MOLALLA.

One week of winter weather with snow three inches deep and the thermometer down to 10 degrees above zero—one night only. At many favored localities it was several degrees warmer than that. With the regular webfoot "Chinook" now in sight everybody is beginning to feel better already.

Why yes, Molalla has redeemed herself by voting t three mill special road tax. Don't know whether Meadowbrook would call that "waking up" or merely dozing along. However, things do not look very bright for that steel bridge this year.

Now that we are on the verge of a systematic road improvement, it may be reasonable to hope to see some of our steep grades reduced by "cutting out" the worst hills instead of trying to cut them down.

Twilight Literary Society.

A special meeting of Twilight Literary Society was held last Friday night. Notwithstanding the inclement weather, a good many of the members were in attendance. It was reported by the treasurer that sufficient funds were on hand and so the society voted to repair Twilight Hall, which is used by the society. Committees were named to perform the work as follows: Repairing windows, D. L. Boylan; papering hall, Chas. Caldwell, George Lazelle; replacing doors, Harry Faulk, Chas. Do you read the Twilight items? So does everyone in the neighborhood. The Enterprise now has the largest circulation in Twilight that it ever had.

Some of the people of this school district petitioned the Boundary Board to be transferred to the Mt. Pleasant district, on last Tuesday. As none of the directors of this district were present to object, the county court and superintendent of schools could not refuse the petition. It looks as though our school board had better wake up or resign their positions. Some morning they will wake up and find we have not enough children in the district to have a school.

Eeveryone is looking forward to the meeting of the literary society next Saturday night. One of the new attractions will be the first appearance of the Johnson orchestra.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds *himself* regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Milwaukee and Northwestern Clackamas

MILWAUKIE.

Milwaukie Commercial Club held a meeting Friday evening in City Hall; reports and communications read and generously referred them to the secretary, without a dissenting vote; L. H. Campbell submitted a proposition which, if properly worked out, will enable us to get better fire protection and ultimately reduce the rate of insurance. The proposition is feasible and profitable, and all that is required is a little harmonious and unanimous support given the proposition. If the Milwaukie people would stand as a unit and work harmoniously they could arrange matters so as to have a rate book No. 3 apply on the insurance, instead of rate book No. 4, and thus save considerable on the insurance premium.

One of the principal needs of Milwaukie at the present time is better streets. If the rains continue and the people are as backward making improvements, all we need will be a dredge to make the streets navigable. Every resident of Milwaukie ought to take sufficient pride in his town to get out and work for improvement early and late and eliminate some of the disagreeable features.

Women of Woodcraft will give a "sock social" Friday evening, January 20th, in W. O. W. hall as a benefit to a needy member. Let everyone attend and help; admission free, with refreshments.

Mayor Streib took his suit case and was headed for Portland Wednesday.

The cold spell is over and all are glad to see the nice warm rains once more.

The water pipes in T. R. A. Sellwood's store buildings on Washington street bursted in the upper story and flooded the lower portion, necessitating the moving of furniture stock there, belonging to J. H. Cash.

Ruben Peterson, who fell and broke his arm at the Oaks skating rink, is getting along nicely and will not suffer any permanent injury.

Jas. H. Snyder will build a cottage on his lot in Leo Addition and then offer it for sale.

E. M. Huff will also build on his lot there. The plans have already been drawn up.

August C. Arnold, who formerly carried mail on route one, is breaking in on the O. W. P. line and will soon be a full fledged conductor.

Sam Riley has purchased a new horse, and now gets over his route, number one, in good time.

W. E. Morand has gone to Alsea Bay to do some work in his place near Woldport.

The new cement walks on the front and south side of the Evangelical church property are completed and add wonderfully to the appearance of the property.

What we need now is a nice cement walk to the new Southern Pacific depot, from Main street east on both sides of Washington street.

Let the good work go on.

The majority of the working class of people would like to know how it is the electric street lights are turned out these dark stormy mornings before seven o'clock. Very unpleasant for people who have to come in from the Minthorn and Sellwood additions and other out of the way points.

Those people who live in the Sellwood addition are asking for an arc light, and it certainly ought to be granted. Another one is needed badly at the crossing of the main line of the Southern Pacific near the handsome new residence of A. Wendell.

Births.

A daughter was born Friday, January 13th, to Mr. and Mrs. Noah Toats; mother and baby doing nicely.

Redmond; secretary, Calvin Morse; treasurer, George Betz, Sr. The meetings will be held on the first Wednesday evening of each month at 8 o'clock.

JENNINGS LODGE.

Name of New Postoffice Established at That Place.

A postoffice has been established at Jennings Lodge. It is customary for the postoffice department to have only one name for the office, but the people requested that they have the two as it has been called for several years, Jennings Lodge, and they have been permitted to retain this. There are two mails per day from Portland and two from Oregon City, thus giving the residents in that section a better service than heretofore. Miss L. D. Miller, a well known young woman of that place, has been appointed postmistress, much to the satisfaction of all of the people of that section. The postoffice will be in the Miller store.

It is through the efforts of D. P. Newell that a postoffice has been established here. He circulated the petition, and secured names enough to establish the postoffice. About 600 people will be accommodated.

JENNINGS LODGE.

On Thursday evening, January 12th, about 40 of the progressive men of this community met at the Betz house to organize a club for the betterment of Jennings Lodge, socially, financially and religiously. The result was the organization of a club with twenty-one members, which will be known as the Jennings Lodge Community Club. Hugh McGovern was elected its president; Chas. Redmond, vice-president; Calvin Morse, secretary; and Geo. Betz, Sr., treasurer. Success in every way is the prediction as the corps of officers consists of some of our best, wide-awake citizens. The club will meet on the first Wednesday of every month at 8 P. M. in the room adjoining the Betz greenhouses, and on February 13 a board of governors will be elected and committees appointed, and other special business matters will come up. All property owners, whether new-comers or older residents, are invited and it is hoped all will work together for the improvement and betterment of Jennings Lodge and vicinity.

Home and School Club Notes.

At the regular meeting of the club which was held in connection with that of the school board about thirty patrons of the school were present, and much interest manifested. The school board took precedence, and attended to such matters as came within its province. The chairman then turned the meeting over to the president of the club, C. C. Sargent.

A member of the civic improvement committee reported that W. W. Smith would have gravel for sidewalks on the street leading past the school building as soon as the necessary grading was done. Chairman of ways and means committee reported that teams could be secured if necessary; suggested that for the distance under consideration one man with shovel could do the work. President Sargent appointed E. Harrington to secure help and get the work done. Committee on electric lights for the town absent. No report sent in. Under head of new business the president suggested that the club take up the matter of ridding the town of the powder houses. Committee on civic improvement stated she had information from agents of the powder companies that said companies were only waiting to have the people make some movement towards the removal of what was a serious menace to the community at large. Several present being in doubt as to whether there was a government or state law prohibiting powder houses within certain limits, the president appointed the members of the school board a committee, with clerk as chairman, to investigate the matter in all its bearings and report at the next meeting of the club. President Sargent then introduced the question for discussion: "Resolved, that the responsibility for the good manners and morals of pupils in the school building, on the grounds, and to and from home, rested with the teachers." A lively, interesting, but informal discussion followed, in which most of those present took part. The question for the next time was given out—"Resolved, That boys and girls should have separate playgrounds." Upon motion the club adjourned to meet Friday afternoon, January 27, at the school house.
