home of her daughter, Mrs. Eckles, Mrs. F. M. Hudson. In three weeks she would have been 78 years old; she suffered terribly of late and they had to keep her under the influence of opiates. The funeral service was held at the home of Mr. Plummer at the house Sunday at 1 o'clock, and singing by the Sunnyside quartette. Interment was at Multnomah cemetery. The family wishes to thank those who so kindly assisted them in their sad bereavement.

Mrs. George Deardoff does not seem to improve much, but is able to sit up part of the time. We hope to hear of her improving soon.

The Sunnyside boys have rented a piece of ground from Roy Johnson for a ball ground and have got it all in order and played against the Harmony team last Saturday. The score was 5 to 1 in favor of Sunnyside.

Joe Deardoff made a trip to Portland for cement on Monday. He sold a cow and calf to a Sellwood butcher Friday.

Mr. Stanton has traded 3 acres of his place for property at Leata. Frank Stahl has gone to bacheling and he will have no wife to storm. Will Donley's hand is getting along nicely now.

Mr. Killen took several porkers to town Friday.

Mr. O. Bevan made a quick trip home last Saturday, going back again on Sunday. He is reported as doing well.

Several ladies called on Mrs. Bevan Saturday, it being her birthday. She received several presents. A good lunch was enjoyed by all.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all dealers.

### CARE OF ROADWAYS.

They Should Always Be Dustless to Be Considered Ideal.

The good roads era has begun in many states, and already the steam roller, the piles of crushed rock along the roadside and the digging out of the original roadway are familiar sights in many of the eastern states.

The roads built are generally of approved macadam construction, which, completed, are perfect strips of white ribbon running through the green fields and hills of the rural sections.

These roads are perfectly built, and as soon as completed the farmers and other ratepayers contentedly sit back and feel contented. This is a serious error and one being made in many states.

Many fail to realize that whenever dust is raised a road is being destroyed. This is particularly the case on smooth macadam surfaces, where there is nothing to hold the dust on the road and where every cross wind blows off any loose material.

As soon as roads are built arrangements should be made to keep them in repair. Some dust preventive should be used immediately macadam roads are completed in order to prevent dust.

Oil tar and many special preparations are now on the market, and the communities should be educated to look upon these additions as a legitimate part of the road maintenance.

California has its oil road, over which motoring is a pleasure to the motorist and not a dust path to the citizen who happens to be on the road the same day or who has the misfortune to reside along a well traveled highway.

Massachusetts has proved that road treatments are a success and more economical than continuous applications of water, and in England dust preventing is always considered a part of the road problem.

### HIGHWAY OF THE FUTURE.

One Constructed of a Material Durable For Heavy Motor Traffic.

All road builders are now engaged in trying to devise a road which will stand motor traffic. Many new methods have been tried with varying degrees of success, but none of them

seems to be perfectly satisfactory. If broken stone is to form the wearing surface, then some means must be found to hold the binding particles so firmly that they cannot be sucked out, and sufficient strength must be given to the mass to enable it to withstand the sliding action of the wheels at bends and turns. Several kinds of tar macadam answer fairly well, but they are expensive.

It would seem that the most promising kind of road for heavy automobile traffic is what is called durax in England. It is a pavement of three inch irregular cubes of hard stone laid in small segments of circles.

These stones can be cut by machinery and are comparatively inexpensive. They are laid without grout, but there seems to be no reason for its omission except the cost. Great quantities of this kind of pavement have been laid in Germany.

Unique Roadmaking Plan. Judge William E. Porter of Lawrence county, Pa., has a unique idea for improving the roads. His plan is a jail on wheels—that is, a place where prisoners can be locked up at night and transported from place to place and employed in roadmaking during the day. He put his idea to a test, and the results were eminently satisfactory. The prisoners graded away a high hill on the West Pittsburg road near Newcastle and constructed a cement bridge over a culvert eighty feet long. The only expense to the county from this bridge that would ordinarily have cost thousands of dollars was for the material and the services of an engineer. The men employed were sentenced from ten to ninety days and were informed that the sentence would be materially lessened if they would work on the roads and not attempt to escape, and they worked.

Good Road Maxims. A good road affords an excellent way to church. A dollar spent on the road is as good as two spent on the farm. A community is known by the roads it keeps. Better go two miles on a good road than half a mile on a bad one. The wide tire maketh the glad path master. A bad road and its travel are soon parted. Many path masters spoil the roads. A little gravel is a dangerous thing. Sow deep or sow shallow and spring. The horse knoweth the bad road and leteth his ears drop. Many country roads are paved—with good intentions, but for the most part with lumps of sod, stones, roots and rubbish.

Improvement Matters. If an embargo of the same force were laid on the ports that is laid on farm traffic by bad roads the noise that would follow could be heard around the world.

If the money is expended wisely and honestly a people can tax themselves rich for the construction of good roads. Road repairs to be effective must be continuous.

"Push! If you can't push, pull. If you can't pull, please get out of the way."

Caused by Lack of Good Roads. The lack of good roads is a primary reason is held to be one of the chief causes of the decline of British agriculture.

BANISH CATARRH. Breathe Hyomel for Two Minutes and Stuffed up Head Will Vanish.

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time, breathe Hyomel (pronounce it High-ome.)

It will clean out your head in two minutes and allow you to breathe freely.

Hyomel will cure a cold in one day, it will relieve you of disgusting sniffles, hawking, spitting and offensive breath in a week.

Hyomel is made chiefly from eucalyptol, a soothing, healing, germ killing antiseptic, that comes from the eucalyptus forests of inland Australia where catarrh, asthma and consumption were never known to exist.

Hyomel is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and cure is almost certain.
