EBY'S OPEN LETTER.

To Hon. W. A. Dimick, Republican Candidate for State Senator. Dear Sir: In the contest now pending for the office of State Senator, I have repeatedly charged you with being interested in your position regarding the late assembly and I have said that you are not a Statesman No. 1 man at heart and never were.

In support of my charges I have cited the argument that you put forth and the assault that you made against the assembly and its candidates during your recent primary campaign and have compared this with your interview given out and published in the Telegram of September 20, 1910, in which you declare for the support of the entire Republican ticket, which includes assembly candidates, and have also compared it with the leading editorial of the Oregon City Enterprise of the same date in which it says that you have lined up in support of the whole ticket.

I understand that you have publicly said that I am unfair in this matter and that in making these charges I am not treating you right; now I want to assure you that I have always been your friend, personally, and I hope that whatever may be the result of this campaign and election we may still be friends, and that I had no disposition to be unfair towards you, I have taken an active part in a number of campaigns in this County, and I have never yet made an enemy as a result thereof, and I do not wish to do so now.

In order that the voters of this County may be the judge of whether or not I am fair in this matter and that you may have a full opportunity in the next issue of this paper to answer me, I beg leave to ask you a few questions.

First: Is it true as I have charged that you are now supporting Mr. Bowerman, the Republican Assembly candidate for Governor? Second: If it is true that you are doing this, how can you reconcile this position with your position in the Primary fight when you said that the assembly and its candidates were the old corrupt bunch of politicians backed by the corporations of this state and that if the Assembly candidates were nominated and elected they would take away from the people the Direct Primary Law, Statement No. 1, the Initiative and referendum, and the other reform laws which have been enacted by the people?

Third: If Mr. Bowerman is elected do you believe that he will be the enemy of those reform measures? If not, do you think he has reformed, or have you had a change of mind?

Fourth: If you have always been a Statement No. 1 man, why did you hesitate to sign the pledge in 1908 when you ran for Representative, and why did you file your declaration without signing this pledge and then change it after having campaigned in the Primary for a week or more?

Fifth: After having campaigned in said Primary for a week or more, why did you say to three good responsible men, all of whom are staunch Republicans, on the steps of the Court House in Oregon City in 1908, that you did not believe in Statement No. 1, but that you must sign it in order to win, and why did you on the same day go to Judge McBride and seek his advice as to whether or not you had better take this pledge.

Sixth: If you are now a Statement No. 1 man at heart, why was it that after you had cast your vote for Chamberlain for Senator in 1908, that you went to Oswego in the recent Primary campaign, and in a public address told the people there how badly you hated to keep that pledge and to vote for Chamberlain and that before casting that vote you had honestly hoped that either you or Chamberlain might die so that you would not have to perform that unpleasant duty. And also please reconcile this Oswego statement with your speech when you voted for Chamberlain on the floor of the House, where you said that you took great pleasure in casting the vote for Chamberlain.

I have paid for this space in the next issue of this paper and ask that you answer the above questions so that the people may be the judge of your sincerity and of my fairness and unless your answer appears here, this space will be blank next week.

Very respectfully, O. D. EBY.
