JENNINGS LODGE.

The following report has been sent in by the teachers of our school. The Jennings Lodge has improved much during the last year. Last September have spent since last September for various improvements and equipments as electric lights, fixings and furnishings for the new school room and the new blackboards in both rooms. The people of the Community Club and of the Circle should consider their school as the first important thing to attract settlers and investors.

The grades in the school are possibly as good as those of the same grades in other schools. By law, the inspector, Mrs. Shaw, will call on the school every month and make note of the progress, order and deportment.

In February a Parent and Teachers' meeting will be held in Jennings Lodge conducted by Mrs. Shaw, and all patrons should attend. At this meeting papers will be read on topics of importance and all people will be welcome to ask questions or suggest improvements that they would like to see in the school. The date will be announced in the Enterprise and all parents will be asked to attend.

It is not enough to patronize the school by sending the children, but parents should visit the schools and see what is being done.

THOUSANDS GREET CARDINAL FARLEY

PRINCE OF CHURCH GIVEN ONE OF GREATEST OVATIONS IN HISTORY.

NEW YORK STREETS ARE THRONGED

Prelate Brings Message of Good Will and Praise From Pope to the American People.

NEW YORK, Jan. 17.—In one of the biggest demonstrations in the history of New York, Cardinal Farley was welcomed home today by 100,000 Catholics after a two months' visit to Rome, during which time he was made a prince of the church.

The steamer Berlin, on which Cardinal Farley arrived, was met at Hoboken by the steamer Rosedale, carrying 500 members of a reception committee headed by Justice Dowling of the state Supreme Court.

Every Catholic society in the archdiocese of New York was represented in the double line of cheering men and women which extended from the Battery to St. Patrick's cathedral. The men wore scarlet neckties and rosettes, and the women scarlet ribbons.

After the regular passengers on the Berlin had disembarked at Hoboken, the members of the committee, resplendent in silk hats and red ties, boarded the vessel and Cardinal Farley was transferred to the Rosedale, where luncheon was served, the prelate presiding.

The Rosedale then steamed to the Battery, where the procession was formed, the body of men and women marching to St. Patrick's cathedral, where Cardinal Farley addressed a large assemblage.

Cardinal Farley was drawn in an open carriage to the cathedral, escorted by a troop of mounted police and 150 automobiles, bearing members of the reception committee. Twelve hundred police lined the route.

As the cardinal was passing many persons dropped to their knees in the snow and received his blessing. At the cathedral he was received by eighteen papal knights of St. Gregory, each wearing jeweled crosses to signify their rank. Seven hundred priests participated in the service at the cathedral.

Cardinal Farley brought the following message to Americans from Pope Pius:

"I admire your hospitable land, where the people of all nations are welcomed and where liberty to all is assured. I pray continually for your land, realizing the great future it offers to each man knowing how to use his own liberty with regard to the liberty of his neighbors.

"America, I realize, knows what liberty is. I am fully alive concerning not only the future of the church, but of the land as well, and my earnest prayer is that its greatness shall continue."

Cardinal Farley declared that the Pope's physical condition was marvelous, his eye being as clear and bright as the morning. He also said that his own health was of the best and that he was glad to be back home.

Indigestion

causes heartburn, sour stomach, nervousness, nausea, impure blood, and more trouble than many different kinds of diseases. The food you eat ferments in your stomach, and the poisons it forms are absorbed into your whole system, causing many distressing symptoms. At the first sign of indigestion, try

Theford's Black-Draught

the old, reliable, vegetable liver powder, to quickly cleanse your system from these undesirable poisons.

Mrs. Riley Laramore, of Goodwater, Mo., says: "I suffered for years from dyspepsia and heartburn. Theford's Black-Draught, in small doses, cured my heartburn in a few days, and now I can eat without distress." Try it.

U. S. TELLS CUBA SHE MUST BEHAVE

GOMEZ ORDERED TO ENFORCE LAWS OR INTERVENTION WILL FOLLOW.

