His horses are now in quarters at the fair, but there is considerable complaint of the condition of the buildings that have to be used by these coming now. The sheds are said to be in a leaky condition, allowing the rain to come in. It is probable that these will be repaired at once if given the animals that are quartered there proper protection. The larger barns on the grounds have not yet been opened to the horsemen, but will probably be later. These barns are practically new and will allow the horses much more comfort than those near the main entrance that are now being used. Leader Water System Installed. G. C. Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indiscrete. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse. It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial. It Makes Weak Women Strong. Sick Women Well. You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition.

FAVOR BURNETT FOR LONG TERM

CANDIDATE FOR SUPREME BENCH HAS BEEN IN JUDICIARY FOR MANY YEARS.

HAS MADE MANY NOTED DECISIONS

Stands Next to Judge McBride in Temperament, Ability and Experience, and is Well Qualified For Place.

Next in judicial temperament, in legal ability, in experience on the bench to Hon. Thomas A. McBride of this county, who is a candidate for the four year term on the Supreme bench, is Hon. George H. Burnett of Salem, who seeks one of the six-year terms. Through his long judicial career, his legal training, and his general standing, Judge Burnett is well qualified for the office he seeks, and is a fitting running mate for Judge McBride—one who should receive the unanimous support of Clackamas County. Judge Burnett was elected judge of the Third Judicial District for three successive terms in 1892, 1898, and 1904, coming into office at the same election with Judge McBride. In

many years. He favors the construction of good roads, and believes in permanent road work, and is strongly opposed to building county roads cheaply. He believes in an economic and businesslike administration of county affairs and respectfully solicits the votes of the electors of Clackamas county at the November election for the office of Commissioner.

STRINGTOWN PEOPLE ALARMED. Man, Acting queerly, Appeared Several Times Sunday.

The residents of Stringtown, near Canemah, turned in an alarm to the officers here Saturday that a crazy man was in that vicinity. It was some time before the officers reached the place and the man disappeared in the brush in the hills before their arrival. The man, who is claimed to be about 45 years of age, had been seen acting in a queer manner, and would run and hide in the brush. The officers searched for the man several hours but he was not apprehended. Sunday Mrs. Rutter, who lives in Stringtown, reported having seen a man acting queerly in her corn patch, by untying and tying his shoes. It is probable that a further search will be made for the demented man, and he will be placed in the Asylum.

election of 1904 the vote stood thus with four candidates and two to elect: R. P. Bole, 4584; B. L. Eddy, 7526; William Galloway, 7752; Geo. H. Burnett, 9785. In that district in the recent primary election, the vote for the candidates for Supreme Judges on the Republican tickets stood as follows: Geo. H. Burnett, 4504; F. A. Moore, 4137; T. A. McFriede, 3648; Henry J. Bean, 2315; Wallace McCamant, 2388; Will R. King, 184; W. T. Slater, 168. This vote shows the comparative estimate placed upon him by the people he has served as judge for more than eighteen years. In his service as judge, without exception, Judge Burnett sustained the validity of every law enacted by the initiative process whenever such a law was called in question before him. Among such measures are the local option law and the gross earnings tax laws. Many of the questions were now and arose for the first time before him. The Standard Oil Co. and Wells Fargo & Co. resisted payment of

their gross earnings taxes in suits brought before Burnett's court for the recovery of such taxes, but he sustained the laws enacted by the people on that subject and gave judgment for the State, although it was resisted by able counsel on almost every possible ground. The factory act, so-called, designed to better protect laborers in mills, factories and other manufacturing establishments, was also sustained by his decisions in several cases. He gave judgment for the State in a case in Linn County against the Corvallis & Exeter R. R. Co. to recover a penalty from the company for refusing to comply with the order of the Railroad Commission to build a depot at Lyons for the better accommodation of shippers and passengers at that point. The Broadway bridge case in Portland was another instance where Judge Burnett sustained popular legislation against all manner of attack. Judge Burnett has been called to bear important cases in almost every county in Western Oregon outside of his own district. Such a one was the case of Chaucey V. Wollenberg and others in which the plaintiff, asserting himself to be the heir of the original donation claimant, sought to recover from some three hundred defendants an interest in the land composing about one-half of the city of Roseburg, valued at probably a million dollars. He decided the case for the defendants. It has been charged against Burnett that he favors corporate interests in his decisions, but when Judge Gilbert and Wolverson had recommended him to the President for United States District Judge, it was attorneys for corporations, Messrs. Wilbur and McCamant, together with Judge McGinn, who opposed him and circulated the petition among the lawyers of Portland in favor of Judge Bean. Another answer to this charge is the vote he has always received in the third district where the electorate is by a large majority composed of farmers.

Vote No on Annexation. The portion of Washington county proposed to be annexed to Multnomah is seven miles wide, contains 112 of our 730 sections, four and a half of our fifteen millions of taxable property, one-fourth of our voters and population and one-half of our railroad mileage. 500 voters of this strip have signed a remonstrance against annexation—a clear majority, as less than 300 signed the petition and about 900 votes were cast at the last general election. In addition many who first favored annexation now oppose it and say the cut was made too deep. We ask you to vote No on Washington-Multnomah division—W. D. Wood, Chairman Anti-Annexation Committee, Hillsboro, Oregon.

YOU CAN ORDER your COAL by TELEPHONE?

THE TELEPHONE is the coal man's best salesman. Many of his customers he never sees, for their orders come by wire and their checks by mail. If you move into a new house or have an unexpected need of fuel, you can often save a day's time by telephoning your order. In the mining and shipping of coal, the Bell Telephone has become an important factor. The wholesale markets and sources of supply are kept in constant touch with the Bell Long Distance Service and the danger of a coal famine greatly reduced.
