"The Adrian" Wire Fence

Tied with "The Tie That Binds"

Users of wire fence have come to the conclusion that the require ments absolutely necessary for a good fence are elasticity in the

line wires, stiffness and rigidity in the stays, and a lock or tie that

In our fence is neither too hard nor too soft, but just enough points

carbon to give it strength and elasticity. The wire is thoroughly

galvanized, and each and every bundle of wire woven into our fence is inspected and approved before it is allowed to go to the machines.

to the bottom, and is of the same quality and guage as the inter-

Our stay, or unright wire, is one continuous wire from the top

The method of tying the stay or upright wire to the line wire is

where we differ materially from other makes of fence, and we were

the first to apply this principle in the manufacture of wire fence. Our knot is a LONG oval loop, with the two ends returning towards

the stay, forming two hooks. By having this long, oval loop it permits us to put a LONG bend in the line wire, thus preserving the full

strength of the wire. We believe this to be one of the vital points in the manufacture of any wire fence. Most manufacturers of wire

fence are compelled to put a short kink in the line wire, owing to

the shortness of their lock, and each and every short kink you put

that is used in the line and stay wire. We positively DO NOT use a

softer wire for our knot than the line and stays.

It is not necessary to anchor our fence between posts because

when properly stretched the rigid stay prevents a hog or any other small animal from going under our fence unless they raise the whole

fence, and with the fence well stapled to the posts, this they cannot

a wire fence depends on the quality of the wire and the weight of

galvanizing, the size of the wire and the method of tying the wires together so they WILL NOT SLIP or in any way injure the wires in

ADRIAN WIRE FENCE CO

We do not use half-sized wire in any of our styles. The price of

"THE INFAMOUS SEARCH LAW"?

Ex-Mayor Rose Denounces It

And yet that law has been on the statute-books of Oregon for six years, and is in the law, word for word, for which Mr. Rose pleads so earnestly—the local option law. The search clause is in every criminal law of every state in the Union.

Why have not the liquor men and their aid society the courage and honesty to admit this? They must deceive the public or their cause

"Prohibition Is a Fallacy"

So ex-Mayor Rose declares. The fullacies of prohibition cannot hold a candle to the FALSEHOODS of the liquor men and their aid society. Read the following telegram, received in Portland Saturday

Topeka, Kansas, October 29, '10.

it is with feelings of regret and shame that the undersigned are compelled to denounce as misleading and false the statements of the Mayor of the capital city of Kansas concerning conditions in our We condemn him as a traitor to his city and state, and wholly unworthy of the high position he holds. Our prohibition law is the most drastle and far-reaching ever passed by any legislative body, and it is well enforced throughout our city and state.

There is not one open saloon in Kansas, and the statements of Mayor Billard are an outrage upon our city and state. Our state is exceedingly prosperous. At least 75 per cent of our people stand solidly for our laws.

The National Association of Manufacturers and Business Men, and outside brewery associations, organized by one Hinkle, from Milwan-kee, has perfected a local organization in Topeka of which Mayor Billard is vice-president. The sole object of this organization is to aid and assist the liquor forces in other states where prohibition questions are pending.

ING VOTE AT A MASS MEETING IN AUDITORIUM LAST

The Attorney General Has Knocked

Down the Man of Straw Which the Home Rule Association Set Up. Read this excerpt from the address of Hon. E. C. Bronaugh, former Judge of the Circuit Court. Speaking of the home rufe amendment

'it is merely a repetition of the famous, I should say infamous, Reddy bill. That bill was snowed under deep by the voters of Oregon two years ago.

"I notice what purports to be an opinion by the Attorney-General of this state, answering in the negative the question as to whether or

(Paid Advertisement.)

not this proposed bill will put it within the power of municipalities to nullify the criminal laws of the State of Oregon. I did not know that anybody had announced the proposition that it would. The liquor men have put up a man of straw and have asked the Attorney-General to knock it over for them. Nobody who has studied the law supposes for a moment that it will enable municipalities to annul the criminal laws of the State of Oregon. But it will do a few things which I would like to place before you to meditate upon.

"Perhans you know that we have in this state a law which provides that no license shall be granted to a person who has been convicted of selling liquors to minors, or permitting minors to lotter about his saloon; that is, it is the law except in the City of Portland.

"We have another law which prohibits saloonkeepers from selling liquors to habitual drunkards. There is another law which prohibits the opening of saloons on Sunday. There is another law which pro-hibits the licensing of saloons within a certain distance of a public school building. The proposed so-called bome rule bill will put it within the power of every municipality to evade those laws, Now, Mr. Liquor Man, will you ask the Attorney-General whether that statement is true or not? And see what he says.

"I am not here tonight to abuse anybody. I am not here to abuse men who may disagree with me. I am here to express surprise that the liquor men should have been shrewd enough to secure such an array of reputable and honorable men to stand sponsor for their bill. Many of those men I know personally, and I know that, if the true inwardness of that bill had been explained to them, their names never uld have been at the foot of it, and their influence never would have been back of it.

There are other things this bill proposes to do. Has it struck you that it is at all significant that the clause, subject to the constituclause relating to the suppression and regulation of the sale of liquor? There is also a clause put in the end for the purpose of misleading-I can see no other purpose for it.—Subject to the provisions of the local option law of the State of Oregon, within the limits of the municipality.

"It is provided in this act that no municipality may amend its charter so as to be in conflict with the criminal laws of the state, or with the provisions of the constitution; but this act does propose in effect to amend the charter of every municipality so that that municipality may enact ordinances, regulations and laws which set at defiance the laws of the state regulating the sale of liquor. It will also practically nullify the local option law, because, if you read the criticism of The Oregonian this morning, you will note that The Oregonian called attention to the fact that it would practically do away with precinct vote and will limit the operation of the local option law to the municipality as an entirety. It will do more than this. In many parts of the state where there are small towns there are large pre-cincts which include a whole or a part of the town, and a part of the country as well. This law gives the right to the municipality, as a whole, to vote upon the local option law, but there is no law that gives a part of a precinct outside of a city the right to vote upon the question of the prohibition of the sale of liquor, and therefore all such precincts outside of the municipality will be deprived of that Also in the municipality, in many cities where it is not thie to carry the city dry, a vote may be had upon a precinct, or com-

"That is true in the City of Portland, and in many of the parts of the city people who do not want the saloons in their residence neighhave voted their precinct dry. They would be deprived of that right if this bill becomes a part of the constitution of the State of Oregon. And think of it. I say this is the most autrageous and audacious assault that has yet been made upon the rights of the people of this state.

Then again, if this amendment is adopted, if any county or precinct votes dry, it will be within the power of the liquor men to create a new municipality, however small, within such dry territory. which will be invested with authority to license the sale of liquor within the municipal limits and thereby corrupt the whole district and set at naught the will of the people.
