Eliminate All Possible Risks

To pay by check does away with the actual handling of money. There is not the risk possible as when cash is carried on your person and paid to others.

There is no possible chance of losing money or of being robbed. Errors are easily corrected when checks enter into a business transaction.

It would be much cheaper and more convenient to employ the check account if it cost the user one cent for each \$25 transferred. Can YOU afford not to pay by check, when there is no cost whatever?

T IS wonderful how much satisfaction can be obtained from a talk over the Bell Telephone.

A letter carries words, but the Bell Service has been brought up to such a point of perfection that the modulations of the voice are clearly heard.

The cheery tones show that the talker is well and in good spirits. The call may come from a suburban village or a distant city, but within the limits of the carrying power of the voice the Bell Service carries the tone as well. You get a personal interview with a friend hundreds of miles
