The village correspondent feels sure that the residents of Wilsonville and vicinity can be relied upon to stand loyally by their county officials, as long as they are guilty of no greater wrong doing than trying to improve the roads of the county at large. If those who are at the head of our county government are not going to be allowed to exercise their freedom of thought as American citizens, then how long are we going to be able to place suitable men at the head of affairs. When Judge Beetle was sheriff of this county, he performed his duties faithfully and well, and his record was above reproach, and now that he has been elected to the position of county judge, he seems to be performing his duties with the same degree of straight forward manliness and justice, and trying to do what is best for the county at large. We have no axes to grind with the county court, but in the spirit of justice and fair play, would it not be better for the residents of our country districts to remember that Clackamas is a grand old county, and that the business men at the county seat, are trying to place her in the front rank, where she rightfully belongs, and if we join hands and pull together, we can have good roads, good schools, etc., but if upon every little pretext, the county government is to be subjected to ridicule and torn to pieces, will soon have Clackamas in the shape of a threadbare rag. It is to be hoped that we will all stand shoulder to shoulder for good government, which we cannot have unless we as individuals possess the spirit of honor and justice.

The Feed Is the Heart of the Drill--
Some Drills Have Heart Disease--
But Not the Hoosier.

Its heart is perfectly sound. Its feed is a positive force feed, which seeds uniformly and accurately, regardless of conditions. It works as well on the side hill, up hill or down hill as on the level. There is no guess work, you set the feed regulator at the quantity you want to sow and you know that you are seeding just that amount, no more or no less. That's why you want to be sure your drill is Positive Force Feed Machine and the only way to be absolutely sure is to buy a Hoosier. Write for our circular "The Feeding of Seed".

GROVER FUNERAL TO BE HELD FRIDAY

EX-GOVERNOR AND ONE OF THE FRAMERS OF OREGON CONSTITUTION DIES.
PORTLAND, Or., May 10.—(Sp.)—The funeral service of Lafayette Grover, ex-Governor of Oregon, ex-United States Senator and one of the framers of the Oregon Constitution, who died suddenly this morning, will be held in Trinity Episcopal church at 2 o'clock Friday afternoon. Burial will be in Riverview cemetery.
Mr. Grover was born in Bethel, Maine, November 25, 1825, and came to Oregon 60 years ago.
In 1857 Mr. Grover was chosen a delegate to the state constitutional convention and was one of the leading minds in drafting the constitution of Oregon. He was later elected to the state legislature. From this position he was elected as the state's first representative in congress in 1858. In 1870 he was elected governor of the state and was re-elected four years later. In 1877 he resigned the governorship to become United States senator, where he served the state until 1883.
It was when the Republican party was confronted by defeat in the effort to elect Rutherford B. Hayes President, that a National Issue was placed within the hands of Governor Grover. When the votes were counted it was found that Louisiana, Florida and Oregon were the controlling factors. By rulings which the Republicans adopted, Florida and Louisiana were placed in a satisfactory position, but every electoral vote from Oregon was still necessary.
Three electors had been chosen in this state, receiving a sufficient vote. It was found that one of the number was Joseph Watts, holding a post-office position at Lafayette, and the Democrats produced the Constitutional provision which forbade any man holding a public office from being chosen as an elector.
Governor Grover issued a certificate of election to Attorney Cronin, of Portland, in the place of Watts, and on the recognition of Cronin or Watts hung the fate of the parties. Throughout the Nation the names of Grover Cronin and Watts were on every tongue.
The two Republican electors not attacked would not recognize Cronin, and refused to meet with him. Watts resigned his office as postmaster, was chosen by the two Republican electors on the theory that they had the right to fill the vacancy, thus three Republicans cast the votes which put Hayes into office, and then after that Watts was again given his postoffice. Party papers throughout the country raged, and Governor Grover was thrust into the very forefront of National prominence, being scored by his adversaries and cheered by his fellow party members.
