

COUNCIL TO VOTE ON DOCK AND LIFT

ORDINANCE FOR IMPROVEMENTS WILL BE PRESENTED AT NEXT MEETING

PLAYGROUND SITE IS INCLUDED

Proposition To Change Grade Of Fourth Street As Reported By Engineer Is Adopted

At a meeting of the city council Monday evening it was decided that an ordinance providing for an election to vote upon a proposition to provide an elevator at the bluff, a public dock and a public playground should be introduced at the next meeting.

The ordinance will provide an appropriation of \$15,000. It is planned to have these questions voted upon at the election called for passing upon the charter as amended by the charter commission, which will be held July 8. It was announced that the proposed playground was also intended for a fair ground, and a place for holding the usual outdoor entertainments of a city.

B. T. McFall, President of the Commercial Club, and Councilman Toose explained the plans that had been adopted. It also was decided to change the ordinance providing for a site for the Carnegie Library in Seventh Street Park so as to place the building in the center of the park instead of twenty feet from Seventh Street. The ordinance was given its first reading.

Councilman Hall requested the placing of a drinking fountain at Mountain View, for the benefit of persons visiting the cemetery. The suggestion will be acted upon at the next meeting.

A committee consisting of Charles C. Spencer, S. Stevens and William Hedges, of Canemah, reported the result of the conference regarding the raising of the Canemah wall. Mayor Dimick and Recorder Stipp will meet with the committee tomorrow afternoon to formulate a plan to force the Portland Railway, Light & Power Company to complete the work the coming summer.

It was decided that the grade recommended by the engineer on Fourth Street be changed. It will be lowered one foot at High Street, and changed in front of the property of O. D. Eber between Madison and Monroe Streets.

Messrs. White, Randall, and Hittner were appointed a committee to appraise the property on Fourteenth Street, residents having objected to assessments for street improvement. A motion instructing the engineer to provide plans and specifications for the improvement of John Quincy Adams Street from Eighth to Fourteenth Streets was passed.

The recorder was instructed to have three lights the locations for which had been agreed upon by the street committee installed as soon as possible.

A resolution introduced by Councilman Toose inviting the state Sunday School association to hold its convention in Oregon City was adopted.

LAFFERTY'S VICTORY RESULT OF TRICKERY

PORTLAND, April 22, (Special).—How A. W. Lafferty managed to secure the Republican nomination for Congress in the Third district is now revealed. Lafferty's personal enemies of Judge C. U. Gantenben and big corporations turned the trick which gave Lafferty the nomination. Gantenben was made the victim of circumstances.

Returns show that Lafferty leads Gantenben by approximately 1000 votes. Clyde ran third and Shepherd is last. In the final November Lafferty will be opposed by M. G. Munley, the Democratic nominee.

George S. Shepherd was used to defeat Gantenben for the Congressional nomination. The railroads and several prominent and wealthy business men threw their votes and money to build up the Shepherd vote, calculating that aside from the Socialist vote, all the support given to Shepherd would draw from Gantenben. The move was not made with a view to nominating Lafferty so much as to defeat Gantenben.

SUBMARINE HELD AT BOTTOM OF OCEAN

SAN FRANCISCO, April 18.—Eight members of the crew of the submarine Carp drank champagne on the bottom of the ocean yesterday and then won a toss with death. A cable caught in a hawse pipe, had imprisoned them for an hour and a half at a depth of 200 feet, farther under the waves than a diving vessel ever had gone before.

The crew of the barge overhead saw a long fish nose shoot 100 feet into the air then the submarine righted itself on the surface. The men were bruised but not seriously hurt. The submarine was drawn under the water by a cable attached to a 10-ton weight at the bottom of the bay. In a special Government test to determine the pressure resisting power of the divers at great depth. The Carp windlass was used in drawing the craft down, another cable having been left on the weight when it was lowered from the barge.

The men had orders to remain at the bottom ten minutes. Champagne and sandwiches had been provided and the men drank a last glass, before reversing the windlass to go to the surface. The windlass would not work, but this contingency had been provided for by a device to cut the cable. The cable was cut, but in the meantime the other cable had realized that the other cable had caught in the hawse pipe.

