

A BLOOD MEDICINE WITHOUT ALCOHOL.

Recently it has been definitely proven by experiments on animals that alcohol lowers the general vitality of the body and that alcoholism is the white corpuscles of the blood and renders them unable to take up and destroy disease germs. Disease germs cause the death of over one-half of the human race.

A blood medicine, made entirely without alcohol, which is a pure glyceric extract of roots, such as Bloodroot, Queen's root, Golden Seal root, Mandrake and Stone root, has been extensively sold by druggists for the past forty years as Dr. Pierce's Golden Medical Discovery. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which drives life to the blood—the vital force of the body brightens and their increased activity consumes the tissue rubbish which has accumulated during the winter.

Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an ALTERNATIVE EXTRACT of roots, without a particle of alcohol or narcotic.

"It is with the greatest pleasure, that I write to let you know of the great benefit I received from the use of your medicine. I suffered for three years from a running sore. Consulted four doctors but they failed to cure or give relief. Finally I was told I was in consumption and would have to consult a specialist concerning my ear, that the head must be cut out and the wound would heal. A kind friend advised me to write to Dr. Pierce, which I did, and after seven months' use of the treatment the sore is healed, and I enjoy better health than I did. I do not doubt the value of Dr. Pierce's Golden Medical Discovery, and I shall always recommend your medicine."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.
