BUYERS ARE SLOW IN CATTLE MARKET The Portland Union Stock Yards Company reports as follows: Receipts for the week were 1,678 Cattle; 27 Calves; 1534 Hogs; 6619 Sheep; 68 Horses. The cattle market started the week with a draggy condition and buyers were somewhat slow in taking hold. The steer market showed an advance of 10 to 15 cents but killers claim that quality considered, the market was about steady at the former week's prices. The steer market lacked tone throughout and the cow market did not show a snappy condition. Good cows sold for as much money as they did the week before but there was a slower clean up. There were not enough calves of good quality on the market to show the price condition. Bulls sold at strong prices. The hog market closed the week at about 15c lower than the week previous, top going at \$6.85. A good part of the supplies were made up from local territory. In face of increased receipts the sheep market showed a higher range of values, a great part of the supply was feeder quality, but lambs or anything that looked like mutton brought advanced prices and the demand was not supplied for killable mutton. The following prices are representative: 29 Steers 1294 \$5.85 29 Steers 1195 \$5.75 199 Steers 1178 \$5.65 32 Steers 1205 \$5.25 30 Cows 1012 4.85 92 Cows 1139 4.75 122 Cows 975 4.60 86 Cows 965 4.00 1 Stag 310 6.50 6 Calves 1170 5.00 2 Bulls 1689 4.50 5 Bulls 1310 4.35 222 Hogs 193 6.85 217 Hogs 208 6.70 160 Hogs 195 6.50 20 Hogs 363 6.00 281 Lambs 69 \$56.0 Off cars 718 Lambs 71 4.85 Off cars 796 Lambs 195 3.75 Off cars 833 Yr. GROWERS HOLD SPUDS FOR HIGHER PRICES

The potato-growers of this state appear to have become fully convinced that the market must work to a higher level in the near future. There is a little business going on in most of the producing districts, and a few shipments for the Southern markets are going out weekly, but in general the growers who have fancy stock seem to be satisfied that they have nothing to lose and perhaps a good deal to gain by holding for a while. All things considered, it is perhaps just as well that the farmers now are bullishly inclined, for with the demand at this time at the best a moderate affair, free selling would have anything but a good effect. Local dealers say that the Southern call now is mainly for Garnets and American Wonders, for seed purposes, and that for the time they are able to buy sufficiently to satisfy that demand. For Garnets they are paying around \$1.15 and for Wonders \$1.25 to \$1.35 a hundred, at shipping points. In the South, Burbanks, for table use, are wanted in only a limited way, and for such lots as dealers are taking over from time to time they are reported to be paying around \$1 a hundred. A better California demand is counted a certainty, but as usual the movement of this variety southward is not expected to assume large proportions until after the first of the year, when the river crop in the South is well out of the way. The course of the potato market from this time on is of course a matter of uncertainty, but in view of the known shortage in many of the great producing districts of the country this year the outlook on the whole would seem to be favorable. A fact to be remembered in this connection, however, is that the yield in this state and California this season was well up to the average of recent years. In any event, the developments of the next few weeks will give some indication of the future of the market. Prevailing Oregon City prices are as follows: Fruits, Vegetables. DRIED FRUITS—(Buying)—Prunes on basis of 6 1/4 pounds for 43-50¢. HIDES—(Buying)—Green hides, 5c to 6c; sauters, 5c to 6c; dry hides, 12c to 14c; sheep pelts, 25c to 75c each. Hay, Grain, Feed. HAY—(Buying)—Timothy, \$12 to \$15; clover, \$8 to \$9; oat hay, best, \$9 to \$10; mixed, \$9 to \$12; alfalfa, \$15 to \$16.50. OATS—(Buying)—Gray, \$27 to \$28; wheat, \$28 to \$29; oil meal, \$53; Shady Brook dairy feed, \$1.25 per 100 pounds. FEED—(Selling)—Shorts, \$27 to \$28; rolled barley, \$37.50; process barley, \$38.50; whole corn, \$37; cracked corn, \$38; white, \$36 to \$37; bran \$27 to \$28. Butter, Poultry, Eggs. FLOUR—\$4.50 to \$5.25. BUTTER—(Buying)—Ordinary country butter, 25c to 30c; fancy dairy, 30c; creamery, 30c to 35c. POULTRY—(Buying)—Hens, 10c to 11c. EGGS—Oregon—fresh eggs, 40c to 45c. SACK VEGETABLES—Carrots, \$1.25 to \$1.50 per sack; parsnips, \$1.25 to \$1.50; turnips, \$1.25 to \$1.50; Prunes, on basis of 6 1/4 for 45 and 50c; beets, \$1.50. POTATOES—Best buying 85c to \$1 per hundred. ONIONS—Oregon, \$1.25 to \$1.50 per hundred; Australian, \$2 per hundred. Livestock, Meats. BEEF—(Live weight)—Steers, 5c and 5 1/2c; cows, 4 1/2c; bulls, 3 1/2c. VEAL—Calves bring from 8c to 12c, according to grade. MUTTON—Sheep, 3c and 3 1/2c; lambs, 4c and 5c. HOGS—125 to 140 pound hogs, 13c and 11c; 140 to 200 pounds, 10c and 10 1/2c. Dandruff and Itching Scalp Yield to Zemo Treatment. Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it. Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will rid the DAN-DRUFF and ITCHING SCALP. This remedy is ZEMO, a clean, refined, penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it. A shampoo with ZEMO (ANTISEPTIC) SOAP and one application of ZEMO will entirely rid the scalp of dandruff and scurf. Do not hesitate, but get a bottle of ZEMO today. It acts on a new principle and will do exactly what we claim for it. Sold and endorsed by the Huntley Bros. Drug Store. SPUD GROWERS WAIT FOR HIGHER PRICES Potato growers are holding their supplies for higher prices and there has been practically no outside movement during the past few days. Buyers continue to offer generally \$1 a cental for fancy shipping Burbanks at country points, although \$1.05 and \$1.10 have both been paid in extreme cases for extra select. Ordinary Burbanks are ruling around 85c to 90c at country points and in these the only movement is shown. Leading shippers say that the market is being hurt by the absence of selling. With tight holding by growers the huge crop of the state will be held back until late in the spring. This will perhaps help the early market but will hurt the price when this huge amount of stuff comes forward. There was no improvement in the situation at San Francisco Saturday; in fact, Oregon stock is generally quoted 50 per cent less. Dr. Bell's Antiseptic Salve. Is guaranteed for eczema, salt rheum, tetter, ringworm, running sore—chapped hands and lips, pimples on the face, black heads, barber's itch, sun burn, insect bites, fever sores and nasal catarrh. 25c. TROOPS RUSHED TO TEXAS BORDER

PARTY OF ALLEGED REVOLUTIONISTS ATTEMPT TO CROSS AT BROWNSVILLE. FEDERAL SOLDIERS READY TO ACT Orders Given To Seize Mexicans Arms—Hostile Movement Will Be Downed By Militia at Once. AUSTIN, Tex., Nov. 20.—At the request of the Sheriff of Cameron County, who reported it was his information that a party of alleged revolutionists would attempt to cross the border into Mexico at Brownsville, Governor Colquitt ordered out a company of State Militia stationed at Brownsville, tonight to assist the county authorities in enforcing the neutrality laws. A detachment of state rangers has also been ordered to Brownsville. A later dispatch from Brownsville reported that the state troops had responded to the call and were working in conjunction with the county officials. Assistant Attorney-General Lane has informed the Governor that the State Militia and rangers are vested with ample authority under the laws of Texas to seize arms being accumulated in time of peace when circumstances indicate threatening movements against friendly powers or neighbors. The movement of United States troops to the Mexican border, in connection with a rising said to be imminent, has centered on Laredo because that place is reported to be the most important just now as an outlet for supplies and munitions of war. GUARANTEED EGGS ARE SOLD AT PROFIT The men who are making the most money in the egg business today are buying strictly fresh eggs from farmers under a special contract and selling "guaranteed eggs" direct to the grocer, says "Hood's" Dairyman. By dodging the middleman and buying only guaranteed eggs on a "loss-off" basis they can pay more to the farmer, while the consumer willingly pays the top price for a guaranteed article. It is not an experiment but a well thought-out plan now in successful operation and one that any creamery can adopt that is not located too remote from a market. The owner of a creamery in Northern Minnesota figured out that, inasmuch as the farmers in that locality must bring in their milk and cream to the local creamery regularly or at frequent intervals, it would be a good way to get eggs in fresh from the farms. This creamery, while privately owned, was essentially co-operative in that its owner was farsighted enough to see that any increased prosperity among his farmer customers must eventually be to his advantage. So he outlined and laid before his customers this plan. Any patron, or for that matter, any person who would sign an agreement to market fresh eggs under his instructions would receive his price which would be more than the merchant in the town paid, and in cash. At the present time there are about 135 farmers who have signed and are selling under this agreement. These are scattered over a territory of varying distance from the creamery, one man driving fourteen miles to take advantage of the cash prices paid. The agreement which all have signed is as follows: "For the privilege of selling to the creamery and getting a market established for guaranteed fresh eggs, I, the undersigned, hereby pledge myself to comply in every way with the following rules: I will deliver eggs at the creamery that will not be to exceed 8 days old and to be picked in (gathered) twice a day. Eggs to be of uniform size (no unduly small or over size). Eggs to be clean and to be kept in a cool, dry cellar. Brown eggs to be put in one carton and white eggs in another and so marked. Each egg to be stamped on the side and the carton on the top. WILLAMETTE VALLEY HOPS BRING 45 CENTS A 45c market for hops has been established fully confirming the forecasts made during the past few days. One sale was closed in the country at the high mark of the season. With foreign markets firm and with stocks of hops everywhere the smallest in the history of the industry at this period of the season, the outlook for still higher values could scarcely be improved. While American brewers continue to nibble at the market and are buying a small lot here and there, English interests are taking everything that can be purchased at the present market. Sales during the past twenty-four hours were from 45c to 44c as a rule, only one transaction being reported closed at the higher figure. Drying preparations simply dehydrate, they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying tobacco, fumes, snuffs and snuffe and use that which cleanses, soothes and heals. Ely's Cream Balm will soothe catarrh or cold in the head easily and pleasantly. All druggists sell the 50 cent size. Ely Brothers, 50 Warren Street, New York. The Balm is used without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. Ely's Cream Balm contains no cocaine, mercury nor other harmful drugs.
