Guaranteed under the Food and Drug Act.

MOUNTAIN VIEW.
Services at the Mountain View Church last Sunday were held as a funeral service instead of the regular preaching services. Rev. A. Wilson, of Chehalis, Wash., and R. S. Pate, of Dayton, Wash., conducted the funeral services of Mrs. Sarah Owens, who died at her home Friday evening, March 24. Interment in Mountain View cemetery. A great many people attended the funeral. Mr. and Mrs. Dan Frazier, of Portland, were transacting business in Oregon City last week, Friday, and went out to Eldorado to spend a few days with Mr. and Mrs. A. L. Jones. Pearl Selby came home from McMinnville last week to spend his vacation. Mr. Ware, who spent the winter in Philomath, is at home again and hauling rock for the improvement of Duane street. Mr. and Mrs. Gribble, of Barlow, were shaking hands with old friends in this burg Sunday, having come here to attend the services of the Primitive Baptist denomination. The Mountain View Church was given the second coat of paint Monday. A new carpet has been purchased for the church. Walter Griffin, who has been working on the new Court House in Portland, is at home this week with a broken finger. Charlie Dickey and wife are moving into their new cottage on Molalla avenue, near Duane street. Messrs. A. L. and Will Jones, of Eldorado, were called to the bedside of their mother, Mrs. J. P. Roehl, Sunday morning. A. L. Jones returned home Sunday evening, but Will Jones is spending the week here, trimming trees for his mother. Curtis Selby made a business trip to Portland Tuesday with his brother Pearl, who returned to McMinnville. Mrs. Preston, who is staying with Mrs. Allison, was called to Seattle Tuesday to visit a sick daughter. Mr. Payne and family, on Seventh and Taylor streets, are moving to Washington. Geo. McDowell and family will move into the house on Seventh vacated by Mr. Payne, and two boys of Carus, were the guests of Mrs. Will May Saturday. Mr. Stewart is working in Oak Grove. Mr. and Mrs. J. K. Morris were

MOLILLA, and will spend the summer in this vicinity.
J. E. Morrison and family spent Sunday afternoon with Mr. and Mrs. Fred Watson. A. L. Yoder and wife spent Sunday with Mr. and Mrs. Joe Conrad. Geo! but the girls are busy these days. What's all the excitement about? Why the Cap Social to be sure, that will be given at the Evergreen school next Saturday evening, April 1. Miss Yoden is busy drilling the scholars, and has an excellent program on the way, one feature will be a Japanese song by Ethel Morrison, in costume. The Misses Emma Konechak and Anna Gottfredson were entertained by Mrs. A. G. Yoder last Sunday. Mr. and Mrs. W. S. Scoupe were in Oregon City on business last Saturday. In his trip to the city Mr. Scoupe took his first ride on a train, and apparently he enjoyed that way of traveling; Now we are looking for him to invest in an auto so he can go some more. J. Watson, of East Yoderville, had a very severe and painful spell of sickness last week, but we are glad to know he is well again. A very pretty and elaborate wedding took place in Woodburn last Wednesday, when Miss Maude Henley and John Knight were joined in wedlock; the ceremony took place at high noon, and soon after a very dainty luncheon was served to the many guests who were present. Mr. and Mrs. W. L. Yoder and Mrs. Katherine Yoder of this vicinity were among those present and report a very enjoyable time. After a short honeymoon trip, Mr. and Mrs. Knight will reside in Vancouver, Wash. Mr. Fosmark, recently from Minnesota, a brother of the late John Fosmark, is visiting relatives and friends in this neighborhood. He may locate here in the near future if he finds a suitable farm for sale. C. McConaugh and family, of Needy, spent Sunday afternoon with Mr. and Mrs. Jack. Mr. Williams has started on a trip to Crook County this morning, to see if there were any homesteads left in that place. Miss Elva Conrad is visiting with her sister, Mrs. A. L. Yoder.

