Remember the time when we had to smoke the mosquitoes away of an evening? And to brush the flies or simply endure them? How times have changed! Now we know that these insects were the means of spreading dangerous diseases, and protect our homes and families by screening them out. It pays, both from the standpoint of comfort and convenience or health. Our stock of screens and screening permits you to fit any door or window. We handle the best quality which will last for years. This means that you can put them up in a few minutes next season, thus saving you the time and trouble of fitting new ones as well as the cost of buying them. How about screening off that porch? It will be the most popular place in the neighborhood. Come in and see how little it will cost. Screen Doors 35c and \$1.00 FRANK BUSCH Furniture and Hardware

### SLEEPS ON WALK, IS 15 CENTS BETTER OFF

A joke was played on a well known Oregon City man Monday by friends, which has caused much amusement. The man visited the office of W. A. Schooley on Main street, and wishing to enjoy the shade outside helped himself to a chair in the real estate office of Mr. Schooley and sat on the sidewalk in front of the Williams Brothers' Transfer Company's office. He finally fell asleep, and several of the men's friends, including W. A. Schooley and Arthur Williams, placed a hat in front of the sleeping man bearing the words "I am Stiff and Dumb." Several passing by took pity on the "dumb" man and dropped a nickel in the hat, and when he awoke he found fifteen cents in the hat. He is planning another sleep.

### BUYERS ARE SLOW IN LIVE STOCK MARKET

The Portland Union Stock Yards Company reports as follows: Receipts for the week have been cattle 177; calves 26; hogs 1611; sheep 859; goats 13; horses 8. The cattle market did not show any decided break in values but was a little soft throughout the week. Buyers were slow about taking hold declaring themselves for a hand them policy. The hog market was a trifle easier and closed with a lower tone than when the week opened. There was a big receipt of sheep and the sheep market showed a lack of strength. One shipment of feeder wethers came in and was taken out at \$2.90. It seems that carnival week does not add to the strength of the live stock market, hotels, and restaurants buy their supplies the week previous and with full coolers are slow about adding to their stock.

### LIVESTOCK MARKET SHOWS INACTIVITY

PORTLAND, June 14.—The day was a quiet one in the livestock market. Receipts over night were away below the average of the past few days, the totals being 86 cattle, 5 calves and 175 hogs, and only a few transactions of importance were reported during the first half of the day. Two small bunches of medium-grade steers changed hands early in the day at \$6 and \$6.25 and some odds and ends in the cow division were disposed of at \$4 to \$6. Better grade beef stuff could undoubtedly have been moved at better figures, and so far as could be ascertained the cattle market on the whole was steady at yesterday's range. For the first time since the first of the week, there were no fresh offerings in the mutton division. With no trade in either sheep or lambs passing, values were a matter of some uncertainty, but the market was generally regarded as easy in tone. For hogs \$7.50 was the best price paid, one load going at that figure. Heavy weights sold at \$7.75. Shippers represented at the yards were J. S. Flint, Junction City, 1 car of hogs; E. C. Lucke, Canby, 1 car of hogs; E. E. Burdick, Salem, 1 car of cattle and calves; The Dalles Dressed Meat Company, The Dalles, 1 car of cattle; W. E. Lowell, Gibson, 1 car of cattle, and E. L. Kidwell, Grangeville 1 car of cattle.

### HOP CONTRACTS ARE BRINGING 25 CENTS

That there is much strength in the market for hop contracts, notwithstanding the determined efforts of the shorts to depress views of growers, is indicated by the heavy purchases during the past ten days or two weeks by some of the heaviest operators in the hop market. McNeff Bros, who are probably among the biggest in the country, are still taking on supplies of 1912 contracts at 25c and would certainly secure them for less if desirable yards could be written below that figure. The firm recently took the Simon crop of Salem at 25c, the J. B. Kennedy crop at Woodburn at 25c, and the Nigger crop of Salem at 25c. Other contracts were written by the same firm for terms of one to three years, the latter being made at an average of 18c a pound and even better. Other prominent buyers who participated in the purchasing of contracts recently were Hugo Leowi, who secured the Hanna Bros. lot at Independence at 25c and the Fletcher lot of 40,000 pounds at the same figure. Louis Lachmund, who is considered one of the real conservative ones when it comes to forecasting the future, has been also a buyer recently at 25c. At this figure he not long ago took a contract for the 1912 crop of Gonz.

### NEW CABBAGE CROP OF FINE QUALITY

New crop Oregon cabbage is coming forward in very good supply and is fast driving the California products from the field. No further ordering of the southern growth is reported. Local cabbage is now only of rather good size, but the quality is unusually good. The heads are hard and the leaves show the usual small veins that are characteristic of the Oregon product and creates for this growth a demand all through this territory. The crop of cabbage in this territory this season has every indication of proving a banner one to date. The planting was unusually heavy and the growth has been good. There has been no loss to speak of since the plants were started and the growth has been better than usual owing to favorable climatic conditions. The planting this year in eastern Oregon is greater than the entire state has in any season, and the Willamette valley has about as much cabbage if not more than usual.

### BROKERS TRYING TO DEPRESS HOP TRADE

Efforts of the bearish brokers of Portland to depress the price of hop contracts would be amusing to the trade if the matter was not a very serious thing for producers. It is known positively that Louia Lachmund of Salem received an order from England for 500 bales of 1912 crop, and was unable to pay from 22c to 23c a pound for them. He has been scouring the valley for supplies at this range, notwithstanding the fact that the bearish interests spread reports that growers are willing to sell at 21c. That someone is heavily short of the 1912 crop of hops here is indicated by the desperate efforts being made by certain brokers to spread misleading reports to influence the price downward. Growers are very firm in their views and little stock is obtainable under 24 @ 25c a pound, and those that have orders to fill fractionally under this amount realize that this is so.

### STRAWBERRY SUPPLY IS GETTING LOW

Fruit dealers look for heavy strawberry receipts for the next few days, but say that in all probability this week will finish the season of active trade in that fruit. There will of course be berries in the market for some weeks to come, but the big end of the crop in local territory is already in, and from this time on, the fruit men say the supply will grow steadily smaller. This, then, is the week for home canning, and the supply promises to be sufficient for that purpose. Unfortunately in quality the berries now coming do not quite average up to those of last week for which the rains of a few days ago are held mainly responsible, but good trade fruit is still available and at satisfactory prices. But for the Festival last week immense quantities of the fruit would have been put up, but that work had to be deferred. A sprained ankle may as a rule be cured in from three to four days by applying Chamberlain's Liniment and observing the directions with each bottle. For sale by Huntley Bros.
