New Edifice on Ninth and Center That Will be Credit to Society and City.

soon as the weather permits. Opposite the Loder home is the

soon as the weather permits. Opposite the Loder home is the First Church of Christ, Scientist, which is under construction. The members of the church, although not many in number in this city, have worked diligently to build a structure of their own, where they may hold services instead of the hall, which they are now occupying. Two beauti-ful and sightly lots were purchased from Captain J. T. Apperson, formerly as these were in the church's posses-tast these were in the church's possesowned by Carey Johnson, and as soon as these were in the church's possession the members set to work and having a versuida, planned for the edifice. The building Several new ho is in charge of C. B. Huyck, one of the prominent builders of this city. The auditorium is 42x35 feet, and will accommodate about 150 people. Front-ing the building are two entrances. main entrance and the vestibule. Swinging doors have been installed between the vestibule and the auditorium. At the rear of the church is the platform, and on each side are site room, which is reached by means of a haliway, is to be used as a readof a halway, is to be used as a read-ing room. The ceilings of the audi-torium are of sloping design. The church is to be well ventilated and lighted. There are four large win-dows of the Martha Washington de-sides the reception hall that opens building are proud that Oregon City dows of the sharing maller ones, in the from the veranda. There are four can possess a building of this kind. anditorium. These are to be of sleeping apartments on the second. Mr. Brown has been awarded the anditorium. These are to be of chipped glass and leaded, while in the literary and reading rooms the win-dows will be of partly leaded. In the hallway leading from the literary room to the reading room will be found a stationery washstand. A heating apparatus is being installed in the basement. Mr. Berg, of Willam-ette, kindly donated to the church the brick, material from which to make a chimney, besides having the building
