Death of Rheumatism! C. M. C. Stewart, Sulphur Co., 71 Columbia St., Seattle, Wash. Gentlemen:

I suffered the agonies of Rheumatism for months, when I obtained a bottle of Sulphurro. In two weeks the pain was gone, and a month later the stiffness had entirely disappeared from my joints.

Desirous that every man and woman in this city shall have an opportunity to gain more intimate knowledge of Sulphurro, the new liquid compound of Sulphur, the makers of the remarkable medicine are planning a distribution here of the famous little Sulphurro booklets.

These miniature volumes point out the common-sense route to health—it is also a delightful road to travel. The booklets tell why Sulphurro has made so many cures in cases of Rheumatism, skin, stomach and other disorders.

There is important information which everyone should know regarding the proper care of the body, and this the Sulphurro booklet presents. Sulphurro, when properly used, cleanses the blood and system of impurities, so that Nature can heal and repair.

If you fail to receive a booklet in this distribution you will find one accompanying each bottle of Sulphurro at your drugstore (Bootes 50c and \$1) or booklet will be sent free on request to the C. M. C. Stewart Sulphur Co., 71 Columbia St., Seattle, Wash.

'LEST WE FORGET'

WE ARE REMINDED Panic of 1893 Followed Conditions Similar to the Present.

In these days of pleasant prosperity, under a Republican administration, when wages are high, when every man who will work has a job; when the farmers are getting high prices for all their products; when factories are running full time and the people of Oregon are too prosperous to think of politics, they are apt to forget the Democratic panic of 1893.

Mr. Melvin wishes to thank one and all, who so kindly furnished grain, vegetables, fruit and all articles for the fair to help make it a success, as without the aid of all he could do nothing.

Chills and Hot Baths. Hot water bathing is beneficial in counteracting the effect of a chill. First, it undoes another mischief worked by the chill. The latter has sent too much blood internally, so risking congestion. Heat brings the blood to the surface. Heat is not life, but it is one of the factors of life. Indeed, dissipation always occurs when the internal bodily temperature is greatly lowered. Heat will not keep a body alive and great heat will kill it. In many morbid states of the system, as rheumatism, hot baths are of great service. Warm baths are useless. The heat should be as great as can be borne without pain.

THE TRUE IDEALIST. Every human being, unless he lacks utterly the capacity to love, is an idealist. No man can boast that he accepts only the "plain facts" of existence as his guideposts. Through love we are given the power to look beyond the crude husk we call the fact. Any great achievement is impossible without this power. Life thrills with meaning and magic for the true idealist.

THE CREATORS. Creators was a military signal employed by the Scottish highland chiefs. It was a drum or wooden cross, which after being dipped in the blood of a goat was sent by a swift footed warrior, who delivered it without a word save the name of the piece of rendezvous. The swiftest runner of that hamlet was instantly dispatched with the signal to the next, where it was borne to a third, and so on until every village within the chief's domain had received the summons. It was last circulated in 1745.

ROOSEVELT'S SOLILOQUY. I'm twice as great as Washington, I'm twice as great as Grant. If they a third term did not get, They need not think I can't. I'm twice as great as Jefferson, And Madison combined. I'm twice as great as the whole line Of presidents, I find. I'm greater than my country, With its customs and its laws; With its poor old constitution, And its presidential faws. I'm twice as great as any man Above or 'neath the soil; In fact, I'm half inclined to think I'm twice as great as God.

A LOFTY MIND. A lofty mind always thinks nobly. It easily creates vivid, agreeable and natural fancies and places them in their best light, clothes them with all appropriate adornments, studies others' tastes and cleaves away from its own thoughts all that is useless and disagreeable.—Rochefoucauld.
