**Y**OU have seen the big pretentious, showy cars clattering noisily up the hill on the low gear, like taking a big freight elevator to the sixteenth floor---the idea has gone out of date. Henry Ford exploded it long ago. He brought out cars of ample size, but built the bodies as well as other parts, light in weight, and put in motors of ample power. Now Ford cars are the greyhounds of the road. They take hills on the high gear. They are noiseless and vibrationless. Easy to run and inexpensive to operate

Visit the Ford exhibition at our garage at the corner of Fourth and Main Streets, and a moment's inspection of the Ford Car will convince the most skeptical that it is the car that will do all its maker claims.

### DEMAND FOR HOPS SHOWS DECREASE

The hop market appears to be on the decline. Since the first of the current month, outside of transactions between dealers there has been very little business in the Oregon market, and that little for the most part has been at prices under the top quotations of the past two months. The demand in the East has fallen off in no uncertain way, indicating that many of the brewers at least have hopes enough to run them to the end of the season.

In some quarters now 40 cents is believed to fairly represent the market on Oregon goods, and sales between dealers at a fraction under that figure have been reported this week. A fact that in this connection is taken to mean much is that the dealers are now more or less generally on the selling side, indicating, in their minds at least, that the height of the season has been passed and that the market from this time on will gradually gravitate to the 1912 basis.

It is not believed, however, that there is any danger of the market going in any disastrous way in the near future. The comparative strength of the contract as assurance that hop values during the coming twelve months will hold at a relatively high figure. For the coming crop in this state it is said that contracts at 25 to 26 1/2 cents are readily obtainable, and for three-year contracts 15 to 19 cents have been rather freely offered for some weeks. To date the growers in this state have shown little disposition to sell ahead.

In California a good deal of contract business is said to have already been put through, as high as 27 1/2 cents having been paid in some instances for the coming crop. The few growers in Oregon who have 1911s yet on hand are still holding more or less firmly for better figures than are now being offered, but for several days practically no trade in the country has been reported.

### ROOSEVELT WILL RUN IF 'DRAFTED'

REPORT FROM NEW YORK THAT PROGRESSIVES WILL NAME HIM.

#### LEADERS HAVE ALL DAY MEETING

Ex-President in Constant communication With Them—La Follette Will Not Quit.

NEW YORK, Feb. 7.—Theodore Roosevelt's candidacy for the Republican presidential nomination is to be announced soon, it is said today.

Definite statement that the former president is in the race will come, not from Roosevelt himself but from the progressive leaders who up to now have been supporting Senator La Follette of Wisconsin. The formal announcement probably will be signed by George Record, of New Jersey; Clifford and Amos Pinchot, former United States Senator Beveridge of Indiana, Medill McCormick of Chicago, and possibly by Governor Hiram Johnson of California.

All of these leaders held a series of conferences here today, during which they were in constant communication with Colonel Roosevelt and though the conferees would not talk of what was done, it is understood that Roosevelt has agreed to run, "if drafted."

It is stated by those "in the know" that Roosevelt will make no public and personal announcement of his candidacy in the near future, but that he is likely to make such a public statement outlining his principles as was demanded by Senator La Follette.

What the Wisconsin senator will do in the event of Roosevelt putting himself squarely on record as regards progressive policies is also shrouded in mystery as yet.

It is believed, however, that La Follette, angered by the defection of some of his former supporters, will decline to withdraw from the presidential race, and will carry the fight for the nomination to the floor of the Chicago convention.

### 'T'WILL BE TAFT AND BRYAN, SAYS HOCH

EUGENE, Or., Feb. 3.—"Taft will be the Republican nominee, and Bryan Democracy's candidate," declared ex-Governor Hoch, of Kansas, talking with a group of ex-Kansans here today, prior to addressing a Lyceum course tonight.

"If Roosevelt were out of the game, LaFollette would have a fighting chance, I believe, but since these men hate each other as they do, there is no chance for their getting together and Taft will be the convention's choice."

The ex-Governors picking of Bryan was rather unexpected, but he gave his reasons, saying:

"Bryan is going to stampe the Baltimore convention. With Wilson and Harmon and Folk or Clark in the running, it will be absolutely impossible for the convention to nominate on the first ballot, and Bryan will be the solution of the deadlock."

Mr. Hoch, while being in sympathy with Wilson, believes the New Jersey man has injured his cause by the disagreement with Colonel Harvey.

#### The Shah's Advice to Catherine I.

A Shah of Persia not only congratulated Catherine I. on her accession to the throne of Russia, but offered her majesty earnest paternal advice. He sincerely hoped, he said, that she would not give way to drink, and he held up his own case as a horrible example of the truth of the temperance gospel which he preached. His eyes, he wrote, were like rubies, his nose was like a carbuncle, and his body was like a barrel as the result of the self-indulgent habits which he had acquired in his youth and could not shake off in his old age. But the empress, who liked her glass, was not, even with that warning before her, persuaded to become a teetotaler.

