### GRANGE WILL JOIN IN INSTITUTE SATURDAY

SCHOOL SUPERINTENDENT GARY CAN THUS PARTICIPATE IN AND SPEAK TO BOTH.

County School Superintendent T. J. Gary will conduct a local institute at Sandy Saturday. The institute will be for the benefit of the teachers and advanced pupils in that part of the county who cannot many of them get to the institutes that are held a considerable distance from their homes. Sandy Grange has been trying for some time to have Mr. Gary visit the Grange and make an address to the Grange and its friends. In this case Mr. Gary asked the Grange officers if it would not like to hold an open meeting of the Grange and co-operate with the Institute people in having a union meeting that should do for both and that would be broad enough in its scope so that both teachers and Grangers, with their friends, might have an enjoyable occasion. The Grange accepted the suggestion and put it into effect and the meeting Saturday is to be one that will carry much good to all who have interest sufficient to lead them to attend. An effort will be made to get a large attendance.

### HAD SNOW ALL WINTER.

Norman C. White Writes Aunt About Conditions at Christmas Lake.  
Mrs. J. L. Swafford Wednesday received a letter from Norman C. White, a nephew who is living in Lake county, relative to conditions with which he has to do at the present time. Mr. White, his uncle, F. F. White, and cousin, Jean N. White, have each taken up claims in Lake county near Christmas Lake, having three homesteads in a bunch and have been living there upwards of a year. They will be able to commute their claims some time this summer, when they will return to Oregon City.  
The young man wrote to his aunt to tell her of the weather they are experiencing there. He says snow fell before Thanksgiving and that it has been on the ground ever since; that the thermometer went down as low as 10 degrees below zero and as low as 16 degrees below zero and that there is no such nice weather as is to be found in the Willamette Valley. All are anxious to get home.

### HERE IS OREGON CITY'S OPPORTUNITY SO LET EVERYBODY GET BUSY AT THIS TIME.

The Willamette Valley has been made into a district in the fruit growing and fruit packing business of this Northwest country. In consequence there will of necessity be a meeting of the fruit growers in this section some time soon, for organization and conference and at this time we rise to ask why not in this city?  
The Willamette Valley is a large section of country and embraces a large part of the population in this part of the world. Within its bounds are many people and an opportunity to raise a very large percentage of the farm, garden and orchard products of the State. As Oregon City is a central point there is every reason why the people of this city should get busy and try to get the convention for organization and then make a desperate fight to retain the center of the stage in this particular instance.  
This convention will be held soon in an effort to line up the whole fruit and produce business of this section of the State, hence it is none too early to get busy and get the initial convention here; and that will put us in right for future gatherings and may enable us to step up to the head and become a leading factor in the raising and marketing of the products of this richest spot in the whole Northwest country.  
Come to Oregon For a Husband.  
Jessie Kerr, of Clackamas county, and Miss H. L. Koehler, of Lincoln county, were married at 3:20 p. m. Saturday at the Court House Judge R. B. Beattie officiating. The bride arrived from the East on the day and was married as usual: got here.

### WHY NOT BE THE HEAD IN FRUIT BUSINESS?

Twilight Literary Had an Enjoyable Program Saturday Night.  
The Twilight literary club had an interesting session Monday night, at which time the question was debated, "Resolved, That a Competent Engineer to Oversee the Road Work in the County Would be Practical and Economical." George Lazelle and A. H. Harvey were on the affirmative and Curtis M. Dodds and Max Telford supported the negative. The decision was given to the negative.  
The playlet "Twilight Hovel" was given, amid applause. Mrs. Kern, a reader from Portland, gave one of the best readings possible. Twilight orchestra furnished music. There was a large attendance.

### PARKPLACE WINS DEBATE.

Parents Should Take More Interest in Work of Pupils.  
Parkplace won in the debating contest with Casey Friday afternoon. The subject was well treated by the young people and there was much of interest among them. But the interest that is manifested by the adults was not of an encouraging nature.  
"It is high time, one educator says, that the patrons and parents of pupils took more interest. If they would manifest more interest in the working of the schools there would not be so many low grades and so many rank failures among pupils as there are now."

### Ex-Gov. Yates Here July 4.

The Chautauqua people here have received their contract from Ex-Gov. Yates, of Illinois, who will speak in this summer's Chautauqua on the Fourth of July. While the Governor is a "son of his father," who was War Governor of Illinois, still he is a live wire and has gone one better than his father, who was a man of much force in his life.

## APPLE PROSPECTS GOOD IN VALLEY

PROF. C. I. LEWIS TELLS WHAT MAY BE ACCOMPLISHED IN THE WILLAMETTE.

### WHAT TREES TO PLANT AND HOW

Needs of Special Instruction for Orchardists Living on the Broad Acres of This Productive Valley.

