Further shipments from the Los Angeles and Florida districts considerably increased the supply of strawberries in Portland yesterday and the chances are that by the end of the week the fruit will be much more in evidence. The California crop this year, however, is both late and small, the result of unfavorable weather. One of the local fruit brokers yesterday declared that the crop in the Florida district would be at least 30 per cent short of that of last year, while the yield in the Florida and New-Castle sections would be little if at all more than last year's crop. It is expected there will be two or three old-fashioned fiddlers in attendance who will play the airs of old days of "Auld Lang Syne." This is an important event in the history of Oregon, and as "Founders' Day" it ought to be widely observed. It is hoped that F. X. Mathien, the only survivor of the 52 who voted for organization under the American flag on May 2, 1843, will be present, but the ill attendant upon advancing years—he is now in his 94th year—may prevent.

After hearing the evidence in the case of a case filed in Justice Samson's court on a peace warrant in the sum of \$100. POPCORN KINGS WIN.

Price Bros. Team Loses First Game So Far This Season. The game of ball Sunday between the Price Bros. team and the Popcorn Kings, of Portland, was a hot fight up to the seventh inning with both teams tied with two scores each when the Kings made a rally and put one over on the boys ending the score at 6 to 4. This is the first game that the home team has lost this season. Sunday there will be a game at Canemah Park the Price Bros. team playing the Portland White Sox. WAS TRIMMED NEATLY.

Man Who Did It Let Off Lightly, Because of Provocation. The State of Oregon vs. George Boyer, assault and battery, is the style of a case tried in Justice Samson's court Monday. R. L. McFarland was the man who made the charge, and he claimed that Boyer did beat Billy Shafer, of Colton, without cause. When the case came to trial the evidence showed that Shafer went to the stable of Boyer and called him names and did many disagreeable things and that finally Shafer was angered and provoked to give Shafer a fairly good dressing down. Shafer having provoked the peace Justice Samson let the man who trimmed him off easily, fining him but \$5, which he paid.

A letter from J. I. Cleland, Portage, Wis., calling for a report of the activities of Christian Endeavor in Oregon and facts relative to the increase campaign was taken up and the secretary instructed to ascertain from the endevorers of the State much information required and give answer to Mr. Cleland. TWO SEEK DIVORCES.

One Man Wouldn't Speak to Wife for Days at a Time. Elizabeth Williams, who was married at Vancouver, Wash., in 1906, to James W. Williams, has filed a suit for divorce. She says he called her a "damn fool." He is also charged with finding fault with her, of possessing a sulky disposition, and she says he would not speak to her for days at a time. At one time he is said to have drawn a pistol and threatened to shoot her. Three months ago he left her. She desires to resume her maiden name of Elizabeth Hanke. Her attorney is Charles H. Dye.

WEXATIOUS DIVORCE CASE ENDS IN A DECREE FOR MRS. BELLE WARE.

Some two weeks ago Rev. John Ware filed suit for divorce against his wife, Belle Ware. Mrs. Ware then filed a counter charge against Ware and asked that the decree be given her. Very serious charges were made in the complaint filed by Mrs. Ware and her attorneys and friends insisted that the charges be modified. This was done, the case heard, and Mrs. Ware given a decree, with the custody of the children and a monthly allowance of \$25. The Wares have not been getting on well together for some time, and the inevitable outcome was a separation, which has been. While each side to the dispute charges the other with various delinquencies, it is very probable that both are chargeable with error and that the trouble is not all on one side.

INFORMATION ASKED.

Thousand Letters a Month Received at O. A. Experiment Station. More than 1,000 letters a month are being received in one department of the O. A. experiment station. Some of these ask for bulletins, some ask for advice on a specific subject, but by far the largest number are from prospective members who wish more authentic information that can be secured from commercial clubs. Demands for bulletins are coming from England and South Africa, China and Chile, and from time to time nearly every large agricultural country in the world has been heard from. This, together with the number of requests that are coming from farming communities all over the State for institutions. The fact, however, that the department station was refused funds to continue this educational work among the farmers tempers this self-congratulation.

PUBLIC DRINKING CUPS

Will Be Laid Away September 1. By Order of State Board of Health. Public drinking cups will be banished from the State September 1. The State Board of Health has issued this order and it applies to public schools, trains, railroad stations and all public places. The ruling of the board is now in the hands of the State printer and will be promulgated within a few days. Dr. Calvin S. White, State health officer, has proof that the public drinking cup with the fly as a spreader of disease, pneumonia, tuberculosis, measles, scarlet fever and typhoid are transmitted in this way and infection and disease come as a natural consequence. Dr. White believes the use of cups in the city schools is particularly dangerous and gives the health authorities too much to do to check epidemics that get started in that way.
