WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physicisa of over 40 years' experience—e skilled and successful specialist in the diseases of women. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "se examination." Dr. Pierce holds that these distasteful examinations are generally need, and that no woman, except in rare cases, should submit to them.

Superintendent Gary spoke at Low er Logan on the 17th, in the interests of a union high school. The people present decided in fayor of the school, provided a satisfactory site could be agreed upon, and it seems that point is settled, which will please nil the friends of higher education.

C. C. Robins and family were out from Portland on the 15th, and the writer took a flying auto trip with them through Willamette, Stafford and Frog Pond to Willsonville. The trip was through scenes that were familiar in boyhood days. We stopped at Stafford cemetery and read many dear and familiar names in the silent city. A few hours were spent with the Sharp family at their big, fine farm. The ferry landing at Wilsonville was about the only thing that looked as it did when Jesse Boone, grandson of the great Daniel, operated the ferry. The big bridge and store, also the hall building and numerous cozy residences have transformed the place.
