#### -----WHEN DONOVAN AND ZEIDER DISCUSSED NASAL ORGANS.

Bill Donovan of the Detroit Tigers and Rolly Zeider of the Chicago Americana possess noses that are larger than or dinary. Neither is sensitive, and during the season each usually indulges in a lot of arguments over the relative size of the other's nasai organ.

During a game between the Tigers and the White Sox inst year Bill and Rolly were doing the coaching for their clubs. Donovan is far above the average in the use of the English innguage as far as its witty and sarcastic features are concerned The two were engaged to a friendly argument, in which bon ors were about even, when Zeider, in the hope of crushing Donovan's talk, said:

"Well, if I had a bank account as large as your nose I would quit playing ball."

"Yes, and if I had your pose filled with nickels I would have more money than Rockefeller," retorted Donovan.

That ended the argument for the afternoon. filli smiled, as only he can smile, as he contiqued on his way to the beach. \*\*\*\*\*\*\*\*\*\*\*\*\*

#### \*\*\*\*\*\*\* PROGENY OF SPEEDY TROTTERS IN DEMAND. \*\*\*\*\*\*\*\*\*

"Speed from speed" is the slogan of the present day breeders of trotting borses, with the additional idea that the earlier the swiftness appears in the parents the more likely it will be to make a colt trotter of their progeny

Now that there are stakes and purses to the value of \$75,000 every summer for three-year-old trotters, several of less value for the two-year-olds and a toppotch market all the time for yearling trotters capable of beating 2:30. congenital fleetness in fonis is what the breeders are trying to get.

Hence it is of interest to know, now that the official returns are in, that the developed dams-otherwise mares with records of 230 or better at the trot or 2:25 or better at the pace-are the producers of a large proportion of that showed "standard" speed last season under conditions entitling them to a record. Every one of the four year lings that became members of the 2:30 trotting brigade is from a dam with # fast trotting record.

Here is the quartet of yearlings; Belle McKinney, EB4; dam Belle Win-

We are reminded that if buman beings lived on the planet Saturn they would be old at three years of age, not that life is any swifter or the cares of maturity any more pressing. It is merely because Saturn is so far from the sun that it takes nearly thirty years, according to the earth's meas-
