Mr. Morgan was at one time in the hotel business in Salt Lake, Utah, and has come here for the benefit of his health. For some time he has been in the hotel business in Portland, but decided to sell out at that place and come to this city. It is now contemplated to erect a two-story brick hotel building. Mr. Peterson and wife, who have recently been in charge of the hotel, have been very successful in their management of this hostelry.

Adam Knight, Who Was Recently Appointed Postmaster

Adam Knight, who was recently appointed postmaster of Canby, has taken charge of the office. Mr. Knight is well and favorably known in Canby, where he was born and raised, and throughout the southern part of the county. His is the son of the late Adam Knight and Mrs. Knight, Oregon's pioneers. Mr. Knight has always taken an active interest in the county's welfare, and his appointment has been satisfactory to all. He was formerly mayor of Canby, and is at present one of the councilmen. The late J. F. Devoy was postmaster for 12 years, until his health failed him, and he was obliged to turn the office over to his daughter, Mrs. Mamie Knight, who was untiring in her efforts in serving the general public, and which were greatly appreciated by the many patrons of the postoffice. During Mr. Devoy's administration general satisfaction was given.

Mr. Werf has the contract of hauling the timbers to this city.

### No Fourth of July Celebration Here.

A meeting of the citizens of this city was held on Monday night in the city hall to consider a Fourth of July celebration. It was decided not to hold one this year, as there is to be a monstrous celebration in Oregon City and other towns are contemplating a celebration.

### Delegates to Eugene.

Adam Knight and Andrew Kocher, delegates of Canby Lodge No. 156, I. O. O. F., to the grand lodge of I. O. O. F., and Mrs. Adam Knight and Mrs. Carrie Seaton, delegates of the Rebekah Assembly, will leave for Eugene on Monday morning, where they will remain during the three days' session.

### Basket Social at Central Point.

A basket social was given by the members of the Methodist Church at Central Point on Friday evening. The literary and musical program was listened to by a large and enthusiastic audience. Many beautiful baskets were sold, and brought good prices. The net proceeds amounted to about \$20, which will be applied on to the minister's salary. Rev. C. L. Creevy and C. F. Romig, of this city, attended.

### Knights of King Arthur Defeated.

The Knights of King Arthur, of this city, went to Carus last Saturday, where they crossed bats with the Carus team. Knights, although were gallant, they met with a glorious defeat. They were slightly handicapped as the pitcher from their team was unable to play, and many of the boys of the Carus team were much older. A return game will be played in this city on Saturday afternoon.

### Baseball Game on Sunday.

One of the most exciting baseball games of the season is that scheduled at Canby on Sunday, May 15, when the Canby nine will meet that Mount Angel nine on the new diamond at the Clackamas County Fair grounds. The game is called at 2:30 o'clock, and Mayor H. A. Dedman, of this city will pitch the first ball over on the new ball field, which is one of the best in the state. The Canby band will furnish music during the game. This is the opening game at Canby, and during the baseball season many good games are scheduled. The Canby team is composed of some of the best ball tossers in the county. Last year the team won nearly every game it entered. The admission will be 25 cents, children under 12 years, 10 cents.

### Pupils to Take Eighth Grade Examination.

The following pupils of the eighth grade will take the eighth grade examination on Thursday and Friday of this week. Louis Mitts, Roland Hewitt, Ralph Coleman, Orlando Romig, Alta Skeen, Judith Sandsness, Adelbert Gordon, Wilbur Meeks, Rossier Wilkinson, Dalphine Hissell, Roland Porter. During this examination Prof. T. J. Gill has arranged to have the seventh grade also take an examination, and the sixth grade will be dismissed during the three days' session. This is one of the largest classes of the Canby school that has ever taken the eighth grade examination and those who are to take it are busily engaged in preparing for same.

### Death of Mrs. Annie Scheer.

Mrs. Annie Scheer, wife of George Scheer, and a prominent resident of Macksburg, died at the family home on Saturday evening, after an illness of almost a year.

Mrs. Scheer, who has been a resident of Clackamas County for the past 25 years, was born in Germany, July 24, 1849. During her residence in Clackamas County she has made many friends who regret to hear of her demise and who sympathize with her family. She leaves a husband and five children, who are: Miss Mary Scheer, of Macksburg; Mrs. Kate Schwalauer, of Needy; Theo-

dore Scheer, of Canada; Phillip Scheer, of Macksburg; and George Scheer, of Canby.

The funeral services were held at the family home at Macksburg on Monday morning at 10 o'clock, and were conducted by Rev. Meriz, of Macksburg. The interment was in the Zion cemetery. Many friends of the deceased attended the funeral and followed the remains to their last resting place.

### Heavy Demand for Canby Asparagus.

There is an unusual large demand for Canby asparagus, and the growers are now shipping from here to other points about 500 tons daily. The asparagus raised here is commanding the highest market prices in the Portland markets, and it is probable that if the plants can be obtained next year there will be over 100 acres planted. The Mammoth Green seems to be the choice of the growers. The strawberry crop will come on with a few days of sunshine. Mrs. Adam Knight has the honor of having the first ripe berries on her place. These were picked two weeks ago and were of the Clark's Seedling variety. The soil of Canby is well adapted to the growing of the finest berries ever marketed, and can always find a ready market.

