MACKSBURG.

Haying is about done. Nobody suffered any loss from rain this year. J. W. Smith is still in the mountains. His daughter Leah took a load of provisions in to his last week. Easley Gribble and Billy Miller attended the Chautauqua at Gladstone Saturday night, and stored their brains with useful knowledge, while the lighter minded of the Macksburg youth were gracefully dancing at Aurora and Liberal. Ed. Harnack was the victim of an unfortunate accident Monday. The guilty instrument was a gopher gun, which was accidentally discharged and badly shattered his hand. It was necessary to amputate the thumb and two fingers. W. K. Gribble is entertaining a jolly house party, consisting of his daughters, Blanche and Lilly, and their friend, Miss Evelyn Johnson, of Portland. Jess Heppler, who has been sick with measles, is about well. Sylvester Gilson and Billy Bowers caught a fine string of trout Sunday, and a certain pretty young lady had a fine dish of trout that night for supper. Patriotism
The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a faint leader. Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.** The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

with old friends and neighbors on Sunday. Harry Say sold some fine apples to the Commission Company of Oregon City last week, and an expert packer from Hood River, was sent up by that progressive firm, to see that the fruit was placed on the market in proper shape. Erin McDonnell has been boosting for good roads, on the other side of the river from the village. The surveyors are camped at Aubrey Wood's farm, and are seemingly making plans to stay some time. Emil Tauschman is kept busy with his ferry, and this is proof of the large number of automobiles, wagons and teams continually crossing at Wilsonville. Emil is a good hand at business, and accidents with him are practically unknown. Ray Baker went to Portland on Sunday to have some dental work done, and to visit his brother, Clyde, for a few days. Are you doing something to help the popular Wilsonville young ladies whose names have appeared in the Enterprise contest? Real estate has been verging on a boom in Carral Creek district for the past week. Chris Wilhelm refused \$150 an acre for his property, and Harry Say refused \$175 an acre for his farm. Mr. Brobst and daughter, Elizabeth, accompanied Miss Ellen Brobst to her claim near Prineville, on Thursday. Miss Brobst's many friends here wish her every success in her new undertaking. Mr. Rourke, the efficient manager of the Oregon City Commission Co. and Mr. Akerril, the Portland buyer for the same concern, were in Wilsonville on Wednesday, looking at hay and grain and making arrangements with some of the farmers near our village for their patronage for the home county commission firm. Mr. Rourke is a practical business man, reliable in every way, and the Oregon City Commission Co. is fortunate in having him for its manager. Little Miss Anna Ridder is working to win one of the prizes in the Enterprise contest. Wilsonville people should hold their votes and subscriptions for her, as she is deserving of support.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisonous matter, cleanse the system, cure constipation and sick headache. Sold by all druggists. C. B. Hysom, Sr., and Mr. Hofstead dug a well for Ben Hysom last week. J. Ownbey spent a few days last week in this vicinity. Roscoe Clark, who has been working in a butcher shop in Portland, is at home. Mrs. A. Mants went to Portland to take her granddaughter, Thelma Bryant home, last week. Mrs. Olive Exton, of Dover, was visiting her parents, Mr. and Mrs. Wiley May, last week. Wm. Hall has a very sore hand, having an abscess on the back of it. Messrs. Emil Schwack and Henry Boguslaski have returned home after an absence of two months in a logging camp as cook. Mr. Frank Bullard and family and Mrs. Newman and children are at the coast at Newport this week. Mrs. Kandall and daughter, of Springfield, are visiting this week. Joe Harrington, of Sellwood, was calling on friends in the berg Tuesday of this week. Mrs. Melvin Smalley, of Seattle, was calling on friends in town Sunday. She, with her children, is visiting her parents in Salem, and Rev. Smalley, of Portland. Mr. and Mrs. Mants accompanied by their daughters, Annie and Mattie, visited Mr. and Mrs. Hyatt, of Willamette, Sunday. Walter and Maud Griffin are at home again this week. Mr. and Mrs. Vanho's daughters, Cora and Emma, of Goldendale, are visiting here this week. Mrs. May Fairclough went to the Ogle Mt. mines with her husband this week to rusticate about two months. The Mountain View improvement club held its regular meeting Tuesday evening. Arrangements were made to give a basket social at the close of the next meeting. Election of officers will be held next meeting and a large attendance is desired. Ladies bring baskets and boys bring money to buy them. Mr. Lewellen will be auctioneer to sell the baskets.

by the dry spell of a month which we have passed through. Mr. Weddle has been hauling his hay in the field. Miss Dorcas Sweek, of Burns, has been visiting her grandparents, Mr. and Mrs. Gage, and is at present visiting with a family by the name of Wallace, near Cleone. She has decided, we believe, to return to Eastern Oregon after a visit with relatives and friends. Mr. and Mrs. Hatton, who have been living in California for the past four or five years, have returned to Oregon on account of the health of their youngest daughter, and spent a couple of days in Portland house-hunting. Having become located and their goods moved in they are at present visiting and resting at the home of the wife's parents, Mr. and Mrs. Gage. They took an ocean voyage, and being more or less seafish they have only recently recovered. Miss Grace Fiedeman has been very sick for the past two weeks with pneumonia, and although being very badly affected is considered out of danger at the present writing. Mrs. Gebhardt has been quite ill, and a pure food inspector has been growing about for a week, but we understand he found Stafford in pretty good shape. Mr. Nusham, we believe, is a little ahead on harvest, having cut one field of oats. The German Baptist church and

parsonage are receiving a new coat of paint, and as they have been recently treated to a new roof and new picket fence added, and that also painted, it all adds materially to the looks of the country, and if the old horse shed falls down, and we decide to build a new one either above or below the present site, that will be a decided improvement also. The painters are hoarding with Mrs. Powell. Miss Anna Ridder, of Wilsonville, is in the contest and wants Stafford friends and acquaintances to save their votes for her. All Skin Diseases Yield readily to treatment with Dr. Bell's Antiseptic Salve. We guarantee it. 25c a box. Sold everywhere. For Sale by Jones' Drug Co.