GAMBLING ON BALL GAMES TO BE BARRED

PORTLAND, April 22, (Special).—All gambling on baseball games is prohibited by an ordinance drafted this morning by City Attorney Grant at the request of a number of ardent supporters of the National game, and recommended for passage to the Council.

Not only does the measure clamp the lid on betting on games played in this city, but on betting here on all baseball games wherever played. The principals in the betting are not only held responsible but the ordinance specifies also that any stakeholder or bookmaker for betting on ball games is liable to arrest and prosecution.

Recently several baseball fans interviewed the city attorney and informed him that it was a notorious fact that there was much betting in this city on baseball. They said they took a deep interest in the game and feared that unless some check was placed on the gambling over the results of contests that it would make the game unpopular and in the end deprive the sport of support of the true lovers of the game. He promised that he would prepare an ordinance and present it to the Council, and it will go before that body on Wednesday.

In his communication to the Council the City Attorney said he was certain that the ordinance would meet with vigorous opposition from gamblers and other who bet on ball games, but that on the other hand it would receive the hearty support of all true lovers of the game and meet with the approval of the players.

There is a state anti-gambling law, but it is general and in several instances where efforts have been made to punish those who bet on baseball games, the accused were successful in escaping punishment. The ordinance drafted is specific in its reference to baseball games, and it is said, will stand the test in the courts.

Violation of the ordinance is made punishable by a fine of not less than \$10 or more than \$200, or by imprisonment in the city jail of not less than five or more than 100 days.

POTATO MARKET IS LOWER IN SOUTH

Potato market prices are again lower in the south. A few small purchases were reported in the country by local interests during the past 24 hours on the basis of \$1.25 @ \$1.35 per cental for extra choice, which would not mean above \$1.40 for best offerings. Under this condition it might be possible to squeeze \$1.50 for some extra select seed, but dealers as a rule were not inclined to look with favor upon such a high figure.

New potatoes are selling in California as low as 20c a pound, therefore the outlook for old stock is more discouraging there than for some time. While San Francisco continues to quote nominally from \$1.75 to \$2.75 for Burbanks, it is known positively that this price is not being received as actual returns show. A similar condition exists at Los Angeles, where it is stated that Zuckerman, known as the representative of George Shima, the so-called Japanese potato king, has been selling Burbanks down to \$2 per cental.

New potatoes are quoted nominally at \$3.50 @ \$4.00 per cental.

CATTLE MARKET IS STRONG AND ACTIVE

The Portland Union Stock Yards Company reports as follows: Receipts for the week were 1713 cattle; 71 calves; 1932 hogs; 2313 sheep and 12 horses.

The cattle market was strong to higher all along the line. There was an active demand for everything that was offered and as high prices would have prevailed had the receipts been larger. Calves sold as high as \$75 which is a high price on any market.

The hog market was steady to strong around \$8.40. One sale was made at \$8.50 but the general price was around \$8.40. The market was lightly supplied and more than double the number of hogs that were offered could have been sold at the prices mentioned.

The sheep market was strong to higher. Lambs at \$7.35 and wethers at \$6.35 indicate the strength of the market.

WOOL GROWERS HOLD ON FOR HIGH PRICE

With foreign markets for wool the highest ever known and with less stock in America than for many years, the situation in the woolen trade is mixed. The apparent lack of interest that the big buyers are showing in the trade is evidently an actuated for the sole purpose of influencing quotations downward.

That some weeks ago less than 20,000,000 pounds of old wool were available in the United States has been the assertion of an official of the National Wool Growers' association, who seemingly was in a position, as good as any, to know where the stock was held.

On every hand the various interests are apart in their views. There is determination on the part of leading buyers in the east to check any possible advance even at the cost of being forced to pay more for their supplies by waiting. On the other hand growers are showing grim determination not to let go until they secure better values. Each side claims to be well fortified, but growers are seemingly in a position where they can force any reasonable price.

There is not enough wool for manufacturers to hold back their purchases for any great length of time as early orders would be filled.