#### Reassuring a Visitor.

"I don't see why you didn't want me to say anything about Miss Mixley's age, mamma," said Tommy, looking at the guest. "She doesn't look nearly so old as grandpa—ouch! Who's that a-pinchin' me on the leg?"

But there's no need to feel like that as T. D. Peckles, Henry, Tenn., proved. "Six bottles of Electric Bitters," he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. It's folly to suffer when this great remedy will help you from the first dose. Try it. Only 50 cents at all druggists.

### DECLINE OF 10 CENTS IN PRICE OF SPUDS

There is a decline of 10c per cent being quoted in the buying price of potatoes in Portland following a similar movement of values in the southwest.

As Arizona and Texas have been taking the bulk of the potato shipments from this section, the dropping of a dime in the quotations there recently had a quick response from buyers, as nearly everyone was paying the limit here.

The best price available for ordinary shipping stock is \$1 per cental while a short time ago as high as \$1.10 was paid. The average for this class of stock is 95c per cental f. o. b. country shipping points.

Dealers are not willing to offer more than \$1.20 for an extra fancy good and \$1.15 is now the average bid for this class of stuff. However, growers were in no mood to sell recently at \$1.25.

There is again a fair movement of seed potatoes toward the south.

### PRICE OF OATS UP FIFTY CENTS TON

The price of oats is showing a further advance of 50c a ton in the Portland market. Buyers are now eagerly bidding as high as \$22.50 per ton for No. 1 white based upon track delivery.

Very few oats are being offered and these are in strong hands. Leading buyers are making every possible effort to land supplies, but the movement is restricted because growers are asking more money.

Wheat market is steady, but the tone is not as strong as a few days ago. Foreign markets continue to react and there is practically nothing doing in an export way. Millers continue leading buyers of wheat at this time.

No new business of importance is noted in the export flour trade, orders being few and of small volume. Only deferred delivery is possible at all.

Hay market is weaker with prices generally 50c a ton lower.

### SUPPLY OF CATTLE GREATER THAN DEMAND

The Portland Union Stock Yards Company reports as follows: Receipts for the past week have been as follows: Cattle, 1780; Calves, 118; hogs, 1993; sheep, 2839; horses and mules, 20.

The cattle market continues weak with more offering than the buyers care to handle. This depression is no doubt due to the fact that trade in dressed beef is very light as compared to former seasons, as well as the heavy runs we have had for the last month. Although the quality of cattle was exceptionally good the market was badly demoralized and prices fell off at least 15c from last week's quotations. Best steers are selling around \$5.50 to \$5.95, cows from \$4.75 to \$5 for the very best grades. Bulls and stags are weak at \$4 to \$4.25 for the best. A very drab market in the cattle division has characterized this week's trade.

The hog market has stiffened up somewhat, the run for the week was comparatively light and buyers showed a disposition to take hold of what was offered. Market closed strong for the week at \$6.70, and advance over last week's quotations.

Demand for mutton continues good and all sheep arriving on the market this week found ready sale at prices previously quoted. Week closed steady to strong with lambs selling around 5c, wethers \$4.75 to \$4.85, best ewes \$4 to \$4.25.

Following sales are representative of this week's trading:

### ONE CENT DECLINE IN PRICE OF EGGS

There was a drop of 1c a dozen in the price of eggs along Front street, Portland, Wednesday.

While an occasional dealer might have possibly "held some one up" for 31c, providing he was a small buyer, general sales were made at 30c a dozen.

As a rule eggs are being sold along Front street at this time uncancelled. The quality is extremely good and for that reason candling is not only unnecessary, but expensive to both buyer and seller.

Receipts of eggs along the street were very heavy and on this account the market softened quickly. Outside markets are again softer and the trade in Montana and the north, which formerly went to this city, is going to California interests owing to the lower price available there.

Present receipts of eggs would indicate a very heavy increasing in the production. The outlook therefore for the immediate future is for lower prices, although weather conditions may affect the market one way or the other for awhile.

Prevailing Oregon City prices are as follows: DRIED FRUITS—(Buying)—Prunes on basis of 6 1/4 pounds for 45-50's. Fruits, Vegetables.

EGGS—Oregon ranch eggs, 25c to 27c. SACK VEGETABLES—Carrots, \$1.25 to \$1.50 per sack; parsnips, \$1.25 to \$1.50; turnips, \$1.25 to \$1.50; beets, \$1.50.
