CHAUTAUQUA CLOWNS TO PLEASE CHILDREN

WEIRDLY-DRESSED AND PAINTED FELLOWS TO ROAM ABOUT GROUNDS.

One of the attractions at the Willamette Valley Chautauqua on July 7, opening day, will be the clowns of the Portland Young Men's Christian Association. The clowns are famous throughout this and other counties, and they will not only amuse the children but the grown folk as well. The gaily dressed and painted funmakers will roam about the grounds, causing amusement here and there, and doing tricks that strictly belong to the clown type of entertainers. That they will make the day interesting for the youngsters goes without saying.

Secretary Gary has completed arrangements for taking care of automobiles at the chautauqua. The entrance which caused trouble last year has been rearranged, and it will be easy for the machines to enter the grounds.

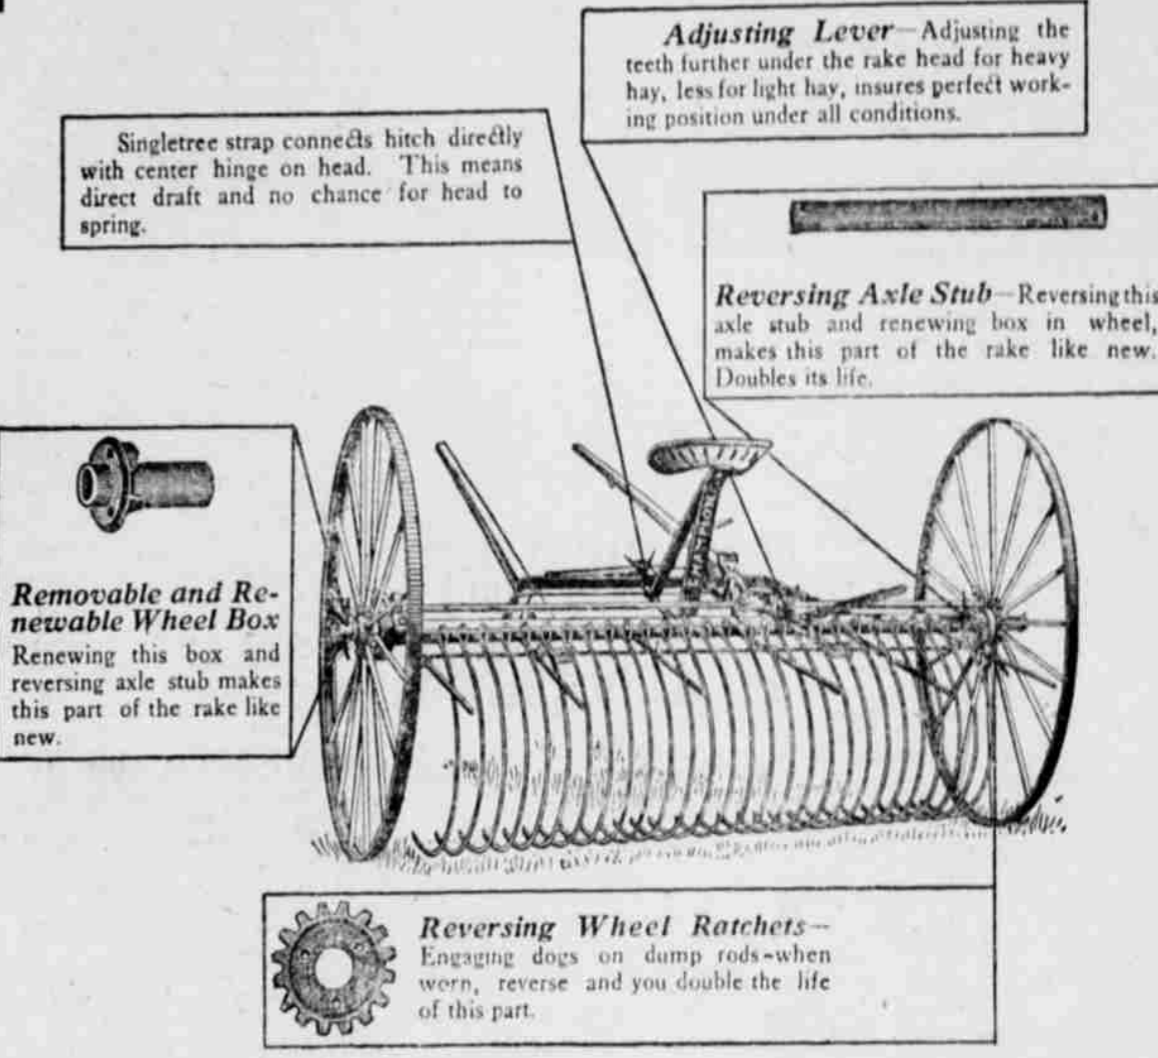

The little brown slug that defoliate, the pear, plum and cherry trees during the summer season is one of the most of our insects to control. No one need allow this insect to do any serious harm to his trees, if he will thoroughly use the remedy here given. Steep two ounces of fresh white hellebore in one gallon of water, and use as a spray when the slugs are first seen. Stir the mixture often; or, better yet, have an agitator attachment on the pump. Sometimes there is a second brood of the slugs, necessitating a second spraying.

Whooping cough is not dangerous when the cough is kept loose and expectoration easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of this disease with perfect success. For sale by all dealers.

CHERRIES ATTRACT ATTENTION.
The limb of a Black Tartarian cherry tree exhibited in the office of J. J. Corbett, of this city, has attracted

much attention the past few days. The cherries were grown on the Corbett place, and the tree is heavily laden with luscious fruit. The limb containing the fruit is eight inches long with 120 cherries, which weigh one and three-fourths pounds.

Mr. Corbett has taken 100 pounds from the tree, which is so heavily laden that it is impossible to see where these were picked. The tree was sprayed by Mr. Corbett in the early spring. He has another tree of a different variety, which also has an unusually large yield.

A HOPEFUL MESSAGE TO SCALP SUFFERERS AND MEN WHO'S HAIR IS THINNING.

Dandruff now—bald later. The same is true of scalp diseases. In fact baldness is a scalp disease. The trouble with the greasy salves and lotions, the so-called dandruff and scalp cures you have tried so far is that they don't do anything but temporarily relieve the itching and make the dandruff so it doesn't fall out it's dried out again. Nothing can cure really cure such troubles but a real scalp medicine that will kill the germs causing dandruff and scalp disease.

Learning from leading fellow druggists throughout America that they had found a whirlwind cure for dandruff, eczema, and all diseases of the skin and scalp, the Huntley Bros. Co. Drug Store on proving to the laboratories compounding the treatment that it is the most prominent drug store in this city secured the agency for the remedy. This remedy is ZEMO, the clean, liquid preparation that kills the germ of disease and ZEMO SOAP to wash the scalp or skin clear and clean of the dandruff or scale and by its antiseptic qualities soothe and heal.

Sold and guaranteed by druggists everywhere and in Oregon City by Huntley Bros. Co.
