To guard against a possible epidemic of typhoid fever among the employes, W. P. Hawley, president of the Hawley Pulp & Paper Company, Monday decided to have all the mill workers innoculated with the antityphoid serum, which has proved so efficient in the United States Army. The company has between 250 and 300 employes and it will take more so he made many friends. He was a than a month to innoculate all of Mr. Hawley has made a the World, Falls Encampment, Oregon thorough investigation of the merits of the preventative and he is of the opinion that it is even far more efficacious than vaccination for the prevention of smallpox. This will be the first trial of the new serum in the West, and probably the first in the United States among factory workers.

Dr. M. C. Strickland, who took a post-graduate course at the Post-Graduate College in New York last summer, and made a special study of the typhoid serum and its use, has been engaged to innoculate the mill riving there before his father died, would be given three innoculations. That to be used was received from New York Monday, and Dr. Strickland will begin the work of innoculating the factory

employes today. "We believe that the typhoid seruin is more effective in preventing the disease than the anti-toxin is in preventing diptheria," said the physician. "Out of more than 10,000 troops who were innoculated in Texas not one contracted typhoid. The innoculation makes the patient immune for at east five years, and possibly for life."
