CATTLE MARKET

SUPPLY IS SMALL

There was only a small run of stuff at North Portland Thursday. Ten loads of cattle came forward, nine of these being from eastern Oregon and one from the Willamette Valley.

Considering the quality of livestock presented for sale the former market was maintained. While steers did not bring above \$6.50 at that time, cows went at \$6 and heifers at \$6.40.

The great difference between the price of cattle at North Portland and a year ago has attracted considerable attention. A year ago steers were quoted no higher than \$5.50 at this time, while recent sales have been made here up to \$7.15.

The better class of stuff that has come forward this year may make some difference in the price, but the wide spread is due more to the shortage in the east than to local conditions. A year ago, while cattle were high in the east, values here were equally as good and therefore at competitive points Portland shared best in purchases owing to the smaller shrink for stuff coming in this direction.

CONGRESSMAN'S LIFE SOUGHT, IS REPORT

WASHINGTON, Aug. 24.—An alleged scheme to kill Representative Benjamin Johnson, of Kentucky, chairman of the House committee on the District of Columbia, so as to head off certain proposed legislation has been disclosed to Johnson, and a sworn statement has put the Kentucky man and his friends on guard.

"I know all about it," said Johnson today, "but I'd rather not say what interests are back of the plot."

The affidavit of a Washington man, detailing a conversation he heard on a streetcar in which one of these talking said he had been following Johnson three nights to kill him, is locked up today in the office of Speaker Clark.

"The story is true," said Johnson. "Who are the parties?" he was asked.

"I don't care to say."

"What do you propose to do?"

"Nothing, unless there is an attempt to execute the threat. I have all the facts but I don't want to go into details."

Mr. Johnson has been aggressive in his advocacy of legislation affecting the District of Columbia. He is said to have incurred the enmity of many people who interpret his views as hostile to the interests of the city.

Miss Nell Caulfield, who has been the guest of Mrs. J. H. Walker and family at Cannon Beach, Oregon, for the past three weeks, has returned to Oregon City.

AMERICAN SOLDIERS GO TO NICARAGUA

WASHINGTON, Aug. 28.—American soldiers will be landed in Nicaragua within the next 48 hours.

On advice of conditions said to be so serious as to justify their being kept secret in Washington, President Taft, at Beverly, personally directed today the immediate movement of the Tenth United States Infantry, now on the Panama Canal zone, to Nicaragua, to guard American lives and property.

Dispatches of last night and early today pictured the situation as being so acute that an immediate movement of a large force of troops was necessary.

Allegations of conditions bordering on barbarism, and acts even worse than those which took the troops of the United States into China to quell the Boxer Rebellion, have been received at the State Department within the last 24 hours. The deliberate murder of two American, Dodd and Phillips, after they had been wounded and were helpless, following the massacre at Leon on August 19, focused attention on the previous reports of burning of soldiers, starvation of political prisoners held in dungeons, and other alleged acts of cruelty.

The latest reports made it plain that immediate protection for Americans was necessary and that it probably would not be safe to wait for the arrival of marines now enroute.

General Francisco Alvarado, the representative of the revolutionary junta in Washington, denies the charges of barbarity brought against the troops fighting the Nicaraguan government. He alleges the burning of bodies of soldiers was necessary to proper sanitation and that it applied alike to the dead of both sides. He contended that American interests would not have suffered if no attempt had been made by American forces to prevent the capture and operation by the revolutionists of the railway between Managua and Corinto.

The junta asserts the railroad is a National institution and should not be classed as American property, except as it is being administered to secure a loan by New York bankers.

Reports that women were shot are condemned emphatically by General Alvarado, who says the barbarous methods were employed by the government forces, when women were sent to the lines as ammunition carriers.

Rebel firing upon the flags of truce born by loyal Nicaraguan troops, as well as American marines, is said, however, to have been frequent within the last few days. New attacks upon women and children and other non-combatants are reported.
