Store,

The selebrated Dr. Abernethy of London was firmly of the opinion that disor-ders of the stomach were the most prolific source of human silments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body """." He continues, "so we may be said to live (through) the stomach." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breast-home," writes Miss. G. M. MURAXN, of Corona, Calif. "Had suffered from it, off and on, for sev-eral years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it hande me worse. When-ever I swallowed anything it seemed that I would faint-it hurt so. I grew very thin and weak from not eating. Was told to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat a little without pain and grew strong fast. To-day I am strong and well and can do a big day's work with ease. Can eat everything and have put on fiesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."