### Power House Nearing Completion.

The steel reinforcing and concrete work of the power house that is now under construction at this place for the Canby Canal Company is completed. The two water wheels are set and the foundation for the 400-horse-power generator is finished, and the canal extending from the headwaters of the Molalla at Meadowbrook is practically completed. This work was somewhat delayed in spring owing to the high waters of the Molalla river, and it is probable that the power house will be in operation by the latter part of June or the first of July. The grade of the flume is completed to the crossing of the Southern Pacific railroad track. The track will be spanned with a 24-inch pipe, and it will be necessary to synch 300 feet of this. The switchboard, which will arrive about May 15, is of the most expensive marble, as it has to withstand 6,000 volts.

### It is now contemplated by the Canal Company to establish an electric road to Molalla, and this will be operated by the storage system, no trolley wire to be used.

One of these cars is good for 100 miles with only one charge, and the power plant that is now under construction at Canby will be powerful enough to operate this for 10 years. This will be for freighting only, but a passenger car will be drafted to accommodate those who are sending the freight to this city, where it is to be shipped to way points. This line will extend to the river, the management claim, provided the free locks are established at Oregon City. There is more farm produce shipped in Canby and in the Molalla country than in any part of the entire county, and if the proposed road is built it will not only be a great benefit to the farmers residing in the Molalla country but to Canby as well. The cars will run on regular schedule.

### Fishing Party Meet With Success.

A fishing party composed of Mr. and Mrs. W. F. Blair, Mr. and Mrs. Ed Bradt and Clifford Willis left here on Sunday morning to spend a day on the banks of the Molalla river, where they return to this city. The party succeeded in landing some of the speckled beauties that the Molalla abounds in. Mrs. Bradt caught the largest fish, which measured 14 inches, and it was with great difficulty that it was brought to shore. Mr. Blair says that he caught seven; Mrs. Blair two; Clifford Willis, two and Mr. Bradt none.

## Children Cry FOR FLETCHER'S CASTORIA

### WEATHER SIGNS.

WHEN the parrot shrieks his strain  
When old maids prepare for rain,  
When the skies look like a shad  
Weather's likely to be bad.  
Morning gray and evening pink  
Is a rain prophetic on the blink.  
When these hues reverse, be gone,  
That's the time for your galosh.

If the streets are damp and wet  
It's been raining, you can bet.  
Heavy drifts wherever you go  
Are a perfect sign of snow.  
Sleazy snowballs "neath the ear  
Are no sign that all is clear.  
Streets as soft as morning mush  
Send the traveler through the slush.

Furry taste in morning bright  
Means a rather dampish night.  
Bill unpaid and tailor blue  
Mean a stormy day for you.  
Leaks in pipes and holes in roof  
Shed forth the waterproof.  
Water pitcher brimming o'er  
Means wet weather on the floor.

Three months' note ahead of you  
Means a heavy fall of due.  
Petbly ice along the street  
Is a likely sign of sleet.  
If the skies are full of doubt  
Better get your 'brella out.  
Hats a-dancing on the way  
Mean a somewhat windy day.

Heavy awaying of the trees  
Indicates a lively breeze.  
Ship's a-swoosh without sail  
Are a sign of gusty gale.  
Piercing shrieks through nursery wall  
Are an omen of a squall.  
Best girl smiling on your knee  
Heralds fine days soon to be.

Would you know where you are at?  
Paste these items in your hat!  
—Carlyle Smith in Harper's Weekly.

### Heard on the Highway.

Even of de saints could git de devil into de deep sea, dey ain't enough of 'um in de worl' ter drown him.

Ef a man kin pick a banjo, an' pick it well, he's kin' lots better than de feller dat don't half way play de planner.

Sometimes old Trouble flies high, an' when he comes down he don't keer whose roof he breaks in.

I don't mind workin' in dis worl', kaze in de end, ef Gabriel don't blow his trumpet an' wake me up too soon, I'll git a mighty good, long rest.—Atlanta Constitution.

### Slow Death.

A suburban chemist had been advertising his patent insect powder far and wide. One day a man rushed into his shop and said excitedly:

"Give me another half pound of your powder, quick, please!"

"Oh," remarked the chemist as he proceeded to fill the order, "I'm glad you like the powder. Good, isn't it?"

"Yes," replied the customer, "I have one cockroach very ill. If I give him another half pound he'll die."—Home Journal.

### Modern Science.

John on his return from Sunday school announced with some interest that the Arnold boys had capsized their sailboat and had been picked up nearly drowned and brought ashore by Captain Jim.

"That comes of sailing on Sundays," snapped Auntie.

"Oh, no," explained John, with disconcerting superiority, "Captain Jim said it was because they had the sheet made fast."—Success Magazine.
