When Tom Montefline was defeated in Justice court in his contention over the ownership of the team and \$15 in the trade with S. H. Wyrick it was supposed he had enough and would quit the law for a time at least. But he seems to be game and was back after more law this week. As a result the case in Justice Samson's court has been appealed to Circuit Court, where it is to be fought to the bitter end. Fully nine out of every ten cases of rheumatism is simply rheumatism of the muscles due to cold or damp, or chronic rheumatism, neither of which require any internal treatment. STRUCK BY BIG AUTO AND SERIOUSLY HURT

DAUGHTER OF HARRY SHAW RUN DOWN WHILE ON HER WAY TO SCHOOL.

Gwendolyn Shaw, the 12-year-old daughter of Mr. and Mrs. Harry M. Shaw, formerly of this city where Mr. Shaw was lighthouse operator of the Oregon City Enterprise, but now residents of Eugene, was run down by a large automobile Friday afternoon while on her way to school, and seriously injured. The little girl was struck in the chest by the machine, and it was feared her injuries would prove fatal. Mrs. McFarland, a nurse of this city, and a friend of the family was telephoned for Friday afternoon, and let for Eugene on the evening train. Shortly after noon a second message from Mr. Shaw announced that the doctor gave her parents hope that the little girl would survive. It is said that she was riding a bicycle on the street and that the auto came out from an alley. The driver did not see the little girl, because of a building, until he was upon her and it was too late to effect a stop. Several ribs were broken and internal injuries were feared.

Ed. Fortune Has Machine That Ought to Be Popular. Ed. Fortune, who recently returned from his eastern trip has the exclusive right in Oregon to handle the "Combination Farm Tool," which no doubt will be readily taken up by the farmers not only in Clackamas county, but in the state. The tool has just made its appearance on the Pacific coast. It is a great labor saving to the farmers and can be used on almost every occasion where heavy lifting is required, such as raising light buildings, leveling threshing machines and portable engines, barreling apples, pulling posts, lifting all kinds of farm machinery, and used as a wire stretcher for both barb and fancy wire fencing and wagon jack. The excellency of this machine is in that it does not require adjustment for different heights of axes and any vehicle, heavy or light load or unloaded can be raised quickly and easily there is no doubt but Mr. Fortune will make his fortune with this piece of machinery.

Lazelle of this city made a business trip to Canby yesterday to make arrangements for a Race Meet to be held on the Canby track some time in May. The track at Canby is owned and managed by the Clackamas County Fair Association and is the fastest half mile track in the Northwest. The soil is of a peculiar nature which does not cup and always has a fine cushion. Among the horsemen who are interested in a race meet are Herbert Robbins, Mr. Leonard, S. Vaughn, Mr. Knight, J. R. Sawyer, Sim Lindsey, M. J. Lee, W. H. Lucke and other prominent trainers and horse owners who are making headquarters at Canby.

Kramer, of the popular riding stables in Portland, and who has the finest 4-in-hand team in the Northwest, promises to be here on that occasion. In addition to Mr. Kramer having the finest team in the Northwest he has them well trained and he has a neat and novel white harness in which he drives them, making a very handsome spectacle. He will drive up from Portland in his Tally-Ho and make a display of his Tally-Ho and his team, and this should prove a drawing card.

BEAVER CREEK BEEF

That Made Many a Man's Mouth Water to Look at It. Farr Brothers during the past few days have been dispensing beef at their market on Seventh street from two of the finest herds that were ever received in this city. They were two young heaves, each of which was two years old, and weighing 1400 pounds each. They were raised by J. E. Jones, of Beaver Creek, and the meat was excellent. After the heaves were dressed and ready for sale they attracted much attention.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of *Wm. D. Gifford* Officials Testify in U. S. Court. Sheriff Maw, Deputy Sheriff Miles, Constable Brown and Justice Samson were witnesses before the United States Grand Jury in Portland Tuesday in the accusation against Varella Puyi, the Italian accused with selling liquor without a license out on the Mt. Hood railway line. He was fined in Samson's court \$150 for selling and as he had no United States license Uncle Sam wants to know how it happened. These officials testified in the case.

THO' 72 YEARS OLD HAS PIONEER SPIRIT

DAVID WILLS PLANS TO GO TO EUGENE AND TAKE UP A HOMESTEAD.

David Wills, one of the well-known pioneers of Oregon, who crossed the plains with his parents, Rev. and Mrs. George Wills, in the year of 1847, was in Oregon City Friday attending to business matters. Mr. Wills came to Oregon when a boy of nine years of age, and received his education at Milwaukee, where he has resided ever since. His father after arriving in Oregon took up a donation land claim known as the Wills D. L. C. and Willsburg receives its name from the venerable man. Mr. Wills, although he is in his 72nd year, expects to dispose of some of his property interests near Milwaukee and take up a homestead near Eugene. This old pioneer is a picture of health, and claims it is due to not using tobacco nor intoxicating liquors. He expects to see many more years. His stories of the early days of Oregon are interesting, and would easily fill a book. He remembers well of the hardships undergone while crossing the plains. There were three companies coming across the plains when his father and mother came, 30 people being in the company. Mr. Wills' father being a minister was chosen king of the companies, and his word was law.

Trades Store for Saw Mill. John Brown has traded his store and home at Rockwood for the saw mill and timber site near Clarkes, formerly the property of the Superior Lumber Co. This mill has been shut down for a year or so but Mr. Brown contemplates starting it up and sawing heavy timber that goes with the mill. The shingle mill will be started and the shingle timber worked up first.

BIG LAND SALE.

Much of the Large Tract is Virgin Forest Never Crused. The old Sloan place of 325 acres just at the southwest edge of the town of Beaverton was sold yesterday for \$1000 cash. The buyer is a British Columbia capitalist whose name will soon be announced, and the sale was made by the new realty firm of L. E. Niner and C. E. Wickland. The property was owned by the Sloan estate. The farm had been on the market less than two weeks. It is the largest cash sale made recently, and the transfer proves that desirable acreage tributary to Portland is not going begging when offered at fair prices. With the exception of 40 acres that has been cleared little by little in the last 35 years, the whole tract is virgin timber of good size and thick growth. So far as known, the timber has never been crused.

ROSE CITY GUESTS.

Will Be Invited to the Banquet by the Commercial Club. The secretary of the Oregon City Commercial Club has been instructed to invite the president and secretary of the Portland Commercial Club and the secretary of the Chamber of Commerce to attend the banquet to be given by the Oregon City Commercial Club on Wednesday evening, April 19. As the Portland boosters are interested in the boosting movement in this whole valley it is believed these gentlemen will give the local organization any tips that are deemed for the good of the work here.

ROOSEVELT WON'T STOP.

EUGENE, Or., March 27.—The university authorities have not been given an assurance from the Southern Pacific Railway Company that the Roosevelt private train will be allowed to stop near the university campus in Eugene, to permit a ten-minute talk that the ex-President has promised, and it is feared the students will not be able to hear him speak from his train. Roosevelt, when he agreed to speak, left it entirely with the university authorities to arrange with the railroad company a short stop for his private train.
