has won the respect of the world, so common to decry his occupation as It used to be before Uncle Sam discovered it to be a science. Now young men are flocking to the agriexperts with the government. One of the later has just returned to Washington after spending two months in Spain and Sicily investigating lemon growing. He is G. Harold Powell, of Agriculture in the investigation of attention. The citrus fruit growers of California heid his talents in such an offer of \$10,000 a year salary he succumbed, and he is now secretary and manager of the Citrus Protective League of California, a model business has been fighting for a tariff on lemons that will permit the industry to survive. Having secured that tariff, importers to have it reduced. The latter have raised a big fund to inluence public opinion in this country and to affect legislation.

ROTTEN SERVICE

Under the above heading the Porthas which follows:

Talk about "rotten service" in the The service given on the west side of the Williamette Valley by the high, time tables a mockery.

With ten trains a day the congesownership and operation we will never have such a thing, however.

THE WORST KIND OF WASTE.

One's idea of waste or extravagance is usually financial and the results upon the individual spender, according to whether he lives withing or beyond his income, has never been more graphically described than in the words of the celebrated Micawber, "Income, twenpounds; expenditure, nineteen pounds, nineteen shillings and six-Result, happiness. Income twenty pounds; expenditure, twenty GIRL CUTS HAND WHILE WADING. pounds and sixpence. Result, mis

greatest waste is that of energy, strength, time and the finer sensibilities, ending at last in moral disaster.

That extravagance in money and ex- S. Mount, of this city, was summoned, travagance along the other lines men- and it was necessary to give the young tioned too often go together there are abundant proofs in this present time of four stiches to close the cut, great incomes and fortunes. One trouble is that a very large number of wasteful, useless young men are curs ed with rich parents. If it were otherwise their lives would be more account

The Honduran and Nicaraguan treaties, invoving loans, are not likely to go through at this session, and there is great disappointment because the countries to the southward are pretty hard up and need the money. ---

EXCESSIVE EXPRESS PROFITS

It is news to most people that the Interstate Commerce Comission has undertaken the investigation of the express companies. The announcement that this policy has just been de cided on is misleading, for the Com mision has had men in the field for months making a searching inquiry into the business methods of the companies. As a result of this investigation, it is believed, the cariers under investiation filed new schedules which are probably intended to meet some of the more serious complaints Perhaps you have noticed that it isn't regarding the manner of conducting the express business. It has been contended for a long time that the ex- Clackamas county. press monopoly was making excessive profits. It will gratify the public if cultural schools and colleges and something can be done to insure more Wash, called to see the exhibits in many of them are graduating into equitable charges for service and betprofessorships, or into positions as ter protection to the customers of will buy a small farm near Oregon the companies.

STOPPING CUSTOMS LEAK.

For many years, according to the customs officials, the government has been losing large sums of money anand in transit attracted such wide ian lemons did not pay duty on all attention. The citrus fruit growers the sound fruit they imported. When Collector Loeb discovered this leak esteem that they tried to get him to the authorities set about the making go out there. When they got up to of regulations which would stop the leak. They finally decided to base the amount of rotten fruit, on which customs duties are remitted), on the samples shown by the importers to organization of agriculturalists, which the trade. The Secretary of the Treas ury approved this plan, but the importers protested that it was not fair. the organization is now combating The importers could make no satis-"Why not?" asked Secretary McVeah. factory reply, so the order stands, and the government will save much,

Oregon banks are not purchasing bonds in such quantities as in last year. For the fiscal year ending June 30, 1911, the decrease in the amount of bonds held by the 245 banks in this state was \$334,656, the total had occasion to amount held being \$22,392,081. The aggregate assets totaled \$143,000.975. surplus and profits \$8,004,019 and in-

Breeze Brings Business

Electric Fans are indispensable to stores, shops, bars, soda fountains, cafes—in short, any piace catering to public patronage.

A regard for your customers' comfort demands the use of Electric Fans. The most suitable Fan is the Oscillating type in either the twelve or sixteen inch size. This type turns from side to side, and will uniformly cool a large area.

We also have an eight inch bracket type for cooling your telephone booth.

Our electric tan represents pertection in fan manufacture. The cost of operation is too trivial for serious consideration—less than one cent an hour.

Let us have a representative call and prove to you that the use of our electric fans during the summer months will mean just what we claim-that BREEZE BRINGS BUSINESS. 'Phone us.
