MILWAUKIE SUED TO HALT STREET

FIVE PLAINTIFFS ALLEGE PROPOSED HIGHWAY WOULD INJURE THEIR PROPERTY.

BIG TANNERY INVOLVED IN CASE

Shifting of Thoroughfare, it is Alleged, Would Destroy Mill and Fill Creek and Pond.

Suit was instituted Wednesday in the Circuit Court by Rose Whitcomb, Kate L. Charman, Dora Conklin, Hattie B. Wisinger and Robert Bonnet against the town of Milwaukie to prevent the officials of that municipality from proceeding with the improvement of a street along the lines proposed, upon the ground that the property of the plaintiffs would be irreparably damaged.

Application is made for a temporary restraining order, and the plaintiffs then propose to obtain a permanent injunction. Five acres of land, known as the Milwaukee Tannery property, together with water power and dam, is involved in the suit.

Street to Follow Road. The County Court in 1884 established a county road along the north boundary of the property, prior to the incorporation of Milwaukie, and the plaintiffs aver that Mayor Stroth and Councilmen John R. Kelso, W. E. Lehman, Warren Knight and C. T. Stockton pretended to pass an ordinance for the improvement of Harrison street and let a contract for the improvement to W. H. Counsell, including the improvement of all that part of the county road along the property of the plaintiffs wrongfully designated as Harrison street.

It is charged that the Mayor and Councilmen pretended to make a survey and relocate the north boundary of the Lot Whitcomb donation land claim, in which the property is situated, and to resurvey and relocate that part of the county road so established along the north boundary of the claim by shifting the north boundary of the claim 27.67 feet south of the true north boundary line, unlawfully encroaching upon plaintiff's property a distance of 27.67 feet.

Injury to Mill Threatened. There is a small creek and mill pond, together with a mill on the creek, located near the north boundary line of the property, and within the boundaries of the land, and it is alleged that by the shifting of the county road and the north boundary line, the Milwaukee officials, if not restrained by the court, will enter upon the premises and remove the fences, destroy the mill and fill up and destroy the creek and mill pond.

The plaintiffs are represented by Attorneys Dimick & Dimick.

SANDY STIRRED BY KILLING OF HORSES

MYSTERIOUS MAN SLAYS SIX ANIMALS AND MAKES HIS ESCAPE.

BODIES ARE FOUND ON BARLOW ROAD

Citizens, Aroused by Outrage, Search in Vain For Driver Who is Thought to Have Fled to Eastern Oregon.

The killing of six fine work horses by a man supposed to be insane, has stirred the residents of Sandy and vicinity. The man passed through Sandy the early part of last week with the horses attached to a wagon, and the next day the animals were found dead on the side of the Barlow road. They had been shot in the head.

The identity of the man who killed the horses, whether he owned them or had stolen them, and where he came from, are matters the authorities have been unable to solve. The driver, however, is said to have acted strangely when he passed through the town.

Wagon Found in River. After the bodies of the horses were discovered, a search was made for the wagon, and it was found in the Sandy River. Part of the harness was on the bodies of the horses and the rest had been thrown in the river.

W. M. Hardin, of Ames, who was in the city Wednesday, said that the people living in the neighborhood where the bodies were found, were greatly wrought up over the killing of the horses. They have made a thorough search for the man who killed them, and it is thought that he escaped into Eastern Oregon. He was going in that direction when he passed through Sandy.

Another report from Sandy gives the number of horses killed as eight. It was at first thought that the horses were stolen from a man at Estacada, but only two of his animals were missing, and none of the horses killed answered their description.

Man Thought Hill Slayer. Soon after the bodies of the animals were found a rumor started at Sandy that the man who killed them was the slayer of the Hill family near Ardenwald station, but this is hardly probable. The sheriff's office made an investigation of the killing of the horses, but got no clue to the identity of the man who was last seen driving them. That he is a maniac, or had stolen the animals and feared capture if he turned them loose, is the belief of the authorities.

TELEGRAPH OPERATOR IS CALLED A THIEF

L. F. SHORT, EMPLOYED IN RAILROAD OFFICE AT CANBY, IS ARRESTED.

L. F. Short, telegraph operator for the Southern Pacific Railroad at Canby, was arrested Wednesday afternoon on a charge of opening packages at the station and stealing articles of clothing valued at about \$75. Short was brought to this city by Deputy Sheriff Staats, and taken before Justice of the Peace Samson. The prisoner waived examination and was bound over to the grand jury.

The railway agents allege that articles have been taken from packages at the station for sometime. Short was suspected, and, it is said, some of the stolen articles were found in his possession. Detectives of the company arrested him and the sheriff's office was notified. The young man told Deputy Sheriff Staats that he came to Oregon from North Dakota.