REPUBLICAN GOVERNMENT MENACED

President Taft Takes Firm Stand in Trouble Which is Now Blamed On Veterans in Service.

WASHINGTON, Jan. 16.—Notice was served on Cuba by the State Department today that the United States would intervene unless the veteran organizations of the republic ceased to nullify the laws guaranteeing a republican form of government in the island. The government's attitude was set forth in the following note, presented formally today to the Cuban government:

"The situation in Cuba, as now reported, causes grave concern to the government of the United States. That the laws intended to safeguard free republican government shall be enforced, and not defied, is obviously essential to the maintenance of law, order and stability indispensable to the status of the Republic of Cuba in the continued well-being of which the United States has always evinced and cannot escape a vital interest.

"The President of the United States therefore looks to the President and government of Cuba to prevent the threatened situation which would compel the government of the United States much against its desires, to consider what measures it must take in pursuance of the obligations of its relations to Cuba."

It was upon reports of Minister Beaupre that today's note was based. Minister Beaupre reported from Havana that in defiance of a decree issued by President Gomez, forbidding officers of the army and rural guards to participate in politics, many army officers and rurales attended a meeting Sunday night of the National Council of Veterans an organization of veterans of the Cuban War of Independence. Such participation also is prohibited by law.

The veterans have been active in the past three months in attempting to have displaced from the civil service persons who sympathized with the Spanish cause in the rebellion. The veterans today indicated that the veterans were threatening to coerce members of Congress to nullify the law regarding the participation of the military in politics.

TO ENCOURAGE VOTING. A bill providing reward for attendance at primaries and elections is to be proposed and considered by the Massachusetts Legislature.

The rewards appear in the shape of provisions that the poll tax for an alien shall be \$2 a year and for a citizen \$3, with a reduction of \$2 for each primary or election that the citizen attends, except that no tax shall be imposed if the citizen attends every primary and election. The bill makes disability a valid excuse for non-attendance.

There has long been a feeling that the poll tax operated as a deterrent and thus contributed indirectly to the success of fraud and corruption at the polls. The proposition to enact legislation for compulsory voting has encountered serious objection and now comes a plan of encouraging voting by offering a reward.

The operation of the plan, if it becomes a law, will be watched with interest throughout the country.

When a leaden bullet traverses cloth characteristic marks are left upon the projectile which are not obliterated by the subsequent passage of the bullet through flesh, provided that it does not strike a bone. BIG CROP CAUSES SMALL SPUD DEMAND

With January nearly half gone, the expected demand for potatoes has not yet materialized. The market remains about as near lifeless as in December, and dealers declared there was no assurance of any material improvement in the situation during the remainder of the month. Ordinarily, fair grade Burbanks, at shipping points, are sold to be worth 90c to \$1 a hundred, and fancy stock \$1 to \$1.10, but the Southern demand for the time amounts to so little that buyers say they are practically out of the market.

"The fact that the Oregon crop proved bigger than had been anticipated is one of the bear market factors at this time," said a dealer. "Another is the size of the California crop, which also exceeded expectations, and a third is the relatively small proportion of fancy stock in the 1911 Oregon output.

"Heavy rains late in the maturing season started new growth in the Oregon fields and made the output a far greater one than it would otherwise have been. At the same time, this belated growth made for irregularity in size and shape in the product, and in that way did positive harm. The result was an immense crop of more or less inferior potatoes and a comparatively small showing of superior stock.

"I really believe that the growers who have first-quality potatoes in their pits will not lose anything by holding them for a month or longer, for the Southern buyers will in all probability be in the market for that sort of stock soon or late, and pay fair prices for the product. Meantime, the problem of disposing of the inferior stock confronts the growers, but the chances are that the problem will solve itself within the next month or two.

"There is no use trying to sell in a market short of buyers, and that is the kind of a market we have just now. I believe the situation will mend somewhat all around a little later and taking that view it is probably just as well that the farmers hold off for a few weeks, until the outlook in the South shows some improvement."
