

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health she loses her lustre and gold is but a bubble.

The bank is nearing completion and is certainly a credit to the Councilmen, and something which any town may be proud of. On St. Patrick's Day in the morning, I don't care a rap for green, I don't care a rap for Ireland's warmings, Where the shamrock grows so green.

Have you heard the story of Paddy? Well, he chased the snakes away; He did it with his schilly. At least, that what people say.

Potatoes are grown in fields so dense. In the land of the Emerald Isle, That boys and girls eat nothing else, But spuds of the Irish style.

So now you see why I'm talking about The brilliant sea of green, But I raise my voice in a lusty shout, Where the "Stars and Stripes" are seen.

WOMEN'S HAIR Can Easily be Made Fascinating and Luxuriant. On April 2, 1910, Mrs. R. M. Worden 5 St. James Avenue, Holyoke, Mass., wrote: "Parisian Sage is the best hair dressing I ever used. It gave my hair life and a gloss which no other dressing ever did, besides stopping it from falling out. It is the only dressing for up-to-date women."

Parisian Sage is guaranteed by Huntley Bros. Co. to cure dandruff, stop falling hair and itching scalp in two weeks or money back. It makes hair grow and keeps it from falling out. It is a delightfully refreshing hair dressing, not sticky or greasy and will immediately banish all odors. Large bottle 50 cents at druggists everywhere and at Huntley Bros. Co. Mr. and Mrs. Frank Hilton are the possessor of a large baby boy. No wonder Frank was going around with such a broad smile on his face of late. Spring is about here and the baseball fans are beginning to wonder if the boys intend to organize. There are several star players around, and several of the school boys would be glad to get a chance to play. As it takes practice to make perfect, why not give the younger ones a chance? What the boys need is a good manager and captain. Get busy, boys, so we all will have a chance to see a ball game at home without having to go some place else to see a game.

We have one of the best ball fields in the country, and plenty of good material to make up a good nine, so what is the excuse?

We have a number of good road makers in the County, among whom we might mention W. H. Counsell, of Milwaukie, whose work will bear inspection, and which has stood that best of all tests, the actual wear and tear.

Mr. Jaggar has built some good roads; W. C. Ward, of Viola, did some fine work last season. Fred Gerberke has done some good work on the roads. Taking everything into consideration we think Clackamas County has as good a class of supervisors as any county in the State, and our home supervisor, W. E. Mumpower, did some good work the past season.

MT. HOOD RAILWAY GETS ITS FRANCHISE

LITTLE CHANGE MADE IN DOCUMENT FROM WHAT WAS ASKED BY COMPANY.

The ordinance granting the Mt. Hood Railway & Power Co. a franchise was passed final reading by Council Wednesday night. There was a large attendance of citizens but there did not seem to be much opposition to the franchise, a few were desirous that the rights of the city and citizens be safe guarded and that was all the interest there was manifested.

Councilman Michaels had prepared and ready to introduce two amendments, one requiring the new company to run a line to any person's home within the city who asked for light. The company said that to be the attitude of the company—wishing to get all the business possible—and unless there was some distinctive reason, that ought to satisfy anyone, there would be no hesitancy in doing so.

Mr. Michaels said he had introduced this amendment to cover just such cases. Council agreed with the company in that the company should not be put to unnecessary trouble when there would be little remuneration, and voted Mr. Michaels' proposition down when put to the test.

Mr. Michaels wanted meters put in so that three or four might use the same meter, where people desired it. Council could see no good reason for this request and so voted when the final passage was reached.

There seemed to be a quiet desire to see a second company in the field so that there might be a promise of competition at last.

Mr. Cross has also embraced in his gift an island near the north bank of the stream, just east of the electric railway bridge. He claims title to this island, but says it was sold by the State to John Lewthwaite, of the Willamette Pulp & Paper Co., for \$7.25.

The ownership hinges upon riparian rights, and Mr. Cross has urged the Council of the city of Gladstone to make a fight in the courts to recover possession of the island, the plan being to build a rustic bridge from the bank of the stream connecting the island which might be converted into a beautiful park.

Last night's meeting lasted until 12 o'clock and considerable time was taken up in the discussion of a water system for the town. W. H. Howell, superintendent of the Oregon City Water system, was present and advocated the installation of a filtration plant, similar to that maintained by Oregon City, but on a smaller scale.

These plants are made up in units and can easily be enlarged to meet changing conditions. William LaSalle, of Gladstone, and a Portland engineer, also talked on that most important question that Gladstone now has to face. There will be another meeting of the Council within a week, and a representative of the filtration system will give some expert testimony.

The Council last night authorized the drafting of an ordinance providing for street improvement to determine just what property shall bear the burden of the improvement.
