### DARING AVIATOR SAYS HE WILL MAKE VOYAGE IN THIRTY HOURS.

## LINERS EXPECTED TO GIVE HIM AID

Birdman Will Use Big Machine And Will Be Accompanied By Navigator And Mechanic.

LYNN, Mass., Feb. 19.—"Believing that I can best prove that the aeroplane may come to stay by making a flight across the Atlantic, I shall attempt such a trip in the part of May," said Harry N. Atwood today. "I believe I have a machine that will accomplish this feat in thirty hours, with but one stop, under favorable conditions."

Atwood confessed that the machine would probably be larger than any previously flown in this country. He said he would carry sufficient gasoline to make a 900-mile continuous flight and when he found his fuel getting low would make a landing near some ocean liner. He declares that there will be about twenty lines on the ocean at that season of the year and it will be an easy matter to pick up one of them.

Two men will accompany him on the flight, one mechanic and the other man acquainted with the sea who will be able to show him how best to ride out a gale if one should be encountered.

Plans for an improved type of hydro-aeroplane which he will use have been completed and work of building is said to have begun.

A life-boat will be the only baggage, except for a small supply of food.

# AGENTS TO SETTLE WITH CONSIGNEES

SAN FRANCISCO, Feb. 16.—(Special.)—For the purpose of expediting business and getting closer to its customers through its local representatives, the Southern Pacific Company has issued orders to many of its agents at the principal stations along the route giving them authority to settle direct with consignees on ordinary loss and damage claims.

At the present time the authority is extended only to certain agents in the more thickly settled territory. Claims for shortage and damage over which there is no dispute and which do not exceed a given amount can now be settled within a day or so after they have been filed with the agent.

Much correspondence is saved and the delay that formerly resulted while the claims were being gone over in the general offices of the company in San Francisco is now eliminated. This move is only one of a number recently inaugurated by the Southern Pacific Company.

The indictment charges Ryan, Herbert Hockin, of Detroit; Michael J. Young, of Boston; John T. Butler, of Buffalo; and Frank C. Webb, of New York, with conducting the conspiracy through the mail, and names all fifty-four defendants as abettors.

# PUBLIC BUILDING BILL IS FAVORED

Postmaster Randall received the following telegram from Senator Jonathan Bourne, Jr. Friday: "Committee on Public Buildings and Grounds authorized me today to favorably report Senator Chamberlain's bill for purchase of site and erection of public building at Oregon City."

The bill of Senator Chamberlain provides for the construction of a federal building here to cost \$100,000. The bill introduced by Senator Bourne providing for an appropriation of \$75,000 for a public building here, has evidently been dropped. Postmaster Randall said that he believed the telegram of Senator Bourne indicated the money would soon be available for the erection of the building. Several sites are being considered for the structure.

# OUTLOOK EXPLAINS T. R.'S POSITION

ROOSEVELT IN FAMOUS STATEMENT DID NOT MEAN HE HAD QUIT.

## COLONEL JUST WANTED GOOD REST

New Issues May Revive Taste For "Coffee"—Secretary of Magazine Calls Article "Authorized."

NEW YORK, Feb. 16.—Colonel Roosevelt's remark, spoken on March 8, 1907, and repeated on December 11, 1907, that under no circumstances would he be a candidate for or accept another nomination, did not mean quite that. The Outlook in its current issue says so in effect; and since his return from Africa, the Outlook has been recognized as the official mouthpiece of the Colonel.

What the Colonel did mean, according to the Outlook's editorially expressed opinion, was something like this: "Under no circumstances will I be a candidate for or accept another nomination unless I am allowed to become a private citizen for a while, so I can't see the patronage of my office as President to get votes for myself."

When an attempt was made tonight to find out whether the editorial in the current issue of the periodical of which Roosevelt is an editor was authorized by the Colonel and semi-official in its nature the best that could be learned from Karl V. S. Howland, secretary of the Outlook Company, was that the views expressed in the editorial were the views of the Outlook.

The Outlook's editorial uses this illustration: "When a man says at breakfast in the morning, 'No, thank you, I will not take any more coffee,' it does not mean that he will not take any more coffee tomorrow morning or next week or next month or next year."

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

## WATER IN MISSOURI MENACES

Three Men Narrowly Escape Death When Tug Is Wrecked—Thaw Is Expected Today.

ST. LOUIS, Feb. 21.—Sixteen inches of snow, driven by a 40-mile wind, with a minimum temperature of 24 degrees, were features of a storm which swept eastern Missouri, Southern Illinois and Western Kentucky today.

The wind drifted the snow to a depth of several feet, hampering traffic on all transportation lines. Street-car and railroad traffic at Taylorville, Ill., are at a standstill.

Baltimore & Ohio passenger train No. 125, which left here at 9:30 p. m., has been stalled in a drift since 1 a. m., five miles west of the city. The passengers have no food, but are making themselves as comfortable as possible and are keeping warm, as the train carries plenty of coal.

Passenger train No. 1, on the Chicago & Illinois Midland, has been snowbound all day at Kincaid, six miles west of Taylorville. A relief train sent out from Taylorville failed to reach the passenger train and it, too, is snowbound.

There was a break in the ice gorge in the Missouri River at Kansas City, causing a rush of heavy flows down the Missouri River, sinking the tug Omaha and caving in the sides of a large barge. Three river men narrowly escaped death when the tug was sunk. Colder weather north of Kansas City is believed to have lessened the danger to boats moored in the river.

Unless there is a further rise in the river there sending more ice against the piers of the James street bridge, closed to traffic two days ago it is believed the structure will stand. The weather bureau predicts warmer weather for Kansas tomorrow and if a thaw comes higher water is certain.

## Some Queer Definitions.

In the Bailey dictionary of 1674 the word "colubus" is defined as follows: "Colubus a humming bird, which makes a noise like a whirlwind, though it is no bigger than a fly. It feeds on dew, has an admirable variety of feathers and a scent as sweet as musk."

The same authority thus describes the loriot, or oriole: "Loriot—a bird that being looked upon by one that has yellow jaundice cures the person and dies itself."

Delpon's dictionary (1703) says of the leopard: "Leopard, or leopard—a yellow beast, exceedingly swift, subtle and fierce and of such a sweet savor that it allures other beasts to it, and so they are caught and devoured."
