GRAPHIC STORY

SENATOR SAYS PERFIDY OF BUSSE AND HOPKINS DE-FEATED YATES.

Statesman Explains Change of Vote By White-"We ex-Streetcar Conductors Stand Together," Says Witness,

WASHINGTON, Jan. 15.-Senator orimer, of Illinois, in his testimony today before the Senate investigating committee was dramatic in the extreme. He told the story of his life, not quite in the same way he told it in his speech in the Senate and with many homely details.

Blacking boots at the age of ten, he supported a widowed mother and five brothers and sisters; then a cash boy, a laborer wheeling coal, a house pain ter, a streetcar conductor and a build-ing contractor were the successive steps he detailed in his progress to his present position as President of a

a Constable to a seat in the United States Senate.

The man under fire was the coolest man in the room while he told the story. His voice was unshaken except when he spoke of his mothe two years dead. Then his eyes glist-ened and his words were a bit hoarse.

The political sensation of the day's testimony came when he declared that the faithlessness of ex-Mayor Busse, of Chicago and ex-Senator Albert J. Hopkins defeated ex-Governor Yates in the primary contest with Deneen, the present governor. He said Busse had promised to support Yates and pledged a campaign fund of 2,500, which he never paid.

"After that I was convinced that Hopkins had turned on his friends," Lorimer said, "and I treated him as I would treat any other man who tries to destroy my friends."

"Why did Charles A. White vote for you as Senator?" was one of the ques-

White is the ex-members of the Illinois Legislature whose alleged confession of bribery, published in a Chicago newspaper, formed the foundation of the inquiry into Senator Lorimer's

"He came to me and volunteered his vote," Senator Lorimer replied. "It was about ten days before my election tion. I didn't solicit his vote. He was streetcar conductor and I had been

OREGON METALLIC **OUTPUT DECLINES**

There has recently been a decline in metallic output of Oregon, and so

was more marked in 1911 than in 1910, total number of active mines shows little change, but some of the larger ones have become less productive.

Several gold dredges are to according to Charles G. Yale, of the Several gold dredges are in operation but the most productive was not worked for several months in 1911. The hydraulic mines are the most productive placers, and their number is greatest. The deep mines of the state are yielding larger quantities of milling ore than formerly, but the grade of ore worked has declined nearly onestate is small. Baker County is still the largest producer of gold. It includes the districts of Baker, Cornucopia, Cracker Creek, and Mormon Basin, and between 50 and 60 producing mines, about half of which are placers, though much the larger proportion of the gold is obtained from There are 12 counties in the state now producing gold. In southwestern Ore-

in northeastern Oregon the lode mines are much the most productive. According to preliminary figures prepared by the Director of the Mint, Oregon produced, in 1911, \$599,235 in gold and 69,116 fine ounces of silver, valued at \$38,014, against \$681,400 in gold and 43,800 ounces of silver, val-ued at \$23,600, in 1910.

larger quantities than the deep mines;
