John F. Albright and Nick Story pleaded guilty to fishing with nets out of season Friday afternoon and were fined \$50 each by Circuit Judge Campbell, Meares, Albright and Story said they fished to test the law. Judge Campbell held that the Fish and Game Commission had the right to close the streams of the state. The defendants will have to pay the costs.

The following letter signed by R. Sandstrom and A. S. Noonling, deputy fish wardens, who arrested Albright and Story was received by the Morning Enterprise Friday:

"In answer to the communication of one who signs himself as 'One who fishes in Daytime,' published by another paper, we beg to say that we knew the case against Mr. Albright and Mr. Story was a test case. This we knew originally and we were confirmed in that by the manner in which the defendants acted at the time they were arrested when they had plenty of time to avoid us and get away, immediately upon our reaching the net, said to us, in effect: 'You need not come to us, we will go with you.'"

"In addition to the above, when the propeller of our launch became fast in their net, they assisted us by towing us to the sand bar and helped us to disentangle the net and propeller.

"The reference at the bottom of the article is so absurd that we feel that we may properly ignore the illustration."

COUPLE MARRIED 60 YEARS CELEBRATE

An event of unusual interest was the celebration of the sixtieth wedding anniversary of Mr. and Mrs. S. B. Johnson at their home at Gresham May 4. Guests began arriving early. Soon the commodious home was filled with children, grandchildren, nieces and friends.

In the archway of the double parlors, the venerable couple repeated the marriage vows made in 1852 and were again pronounced man and wife by Rev. H. L. Sinclair editor of the Gresham Outlook. A biographical sketch of Mr. and Mrs. Johnson was read by one of the guests, and after congratulations and best wishes the company, led by the aged couple repaired to the dining room where a sumptuous banquet was partaken of. A number of those present on this occasion were also in attendance at their golden wedding Anniversary celebrated at their home May 4, 1902.

During the day Miss Maud Campbell and Mr. and Mrs. Ben Campbell of Portland, entertained those present with instrumental and vocal music. Presents of cut glass, silver, etc. were presented Mr. and Mrs. Johnson.

Those in attendance were: Mr. and Mrs. S. B. Johnson, Gresham; W. H. Johnson, Portland; E. R. Johnson and wife, Portland; Mr. and Mrs. E. E. Pinkley, Boring; Mr. and Mrs. J. C. Cooke, Oregon City; J. R. Morton, Portland; Charles Dohlgast, Jr., Boring; W. Dohlgast, Gresham; Ben Campbell and wife, Portland; Miss Maud Campbell, Portland; Mrs. Maud Johnson, McMinnville; Mr. and Mrs. Henry Cooke, Oregon City; Mrs. Mary Kesterson, Gresham; Mr. and Mrs. D. Creighton, Portland; Mr. and Mrs. Lindquist and son, Marion, Gresham; Mr. and Mrs. M. D. Kern, Gresham; Mr. and Mrs. A. W. Cooke, Clackamas; Miss Lucie Johnson, Gresham; Miss Laura Davis, Gresham; Miss Grace Lawrence, Gresham; Miss Hope Anderson, Gresham; H. L. Sinclair, Gresham.

The following biography will be of interest to the many friends and acquaintances in this county, of this estimable couple.

"From many standpoints the life and work of S. B. Johnson, once a large land owner of Clackamas County is worthy of emulation as illustrating that which may be accomplished by perseverance in the face of little encouragement and practically no material assistance.

"Mr. Johnson, who is well versed in the pioneer undertakings of this county was born in Howard county, Mo., Feb. 5, 1833, his father's farm being near Boonslick. The family was established in Missouri by Josiah Johnson, the father of S. B. Johnson, who emigrated from Patrick County, Va., in 1832 and in 1840 moved to Polk county, the same year. Three years later he settled in Cedar county, Missouri, and after farming for three years, moved to Jackson county in 1845. Seven years later May 4, 1852, the son S. B. Johnson started across the plains, terminating his journey in Clackamas County. He was married on the day of his departure from Missouri for his new home in the far west.

"He had five yokes of oxen with which to complete the journey; he came out at the mouth of the Sandy river and located on the Clackamas at what is now Oregon City. During the winter he stayed in the town and in 1853 went up the Clackamas and worked in a sawmill for a few months. A little later he located on a donation claim of three hundred and twenty acres one mile west of Damascus, and after a year's trial sold out and located on a farm of three hundred and twenty acres, one and a half miles northwest of Damascus.

"Of this property fifty acres are in cultivation and the improvements made thereon are of the most modern kind. He erected a large sawmill making a specialty of the manufacture of ship-knees which he sold in Portland, Oregon.

"Later he sold his sawmill and his beautiful home and moved to Gresham where he has built a large and commodious residence and where he expects to reside the remainder of his life. To some extent Mr. Johnson has left his home interest to mingle with the undertakings incident to so prosperous a County.

