EXPERTS DON'T FEAR DEATH OF ROSES

FEW WARM DAYS WILL MAKE VERIFIABLE BOWER OF BLOSSOMS, THEY DECLARE.

PORTLAND, Or., May 26.—(Special.)—Despite fears in some quarters that Portland will not have roses for the Festival because of the continued cool weather, rosarians express confidence that there will be an abundance during the first week in June.

"We have more and finer roses this year than ever before," said Mrs. A. C. Panton, president of the rose society. It is true that we have been having much cool weather lately, but we had a dry March and we needed the cool weather. I never saw the bushes and foliage in better condition than they are this year.

All we need now is a few warm days and the roses will be in full bloom. There is no cause for alarm."

Frederick V. Holman, one of the leading rose fanciers of Portland, declared that if warm weather comes Portland will have finer roses than ever before for the Rose Festival. He says his bushes are in fine condition and the buds are all ready to burst into bloom.

"We have had unusual weather conditions this spring, yet I believe we shall have finer roses than for years," said Mr. Holman. "Every year there is a hue and cry about roses for the Festival. Some seasons people become alarmed because the roses begin to bloom so early, and now people are afraid the roses will not be in bloom soon enough. A few days of sunshine and warm nights will transform the city into a magnificent bower of roses. There will be all the roses we shall want for the Festival."

Mrs. James C. Davis, another enthusiastic rosarian, said: "The bushes are in fine condition, and with warm weather from now on, the roses will be in full bloom at Festival time. Indeed, I believe that we shall not only have a plentiful supply of roses but we will have the finest blooms this year we have ever grown in Portland."