STAFFORD.
The weather continues so bright and sunny that quite a little early garden which will stand the expected cool nights and rainy days of April is being put into the ground. The Delkar brothers, who talked of cultivating a couple of Mr. Gage's fields, gave it up, as they concluded they could make more hauling clay for the Tualatin Company at \$5 for a ten hour day, as they were promised an all summer job. A man from Sherman County came to look at 40 acres Mr. Gage had to sell, and seemed very favorably impressed with the location and the price. Mr. Richte, who bought the Moser place, says he has an incubator to sell cheap, as he only got 94 chickens from 200 eggs. It is the opinion of your correspondent that one has to thoroughly learn the trade before one can make a success of any kind of an incubator. He says he has 20 hens doing fine, and shall stick to the old fashioned process. Cate has been growing fat upon the chickens belonging to Mrs. Gage and Mrs. Nussbaum. Mrs. Nussbaum caught one in the act and gave it a piece of poisoned beef, which speedily departed it to other happy hunting grounds. Mr. Wiseman is making a week's visit at Kalama, where he has an old friend, the resident Methodist minister. Mrs. Reint DeNul and her little boy are very sick with pneumonia, also Mrs. Ben Athy, Mrs. DeNul's mother. The little one is very low, but they have a trained nurse now, and every one hopes for the best. Mrs. Zack Ellegson, Mrs. Gage and others from this vicinity attended one of both of Mortimer Whitehead's lectures at Oregon City in the afternoon and evening of the 25th. The Stafford boys are quite jubilant over having beaten the Willamette boys on their own ground 10 to 8, which was rather remarkable, as it is always conceded that roosters can fight better in their own yard. Mr. and Mrs. Powell returned from their trip to Grants Pass on last Friday, much benefited in health. He thinks he wouldn't trade his place for anything he saw below Cottage Grove. It is hoped for the good name of Stafford and the future well being of certain boys who are trying to act

EASTERN CLACKAMAS

FIRWOOD.
Mr. and Mrs. Earl Miller, who have been visiting their parents, left for California the first of the week, expecting Mrs. Miller's health to be benefited by the climate. Walter Frost and Alvie Chown, of Sioux City, Iowa, are visiting at the home of E. D. Hart. Mrs. W. F. Fischer spent a few days in Portland the first of the week. At the annual meeting of the Firwood Progressive Association the following officers were elected: A. J. Morrison, president; J. G. DeShazer, vice-president; Clair Corey, secretary; Victor Bodley, assistant secretary; A. C. Milliron, treasurer; A. Malar, manager; Godfried Stucki, assistant manager; Mrs. Malar, librarian; and Christian Christ, assistant librarian. M. Walton, of Portland, spent a couple of days looking over his ranches the first of the week. Mr. and Mrs. E. D. Hart, Miss LeGrand, and Mrs. S. B. Hill were Dover visitors Sunday. Robert Jones, of Portland, passed through Firwood Saturday in his auto on his way to Welches. C. Corey has been spending several days in Three Six. Will Alt came out from Portland and brought several visitors with him. The Brownell Reed Co. is setting out a large commercial orchard. Mr. Thomas, of Bell Run, was a Three Six visitor Monday. The Firwood school closed Friday. An out-of-door dinner had been planned, but on account of the weather, was eaten in the school house. County Superintendent T. J. Gary arrived shortly before noon, and greatly pleased the children by staying to dinner. Several of the parents were absent. Victor Bodley and Lea Morrison, of Dover, spent Thursday evening at E. D. Hart's. J. G. DeShazer has been hauling potatoes to Boring. J. C. Smith and son Garfield are spending a few weeks on their ranch, making a fence and improving it in general.

NEWS FROM THE COUNTRY
INTERESTING ITEMS FROM ALL PARTS OF CLACKAMAS COUNTY

LOGAN.
These fine spring days make the farmer smile. We haven't seen any snakes out yet, but a tramp, one feminine peddler and two medicine venders have toured this country. Dusty roads in March and real dust at that; put it down in your diary. Henry Huber served refreshments to the boys Sunday. Now that Henry has broken the "spell" it's up to some more of Logan's "eligibles" to follow suit. "It is not good that man should live alone" so look around boys, there are lots of 'em some where. O. D. Robbins has been having a vacation, nursing a very sore hand; something like a felon on one finger. We are sorry to hear of the illness of Amos Leek, of Redland. Grip followed by complications. Miss Wintie Brown, near Stone, is quite ill with appendicitis. Dr. Mount is in attendance. On Monday, March 20, the Clear Creek Creamery Co. held its tenth annual stockholders' meeting. The officers elected for ensuing year are: W. P. Kirchem, H. S. Anderson, F. W. Rickhoff, Seth Young and L. D. Mumpower, board of directors. W. P. Kirchem, president; H. S. Anderson, vice president; A. O. Hollingsworth, secretary. From the secretary's annual report we find the total amount of butter made during the year to be 187,236 pounds; amount of cream received, 471,357 pounds; butter fat, 151,861 pounds; total receipts, \$63,153.96; average price paid for cream, 31c; average price received for butter, 34c per pound. The C. C. Creamery can feel proud of the work accomplished in the ten years of its existence. The plant is up to date in equipment, with a filtered water system. The management has endeavored to make a good article, first class butter, and in this has been successful as is attested by the demand everywhere for Clear Creek butter. Some of the Portland firms who have handled their butter all these years are Townsend Creamery Co., Bullivant's Grocery Co., Urfer Co., and many others. It is said to be the best brand of butter on the Portland market today. One essential in regard to making good butter, is, we need competent inspectors. Oregon creamery men are to be commended for this stand taken. We were only visited once by the inspector, yet the effect was soon seen and "tasted" too. It is strange as much as the legislature "blowed in" this most important item was left out. The dairymen of Oregon pay for their own inspection by monthly contributions, in order to have men inspect the country dairies. What is needed is a competent man for the work. H. S. Anderson is clearing land by blowing out stumps with powder. Mrs. Otto Smith has gone to Portland for an indefinite stay to take treatment for rheumatism.