"A Democrat in politics, his sympathies are with the common people, and with those who struggle with adverse conditions. He is the friend of education having materially promoted the cause as a member of the school board.

"Mrs. Johnson who was born in Jackson County, Mo., has courageously borne the trials and deprivations incident to pioneer life. She is the mother of nine children, Mary Jane, Charles F., Ellen, Dora, Earl and John H., deceased. The surviving children are Mrs. Heister Pinkley, William H. and Edward R. Johnson.

"Platted Farm Will Be Big Molalla Aid

George H. Gregory has platted his twenty-three acre farm adjoining Molalla, into lots 50 by 120 feet each. The corner lot will be the location of the new bank and a nice new banking house will be erected. The Methodist church adjoins this property. The Post Office, Public School and Grange Hall are immediately across the road, and north of the tract.

This is the finest property adjoining Molalla, and Mr. Gregory has made it possible for the town to grow. When the Clackamas Southern Railway is completed, which will be before the first of October, Molalla will be the principal distributing point in the interior and within two years Molalla will have a population of at least 2,000.

Mr. Gregory has always been progressive, and by plating his land so that Molalla can grow, shows his faith in that progressive community.

CONTEST CLOSE TO BE EXCITING

SEVERAL MEN CANDIDATES ARE DETERMINED TO OVERTAKE MISS McCORD

CONFIDENCE IS EXPRESSED BY ALL

Entrants Should Not Forget That in Working Hard For Auto Second Prize Will Be Easily Won

The contest manager was reliably informed Wednesday that all the candidates in the Morning and Weekly Enterprise automobile contest, which will soon come to a close, were doing their best to land the Ford touring car, offered as first prize. While Miss McCord still leads in the list published in this column there is considerable doubt as to whether she is in reality the leader, for it is known that several of the contestants are holding in reserve many blocks of ballots. This, however, is their affair, and their plan of campaign. If they win by strategy it will prove that they excel in ingenuity, which is something not despised in this age, when men succeed by matching wits.

The Enterprise contest is a beautiful one. With only one girl candidate, and that one so far as is definitely known in the lead, it is not believed that the men, chivalrous as they are known to be, will let her win without a struggle. Chivalry, of course is one of the finest attributes of manhood, but in this age when the women are competing with the men in every walk of life, it would be absurd for the men in the automobile contest, to give up and say, "Well let the girl have it." And she is not the kind of a young woman who expects such consideration. In fact the contest manager finds Miss McCord to be possessed of the real fighting spirit—of the good natured kind of course—and she would hesitate before accepting even such a valuable prize as an automobile without working hard for it. But she realizes the race will be to the finish, and she is doing her best. What she is endeavoring to do is to get such a lead that it will be impossible for any of the others to overtake her, realizing all the time that her position is far from secure. So if any of the other candidates think, and the contest manager knows they do not, that they will rest on her laurels the few remaining weeks of the contest they are badly mistaken. However, it is a fact that she has made a thorough canvass, has obtained aid from virtually all her friends, while several of the others have not. If such is the case it will be much easier for them to obtain votes in future than she.

Then, too, someone will get the second prize—\$100 in gold—and even if you lose the car this prize will more than repay you for your work. There isn't much time left, so it behooves all the candidates to do their best from now on, and the contest manager is confident that they will.

GEORGE C. BROWNELL TO GIVE AWAY SEED

George C. Brownell, ex-mayor and ex-senator, who is famous for his generosity, has a big supply of flower seed which he will give away. The seed was sent Mr. Brownell by the government, and he is anxious that it be used to the best advantage.

"Tell the readers of the Morning Enterprise," said Senator Brownell, "that I have the seed, but please say that I must be careful in the distribution. That the seed is the best obtainable there is no question, for the United States never gives away anything that is inferior, but I must live up to the rules that accompanied the big express package. As I said before I must be careful in the distribution. However, I want the flower loving people of this city to call at my office tomorrow and receive some of the seed."

RICH VEIN OF COAL DISCOVERED IN CITY

While workmen were excavating on the Farr property on Seventh and Monroe Streets a few days ago a vein of coal was unearthed. Experts who have examined a sample pronounced it good. OGLE GOLD MINES TO BE INSPECTED

John Fairclough, president, and John Scott, one of the directors of the Ogle Mountain Mining Company, and several of their friends who are interested in the proposition left for the Ogle Mines Thursday. The development of the mines has proved that there is gold and other valuable metals there in large quantities, but that a smelter will have to be provided to separate the metals from the ore. Money for the installation of a smelting plant will be raised in the near future. The mines promise to yield large returns.

The water will be pumped from a well on the Clackamas river into a reservoir, near Chautauqua Park, to have a capacity of 300,000 gallons. The pump house will be constructed of reinforced concrete and will be 14x23 feet. The well, which will be of brick with concrete facing, will also be constructed for within a few days. It will be arranged so that the water will be allowed to pass through gravel for filtration.

The line man also received a shock but it was not serious and he was able to assist Mr. Lazelle.
