## NEWS FROM THE COUNTRY

INTERESTING ITEMS FROM ALL PARTS OF CLACKAMAS COUNTY

### STONE.

As the year 1912 came Monday, good wishes to the Enterprise family and the readers of the Enterprise. As the people living away out of the din of battle of city life, thus we are not troubled with so steady a din of noise. One big load of oats, one of hay and other smaller loads went along here this morning, but there was not water squeezed out of the road. It has been a long time since we have seen the ground as solid as it is now, and old nature is holding hand and foot without any sunshine to aid in loosening the solid frozen roads.

Grant Mumpower's pole sawmill is as still as the wind. He has not got the steam raised yet today. Business matters are looking toward a business that will be livelier this winter here. Parties are clearing out Clear Creek and are going to ship cord wood down the creek into the Clackamas river. There is a party up the Clackamas river under the management of Grant Mumpower which is cutting cord wood and some timber. It will not be long till wood will be scarce in Oregon, especially in Clackamas county. The people will have to have oil to burn as fuel. The Oregon Oil and Gas Company had better get to work and clean out their oil well and get some profit out of their oil instead of letting it lay idle any longer.

Mr. Edysin, who bought the Vierhus place, and who is manager and salesman of the Swedish colony, has sold part of the land. These Swedish people are going to take part of Clackamas county. Well we reckon that the Swedes might as well take part of Clackamas county as any other kind of people. So sail in, Mr. Edysin, and settle all the Swedish people you can. Our egg and poultry man has come to life again, but this time he is one day late. This egg and chicken business has become quite a business in our burgh. Eggs, 35 cents per dozen, is quite a money-making business if you get any eggs, but the chicken business is quite a business all the year round, at this place, especially.

There is one manufacturing company here that is manufacturing the pear round and that is the Clear Creek Creamery Company. Mr. Smith has a sure thing as well as those who furnish cream for the creamery. Burkhardt & Company, of the roller mill at Barton, put up a building 16x16 feet for the storing of flour and mill feed, which is close by. L. Mumpower's residence of this place, and already there is quite a demand for such products. The next thing they want is a good grocery store here so we won't have to go to Portland or Oregon City when we are in need of groceries.

### WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

Among the railway announcements for the Oregon Electric extension, is the one given from Wilsonville to McMinnville, a distance of 23 miles. This will mean a great deal to Wilsonville and now with our fertile farming land, and river advantages, if our oil well turns out to a Lakeview Gusher, we

will have little left to ask for, as our cup of bounty for the year of 1912 seems to be overflowing so early in the year.
