Catarrh is Surely a Dangerous Disease

Thousands of people allow catarrh to slowly undermine the whole system until a serious disease develops—sometimes consumption.

People who have catarrh should use every effort to get rid of it, but should above all adopt a sensible method.

Stomach dosing, sprays and douches won't cure catarrh because it is a germ disease, and the germs must be destroyed before the disease can be conquered.

HYOMEI is the one sensible cure for catarrh because it reaches every fold, crevice and nook in the mucous membrane and gets where the germs are. You breathe HYOMEI and as it passes over the inflamed membrane its soothing influence heals the soreness and destroys the germs.

A complete HYOMEI outfit costs \$1.00. This consists of a bottle of HYOMEI and a hard rubber inhaler. Pour a few drops of HYOMEI into the inhaler and breathe it a few minutes each day, that's all you have to do. It is guaranteed by Huntley Bros. Co. and druggists everywhere to cure catarrh, coughs, colds and sore throat or money back. Extra bottle of HYOMEI costs 50 cents. 31-14

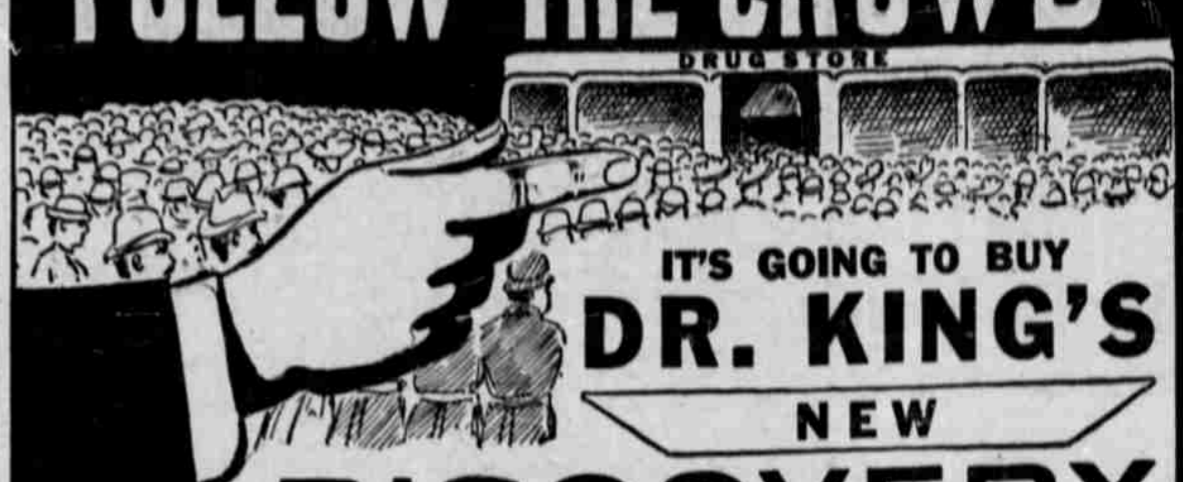

MAY BE THE END.

SAN ANTONIO, Texas, March 29.—(Spl.)—What looks like the end of the Mexican war is at hand. It is believed here that one or both of the Maderos are to go south to meet Diaz tomorrow and that the matter is all settled but the details. If there is an agreement to meet and talk it over it is likely to end peacefully as both sides are tired of the war.
