Title and Investment Company of Oregon City, Oregon. (Inc.)
This company is organized under the laws of the State of Oregon to prepare and compile abstracts of title to lands, buy, sell and exchange real and personal property, negotiate loans and discount negotiable paper, construct buildings and dwellings and act as guardian, executor, administrator, trustee or agent in any capacity.

The question of title to lands when bought and sold and given as security is of vital importance and special attention is to be given the preparation of abstracts direct from the records. A chain can be no stronger than its weakest link and for that reason a defective deed in your chain of title may affect your entire farm, business block or home. The officials of this company with years of experience making and examining abstracts of title to lands in Clackamas County is a guarantee of first class work in this line.

A large amount of valuable property in Oregon City and Clackamas County is unprofitable because it has been inconvenient for the owner to improve it. This company in the capacity of trustee will get the owner of such property together with the lumberman and plumber and hardware merchant in cooperation for the mutual benefit of all parties interested and construct buildings and make such improvements as will be profitable. Carpenter and laborers will also be given an opportunity to cooperate in this work. Each interested party having a lien upon the property for the amount invested is a guarantee that he cannot lose what he invests and this plan should be the means of developing and making income property out of vacant lots and saleable and desirable property out of undesirable.

It may also be desirable in carrying on the business of the company to make loans and investments and discount paper. The company expects to build up a profitable business acting as agent for investors and persons with money to loan and one interested in purchasing property or loaning money or anything else in our line of business are welcome to our experience in land values and security values in Oregon City and Clackamas County of years of careful study and investigation.

We cordially invite and solicit the patronage of anyone interested in anything pertaining to our business and we guarantee satisfaction.
