NEWS FROM THE COUNTRY

INTERESTING ITEMS FROM ALL PARTS OF CLACKAMAS COUNTY

STONE. MACKSBURG.

The people around here are busy. The ground has been pretty well dried on top, but the grass is growing rapidly. The seeds that have been planted seem to hold a nice green color, and the weeds are in for a place in mother earth.

The strawberries in this vicinity are fine. The gooseberries are of a large crop, while the currants are still growing nicely. The Loganberries and Burbankberries will soon come into the markets.

The people of this place realize they are living in a town, as we now have a grocery store at Clear Creek Park. The Messrs. Mindenhall have charge of the store, and sell many goods. If things improve here fast enough we may incorporate, as we have the Grant Mumpower Pocket Sawmill, and the Clear Creek Butter Factory, besides the other buildings close by.

Ed. Mendenhall's residence was burned a few days ago, most of contents of which were saved. The house was insured.

The Home Oil well has commenced operations again and progress is being made through the rock and earth. The people around Stone and those who have taken stock in the well may be surprised and happy to know that prospects are favorable. Two men have charge. The shareholders may hear of or see a gusher well here in Clackamas county.

This part of the county is getting to be noted for picnickers coming by automobiles. Every Sunday the place is visited by many people from Portland and Oregon City who wish to spend the warm days in the shade and cool along the banks of Clear Creek and Clackamas.

COLTON.
W. E. Bonney was away to Oregon City a few days last week. Mrs. Harris, of Hillsboro, has been visiting with her aunt, Mrs. Dix, at Colton.

MILLIONS OF PEOPLE THROUGHOUT AMERICA have breathed HYOMEI (pronounce it High-oh-mee) and now own a HYOMEI Inhaler made of hard rubber.

If you own a HYOMEI Inhaler, no matter where you live, you can get a bottle of HYOMEI at Huntley Bros. and druggists everywhere in a week.

Ask for an extra bottle of HYOMEI Inhaler; it is only 50c and with it you can cure a cough or a cold in a day.

You can get relief from catarrh of stuffed up head in two minutes and stop hawking and snuffing in a week. Just pour a few drops of HYOMEI into the inhaler and breathe it in—that's all.

It's so easy and so pleasant and so much more desirable than swallowing nauseating drugs. Breathe Hyomei over the inflamed membrane of the nose and throat and its soothing, healing action will be felt immediately.

If you have not a HYOMEI Inhaler, get a complete HYOMEI outfit at once. This outfit costs \$1.00, and with it comes a HYOMEI Inhaler that will last a lifetime and ought to be in every family.

These Three Advantages Alone Make the CHAMPION MOWER Superior to All Other Machines

KNIFE HEAD--The Champion Knife Head has a broad bearing surface. Parts are of case hardened steel to prevent wear. The knife head is long and very strong. Wear caused by the revolving pitman is automatically taken up by means of an adjusting device.

COUPLING YOKE--The coupling yoke is wide and very substantial, making it impossible for the knife to get out of line with the pitman.

COUPLING PINS--The coupling pins are large and case hardened. They provide excellent bearing surfaces. The wide yoke, long pins and the substantial way in which the shoe is attached to the yoke insures positive alignment of the knife and pitman.

With These Superior Features are Combined Many Others--Strength of Construction--Ease of Operation--Light Draft.

8,000 NAMES ARE CALLED FORGERIES

WHOLESALE FRAUD MAY YET SAVE APPROPRIATIONS FOR UNIVERSITY.

PORTLAND MAN IS ONE OF ACCUSED

Burns' Detectives Declare 4,000 Names Self-Evident Forgeries—Suspects Flee State.

SALEM, Or., June 9.—Forgeries of names on the referendum petition attacking the University of Oregon appropriations may save those appropriations. Burns' detectives, working under the direction of ex-Supreme Court Justice Slater, declare that 8,000 names are tainted with fraud and that at least 4,000 are self-evident forgeries.

The inquiry has been carried on secretly for a fortnight. William J. Wright, of the Burns Detective Agency, has had charge of the force of investigators.

Otto Newman, who was indicted in Portland for forging signatures to the so-called Ellis paving petitions, and is now out on bail, is named by Slater as being evidently connected with the alleged forgeries. Slater says that there are twenty more under suspicion. The names of these he has under lock and key and will not divulge them. Detective Wright, however, is now on a still hunt for evidence outside of this city and arrests are momentarily expected under the initiative and referendum act, which provides a \$500 fine or two years in the penitentiary for forgery of petitions.

One man, Harry Goldman, is asserted, has left the state. Burns' detectives visited his former home at Portland, it is said, and were told there that the man had left the state and that his present whereabouts would not be divulged. But the owner of the house where he was living said that word could be sent to the fugitive through him.

Hulls Improve Pea Soup.
It is a waste of good material not to make pea soup every time you have peas for dinner. When they are boiled much of their value is left in the water, and when this is thrown away you do not get more than half of the good of them, and soup is always an excellent beginning for a dinner. To make it after the peas are shelled, wash the hulls and put them to cook in cold water that does not more than cover them. Let them simmer a while till they look "faded," then throw away and put the peas to boil in the same water. When done, dish them as usual. They are improved by the additional flavor given by the hulls. Then add some good milk to the water and thicken it slightly with about a tablespoonful of butter and flour rubbed to a paste, and season with salt and pepper. When peas are too old to be good, use them to thicken the soup by putting them through a colander. It is true of any boiled vegetable that much of its value stays in the water in which it was cooked, and any one of them can be made into soup in the same manner as the peas.
