There is, as yet, no clue to the identity of the robbers.

**ALBERTA.**

The people of this vicinity are all about over the grippe and school is keeping again with the usual number. The Alberta debating society met last Saturday evening and discussed the question, "Resolved, That Old Maids and Bachelors Should be Taxed Because They Are Not Married." It was decided that they should not be taxed. The next question is, "Resolved, That the Government Should Own and Control the Railroads."

Owing to a previous challenge the Alberta school went down to visit the Schuebel school last Friday and met them in a joint debate. The affirmative of the question, "Resolved, That Knowledge is More Useful to Mankind Than Money," was defended by Milton Clay and Mary Miller, of Alberta; the negative by Beulah and Walter Hornschuch and Zilla Kirbyson. After a good discussion it was decided in favor of the Albertaites. They also had a short literary program and a Valentine box, which was much enjoyed by all. Alberta has a fine new lamp which is a great improvement to the society. Milton Miller is very desirous that telephone calls were not so numerous so that people would leave their receivers up where they belong. What about it Milton?

We agree with the Shubeltie about the road question. The farmers build a good road and before they go to town a half dozen times it is torn and out out by heavy teaming over it. Now we think it no more than fair roads should help build and keep them in good repair. We don't believe in bonds, either.

A meeting for the purpose of organizing a Farmers' Union of Colton was held at N. P. Hults on Tuesday. Mr. Renhard was elected president of the organization, and Oscar N. Hult secretary. A. R. Smith still continues at the helm at the creamery, and if he can't steer the ship into port there is no use for any one else to try. There are no better butter makers anywhere.

D. E. Whitman still continues to deliver mail on this route and a more painstaking, careful man it would be hard to find. We hope he may continue to serve us for many years yet, for he is the right man in the right place, and was rightly named.

**STONE.**

The wind from the northeast and the cold nights makes one feel like Froze Ice in our house Saturday night and today the 27th of February, the wind has whirled things around considerable. We were down to the Clackamas river this morning and there came a puff of wind and the bridge looked as if it was going off of its foundation. This bridge is said to be the longest bridge of the kind in Oregon—230 feet long and has been built about 25 years.

Mr. Jagger, who has a position from the county court to look after the road interests of Clackamas, was out today and went over the road south towards Redland; hope he will make the road matter a success.

Mrs. Susan Griffith, who has been afflicted for several years, has been moved out to Grant Mumpower's. Mrs. Griffith has had several physicians at different times for several years and has had but little benefit. It looks as if Mrs. Griffith had doctors enough to fill her but still she is alive. She is helpless.

Mr. Harvey Skinner and wife came from San Francisco Saturday to visit Mrs. Griffith at Grant Mumpower's. It looks like that some people have to be stung by sickness more than other people but all living must die. Disobedience brought death into our world. Prepare to meet thy God for though shalt die.

Minderhall the attorney practices in the courts of Oregon. He is able to have two automobiles and comes out to see his brother quite often.

Our creamery man, Mr. Smith, still holds onto his job. We don't know what the creamery company would do if Mr. Smith did quit. Grant Mumpower has set out part of his land in peach trees.

Young Mr. Huchins and two of Mr. Goodson's sons went to Glendora, California where the Goodsons' came from. Young Huchins thinks that some of the Californians are pretty rough people—drink considerable and use bad language.

The Clackamas egg man was around today. He had the largest load of poultry and eggs that we every saw bring away from here. This part of Clackamas county including the Logan country can't be outdone for furnishing farm produce. When Stone gets three or four oil wells and the oil running out of the earth things will still be more lively. We must have an electric car line from Portland out here on the Clackamas river and then we may want the county seat of government moved here.

**A Smooth Skin.**

Blackheads, Chaps, Pimples, Sores and all unhealthy conditions of the skin are quickly and effectively treated by Dr. Bell's Antiseptic Salve, a creamy, snow-white ointment, apply as directed, and your skin will be as clear as a babe's. Geo. A. Harding, Druggist.