"The great need of the apple industry in the Willamette Valley is more up-to-date and intensive methods," said Prof. C. I. Lewis of the Oregon Agricultural College department of horticulture in a recent address before the Lane County Horticultural Society at the Eugene Y. M. C. A.  
"We must use more care in the selection of our orchard sites," he continued. "Gently rolling locations that have good air and soil drainage and good depth of soil, preferably the clay loams, should be selected. One-year old trees should be insisted upon. These should be headed low, from 18 to 20 inches, and an attempt should be made to try not to have the branches all grow out at nearly the same point.  
"By careful summer watching the first season we can develop much better heads to our trees. We should give the trees plenty of room to grow, too. When they are on strong bottom land, 30 to 35 feet will be needed for proper planting, while hill lands will stand closer planting. Deep and intensive cultivation should be practiced and the young roots should be encouraged to strike deeper. Follow this with frequent shallow soil cultivations not over three inches in depth, never allowing the ground to become baked or to dry out. In the young orchard cultivation should cease about the first of August, so that the trees may harden properly so that they will not winter kill. Old, heavy bearing orchards will need intensive cultivation late into September in many cases.  
"Nearly all our older orchards and many of the new orchards planted on fallow wheat fields should be planted to cover crops. About 40 pounds of Oregon vetch and 10 or 15 pounds of rye to the acre, drilled in at the first of August, is very satisfactory in this valley. This should be plowed under in the spring, at the time when we naturally plow the orchard.  
"Must Prune Every Year.  
"Pruning must be followed annually. Severe heading in and thinning out the first three years, following with light annual prunings in subsequent years, should be the rule. About the third or fourth summer, light summer prunings from the first to the fifteenth of July, will aid in bringing the trees into bearing.  
"The hardest points for decision is that of the choice of varieties to plant. One must simply choose from among such leading varieties as Yellow Newton, Grimes' Golden, Jonathan, King of Tompkins County, Graebstein, Northern Spy, and Spitzenberger. Spitzenbergers should only be planted in deep, rich, but not too heavy soils, with an exposure.  
"Orchardists Are Poor Packers.  
"We need to have better orchards, and much better methods of handling our crops. Very few men in the Willamette Valley can put up a commercial box of apples. They should either attend the apple packing school held each winter at the Agricultural College, or apply for a packing school in their community each fall. These can be conducted in various parts of the valley at a very small expense to each community.  
"Plenty of Cheap Lands to Buy.  
"One great advantage in the Willamette Valley is its abundance of cheap lands. One can, in many sections, bring apples into bearing at a total cost of \$250 an acre. That will pay annually from \$100 to \$200 an acre, with proper methods of handling. This makes a safe investment.  
"We need to encourage more people to come out and settle among us and buy 30 or 40 acres of fruit lands. The 40 acre unit is the cheapest one to develop, an one man and a pair of horses can do the greater part of the work, and it will not cost much more to develop 40 acres than ten. The ten acre apple orchard, under ordinary conditions, is too small, and is not a safe investment for the average man."

There was considerable enthusiasm manifested and the delegation is supposed to go to the State meeting with a full bag of energy and enthusiasm, in that way securing for the good of the cause that which is due the noblest avocation of mankind.

### "DOCTOR" JINDRA ARRESTED.

Former Oregon City Man Called to Account By Medical Board.  
Dr. Vladimir K. Jindra, of Portland, was arrested this week with a lot of other electric healers and so-called doctors, and asked for a continuance when his case was called yesterday. Jindra came to Oregon City more than two years ago and cut a wide swath here. He had plenty of patients, some of the well-to-do people of this section taking his "treatments." His conduct was such that his wife brought suit for a decree of divorce. Jindra became so progressive that Oregon City was too narrow for him and he hiked to Portland where he has since been trying to make the public believe in him. Most of the local physicians of Oregon City looked upon Jindra askance, though one or two of them sanctioned him and his unusual methods.

### FOUND DEAD IN BED.

Had Made No Complaint of Feeling Worse Than Usual.  
MARQUAM, Or., March 7.—(Sp.)—Mrs. Hagardorn, living between here and Salem, was found dead in bed last week, when it came time to call her in the morning. She retired in her usual health, with no premonition of death. She was living with her son-in-law, Perry Davidson.

### Institute at Oswego School.

Clare G. Morey, principal of the Oswego schools, was in Oregon City Saturday planning for a teachers' institute in that place some time in April. It will be a local institute in which all the teachers of the county will be privileged to participate, but it is to be held at Oswego. County School Superintendent Gary will have an important place on the program.

### GOOD NEWS.

Many Oregon City Readers Have Heard of and Profited Thereby.  
"Good news travels fast," and the thousands of bad back sufferers in Oregon City are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is had no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:  
"E. W. Milden, 714 Main St., Oregon City, Ore., says: 'The public advertisement I gave in 1906 in praise of Doan's Kidney Pills still holds good. Kidney and bladder trouble caused me much suffering and as time passed, my condition became worse. I finally consulted a physician but his treatment did not bring relief. The kidney secretions were painful and distressing in passage and caused me much annoyance. Seeing Doan's Kidney Pills advertised, I got a box at Huntley Bros. Drug Co., and it was simply astonishing the way they took effect on my trouble. By the time I had finished the contents of one box, every symptom of kidney complaint and its attendant evils were no longer annoying me.'"  
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. York, sole agents for the United States.  
Remember the name—Doan's—and take no other.
