## 250 MEN TO BENEFIT BY REWARD SYSTEM

The management of the Willamette Pulp & Paper Company after experimenting with the reward system the past six months has decided to extend it to other departments, the results being gratifying to employees and employer. The departments now reached are the wood, sulphite and pulp mills, a total of 250 additional employees to in effect receive advances in wages of from 5 per cent to 15 per cent according to their own unpaid and collective effort. Considering that the company's pay roll reaches the half million mark annually, an advance of this kind amounts to many thousands of dollars, at the same time this is made possible only by the greater production of the mills through this plan of cooperation, for under the present system each employee in effect works for himself.