On the road and has been blasting all day. Mr. Larkins sowed oats and Nicholas assisted him. Grandma Lee lost one of her horses; it had kidney trouble. W. G. Kleinsmith is grubbing trees for Mr. Wallace on Highland. Mr. Kandle, from Hitchland, was in Clarkes last Saturday on business. Mr. Bottemiller plow his garden; he is getting ready to plant his garden. Elmer Kleinsmith is plowing on the Durst place. It was heard that Mr. Lund sold his farm for \$2500. Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all dealers.

SHUBEL.
E. F. Gintner has been plowing a two acre piece of ground he cleared during the winter. A land agent has been trying to secure land around here. Herman Moekneke celebrated his birthday anniversary last Friday night. Many friends and relatives were present and enjoyed themselves. Henry Hettman is busy with his steam wood saw, cutting wood for the neighbors. Mr. and Mrs. Burt Cumins, of Beaver Creek, visited with Lewis Sager and family Sunday. Wm Moekneke went to Oregon City on business Saturday. Philip Massinger is home for a few days from Portland. Mr. Moser bought some haled straw from John Blulim one day last week. Mr. and Mrs. James Beeson went to Oregon City Saturday. Mrs. C. Hettman has been in Clarkes during the past week with her son Ed. Mrs. Ringo and family, of Clarkes, visited with Chas. Moekneke and family Sunday. George Stephens and family visited with John Gard and family of Clarkes Sunday.

There is Only One Pine-Tar-Honey.
That is Dr. Bell's. It is the original and can be relied on in croup, coughs, colds and all lung and bronchial troubles. Look for the bell on the bottle. Geo. A. Harding, Druggist.

CLARKS.
Mr. Debreve's horse kicked the front part of the wagon in and hurt his foot Tuesday. Oscar Hoel, from Portland, is out in Clarkes to look after his farm. Alex Scherruber was out in Clarkes on Thursday. He is going to leave soon. He intends to make his home in Central Oregon. Mr. Tallman sold eight hogs the other day. The Buol Bros. are clearing a piece of land to sow to oats. Mr. Marshall has finished hauling manure on the potato patch. Sam Elmer hauled manure on the land he intends to plant potatoes on, the other day. Mr. Bottemiller sowed 10 acres of oats. Mr. Sullivan, road supervisor, is blasting out stumps. Mr. Wettsperger's hired hand left the other day. Dora Marquardt stayed out of school to help her father sow oats and veith. Mrs. Rungo and son Clyde are planting potatoes. Our supervisor found a bed of rocks

The Feed Is the Heart of the Drill--
Some Drills Have Heart Disease--
But Not the Hoosier.

Its heart is perfectly sound. Its feed is a positive force feed, which seeds uniformly and accurately, regardless of conditions. It works as well on the side hill, up hill or down hill as on the level. There is no guess work, you set the feed regulator at the quantity you want to sow and you know that you are seeding just that amount, no more or no less. That's why you want to be sure your drill is Positive Force Feed Machine, and the only way to be absolutely sure is to buy a Hoosier. Write for our circular "The Feeding of Seed".

