Senator Borah, the most active figure in the committee, protested against the splitting of the Eleventh District delegation.

Leaders Anxious For Compromise Candidate To Cement Differences Between Two Factions in Party

CHICAGO, June 12 .- Differences borne on a tide of charges of bribery, al maneuvers have been called off. theft and other accusations, threatened tonight to precipitate decisive developments before the opening of the Republican National convention next

Charges of corruption were made in a statement to the press given out to-night by Director McKinley, of the managers of an effort to capture the convention by force

Two sensational possiblities were discussed in conference rooms, hotel corridors and party headquarters. The first was a bolt by Roosevelt forces and the organization of a "progressive" party if Taft is nominated. The bolt talk was ever present during the day and once in a meeting of Ro veit leaders rose to a point where William Flinn of Pittsburg, who was presiding, refused to let it go further. The second was a compromise can-

lidate. A number leaders declared that now it was beyond question to expect the Taft or Roosevelt people to abide by the nomination of the other candidate.

The situation was crystalized to a great degree by the action of the National committee in the contest hearings, particularly the California case. The Roosevelt men insisted they could expect nothing for their candidate at the hands of the ruling Taft majority increasing bitterness the work of that body.

Whether Colonel Roosevelt would come to Chicago and what effect his coming would have upon the situation came up at almost every turn of the endless discussions and arguments Nearly all agreed that the arrival of Colonel Roosevelt would bring the sit-uation to a climax, but the final outof such an event was disputed.
