E. B. U. Stenographers and Bookkeepers are in Great Demand

Business firms are recognizing the superior training of our Business University over the work of the business colleges. Our standard is higher; our work is much more thorough; our work is more complete; and our students are more proficient in every way.

OUR TEACHERS ARE TRUE TEACHERS.

The reason for this is that we use teachers for teaching. They are trained for the work; they know how to get mental development. We do not use office managers, clerks or bookkeepers for teachers; they do not know how to teach. For this reason, our pupils advance much more rapidly than the pupils in the large business schools.

We Love To Teach: Everybody Busy: Everybody Happy.

Just the school for the earnest young man or lady who desires to learn and have the highest and best training at reasonable tuition rates. You are sure of individual help and instruction. You know the large schools cannot give it. You should investigate our work. Do it now; do not wait. In session all the year in day and night school.
