OUR TEACHERS ARE TRUE TEACHERS.

The reason for this is that we use teachers for teaching. They are trained for the work; they know how to get mental development. We do not use office managers, clerks or bookkeepers for teachers; they do not know how to teach. For this reason, our pupils advance much more rapidly than the pupils in the large business schools.

We Love To Teach: Everybody Busy: Everybody Happy.

Just the school for the earnest young man or lady who desires to learn and have the high est and best training at reasonable tution rates. You are sure of individual help and instruction. You know the large schools cannot give it. You should investigate our work. Do it now; do not wait. In session all the year in day and night school.
