A letter in the Oregonian Monday, November 6, by a Canadian farm owner, shows how single tax makes the farmers' tax less by exemption of improvements. It is higher than here,

with personal property and improvements included. His valuation is \$5,500 and pays \$87 taxes. He says he paid taxes in four states of the Union but never as high as in Canada. How about it, Mr. U'Ren? Since you have tried to make us greenhorns believe farmers' taxes would be less with single tax; one thing and a sure one, the price of farm produce would have to be raised to meet the added burden. How about the farmers, who lose their crops sometimes on account of the rains in harvest, etc? Also a failure of crops; how about that? The First Music.

## The father of song, music and dancing, all three, was the savage who

first clapped hands and shouted in time at some rude festival of his tribe. From that chapping and shouting has been evolved the whole art of instrumental music, including even the entrancing complexities of the modern symphony. From that shout or rudimentary emotional utterance has proreeded by a kindred evolution the whole art of vocai music down to the modern opera or oratorio. From the savage leap has come every variety

of dancing, from the country breakdown to the beautiful waltzes of the city ballroom.-New York American.