SMYRNA.
The fair weather still continues and all are enjoying it to the fullest extent, in various ways, the roads are in excellent condition for driving and in many places. Many machines being in our neighborhood Sunday. Mrs. S. Owens and Mrs. Gullie Olsen visited Mrs. Wyland last Sunday afternoon. At present Mrs. Wyland is staying with her daughter, Mrs. L. B. Yoder. Len Owens and Carl Sether have returned home after working several months with a piling gang on the

hoodlum, but do not know how to carry the idea out gracefully, that the school board will do its duty and suppress all such demonstrations as the law abiding element was subjected to on last Sunday evening during services at the school house. There is a law which deals with the disturbers of any public meetings, and in such a case as this it should be invoked. We are certain that none of our boys are vicious, but if allowed to go on they may drift into something they do not now contemplate, and it is time now for them to be manly enough to call a halt themselves, before being brought up with a round turn, which they may not relish any more than we relish being disturbed when trying to listen. Now, my boys, don't put on bravado and say, "We don't care," for really you do care, and be manly enough to acknowledge it by keeping quiet or staying at home out of the way of temptation.

A Smooth Skin.
Blackheads, Chaps, Pimples, Sores and all unhealthy conditions of the skin are unsightly and detract from the looks. Buy a box of Dr. Bell's Antiseptic Salve, a creamy, snow-white ointment, apply as directed, and your skin will be as clean as a babe's. Geo. A. Harding, Druggist.

Granulated Eye Lids
Do not need to be cauterized or scarred by a physician. Sutherland's Eagle Eye Salve is guaranteed to cure them without pain. It is harmless and sure cure for granulated lids. Buy it from Geo. A. Harding, Druggist, for 25c.

200,000 Tubes
Of Sutherland's Eagle Eye Salve were sold in 1908 and not in a word of complaint, though every tube was sold under a positive guarantee. It is good for nothing but the eyes. Ask Geo. A. Harding, Druggist.

THE POULTRY YARD
Some folks are forever planning ahead and figuring how to make chickens pay, and while they are pottering along with their plans and figures the hens and their broods are neglected. No fowl is so hard to doctor as a turkey. A secret of success with turkeys lies in avoiding inbreeding. A little turk debilitated at the start by inbreeding has a poor chance for its life. As the nights are still cold it is advisable to give the hens eleven eggs at the time of setting them. This affords the hen a better chance to cover and warm the eggs properly, bringing forth better results. The baby chick trade has grown wonderfully. Twenty years ago poultrymen never dreamed of starting a business in that line, while now hundreds of thousands of these innocents are annually sent out. It's all right to have the brood coops wind-tight but not air-tight. It does not take much of a carpenter to put a pane of glass in a brood coop, and the chicks do better if they can have light when they must be shut up during cold, stormy weather. Dr. Bell's Anti-Pain. A sudden attack of Cholera Morbus is dangerous. Keep Dr. Bell's Anti-Pain at hand, a dose relieves almost instantly. It also cures Diarrhoea, Cramps, Flux and all Bowel Complaints. Geo. A. Harding, Druggist.

No Need to Stop Work.
When your doctor orders you to stop work, it staggers you. "I can't," you say. You know you are weak, run down and falling in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent breakdown and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at Jones Drug Co.

OUT OF THE GINGER JAR.
Just how far does the kitchen range? The housewife is known by the bread she bakes. "I'm so run down that I can give no more tick," sighed the alarm clock. "I've soon brighter days," sighed the sauceman in the slovenly kitchen. "Well, I'll be switched," angrily exclaimed the small boy; and he was. The hotbed is well enough in its place, but few people would care to sleep in it. Fifty little chickens in the incubator, Ten scrawny broilers a few weeks later. Many a man in his reflective mood wonders why his wife loves him, and so do his neighbors. The average boy thinks better of the cuff on his sleeve than of the one his teacher gives him. There is more sound in a hollow gourd than in a full one, and the same is true of an empty head. What two letters aptly describe the condition of the man who is taken in by sharpers? E. Z. The hen may not be well educated, but it doesn't take her long to scratch off a few lines—in the garden. We can walk into trouble with our eyes shut, but it is often impossible to back out with both eyes open.

Stockholders' Meeting.
The regular annual meeting of the stockholders of the Mount Hood and Barlow Road Company will be held at the office of the company at The Bank of Oregon City in Oregon City, Oregon, on Monday, April 2nd, 1911, at the hour of three o'clock P. M. for the purpose of electing a board of three directors to serve during the ensuing year and the transaction of such other business as may properly come before the meeting. This notice is published in accordance with the by-laws of the corporation. Dated at Oregon City, March 24th, 1911. CHARLES H. CAUFIELD, Secretary of the Mount Hood and Barlow Road Company.

Every Plumber
