

GATCHER BLOCK BLENDED THE FANS.

This one is credited to Jimmy Block, backstopper for DeWaver. "May you fellows are a bunch of boneheads!" yelled a fan in the stand.

CHANGES HIS STYLE TO BECOME A STAR.

Lavender of Cubs Has Not Adopted New Curve, Just Switched His System.

Changing his system of pitching has suddenly made Jimmy Lavender of the Chicago Cub baseball team a wonderful twirler. It happened so abruptly that the followers of the club were taken by surprise.

Lavender has not adopted a new curve nor a new delivery, but he has decided that control is the secret of a twirler's success. Heretofore wildness was his defect, and on all the occasions he was taken out of the box or hampered for runs it was due to a streak of erratic pitching.

Herein was his mistake, and it was a great one, as he always had himself in the hole instead of the batter, and consequently when he did get the ball over the batmen pounded the sphere to their hearts' delight.

Cub players continued to advise Lavender that he was making a mistake by keeping the first two balls wild of the plate. He had done it in the international league with success and therefore entertained the idea he would meet with the same luck in major league company.

FREAK BASEBALL PLAYS.

Some Peculiar Stunts That Have Happened on Diamond This Season.

You can't always tell by the figures what is what in baseball. The story of the recruit who allowed no hits, struck out twenty-one men and was beaten by a big score is a part of baseball fiction.

An odd baseball play occurred during a semiprofessional game in a Jersey City suburb recently. The batter struck out without the catcher touching the ball during the play. The first two deliveries of the pitcher resulted in foul strikes. The third was a wild pitch, which the batter struck at and then ran for first.

WHEN BONE PLAY IS RIGHT.

McGraw Tells When It Is Right to Steal With Bases Full.

"The biggest bone play in the world, so the fans and critics all agree, is stealing third or second with the bases full," says John McGraw. "That play, of course, is the climax of absurdity. Yet there are times, on the level, when I wouldn't hesitate to order a man to steal second with the bases full."

ICE HARNESS RACING.

Annual Meet to Be Held on Ottawa River Jan. 30 to Feb. 5, 1913.

The Hull Driving Club is out with an announcement of its ice harness races, which will take place on the Ottawa river (Ont.) track Jan. 30 to Feb. 5, 1913.

Professional Soccer Football. Montreal has a professional soccer football league.

Almost A Miracle

One of the most startling changes ever seen in any man, according to W. B. Holmclaw, Clarendon, Tex., was effected years ago in his brother. "He had such a dreadful cough," he writes, "that all our family thought he was going into consumption, but he began to use Dr. King's New Discovery, and was completely cured by ten bottles. Now he is sound and well and weighs 218 pounds. For many years our family has used this wonderful remedy for Coughs and Colds with quick, safe, reliable and guaranteed. Price 50 cents and \$1.00. Trial bottle free at All Druggists."

BUSINESS OUTLOOK GOOD

Dun's Trade Report Gives Encouragement for All Lines of Business.

From the Freeport, Ill., Standard, Sept. 11, 1912:

Dun's trade report for the past week gives encouragement for all lines of business, crops and manufacturing enterprises. In part the report says:

Continuous advance in trade activities is the tenor of the reports from the principal manufacturing and distributing centers last week. The advance is both in actual volume of transactions and in that confidence which is the basis of healthy business.

The big August bank earnings are a development of present activity and buoyancy. Clearings in August gained 4.8 per cent over last year, while during this week they increased 10.5 per cent over 1911 and 17.6 per cent over 1910. The evidence of these clearings is confirmed by the current railroad gross earnings, which show a gain of 6.1 per cent over 1911.

Rates of money are hardening in all parts of the world, a plain response to the greater movements of trade and commerce and the bigger demands of new enterprises. The increased confidence in the financial markets is illustrated by the fact that the August output of new securities and shorter term notes in this country was \$92,000,000 greater than a year ago. The remarkable consumption of iron and copper products continues to the point of actual scarcity, and all the principal industries show satisfactory activity.

PROSPERITY LESSENS CRIME

Secret Service Chief Says That with Good Times There is Less Law-Breaking.

From the Buffalo, N. Y., Inquirer: The department of agriculture in its latest announcement reports bumper crops of corn, white potatoes, spring wheat, oats, rye and buckwheat.

Business agencies report booming iron and steel trade, strong demand for cash and decrease in the number of commercial failures.

The most novel sign of prosperity, however, is recorded by Chief John E. Wilkie of the United States secret service. "Whenever work is plentiful, and employment easily obtainable," says Chief Wilkie, "crime is less and this rule, which has been demonstrated by years of experience, applies as much to counterfeiting as to other offenses against the law."

As a general proposition easy times are the times freest of crime, indicating that distress is the cause of much law breaking.

BANKS SHOW PROSPERITY.

From the Beloit, Wis., Free Press, September 11, 1912:

Bank deposits are a sure indicator of prosperity in a city, and on this point Beloit banks show a steady increase and this city on this score compares most favorably with the outside world. Total deposits in the four banks according to the current statements aggregate \$4,348,478.46, of which \$2,569,371.14 represents the savings of the people. Rockford, with three times the population, has little more on deposit in her seven banks. Figuring Beloit's population at 118,000, which is probably conservative, the per capita deposits in the banks amount to \$21.41, which is a pretty good showing.

Can Be Affected by Politics.

Henry Clews, the New York financial expert, says in his weekly letter that business conditions are good, especially in the west, but he points out that they may become unsettled by political developments.

There were good times before the last Democratic administration, but they soon became bad times. The country does not want history to repeat itself!

To Cure Snoring.

"At a banquet," said an editor, "I once heard Jerome K. Jerome make a speech on snoring. I remember that it ended with these words: 'To cure snoring it is advised that a piece of soap be dropped into the mouth of the snorer. The oil of the soap will lubricate the pharynx and other Latin parts of the throat. This remedy must be applied with caution; otherwise the snorer will arise and lubricate the door with the person who dropped in the soap.'"

Water and Pine Needles.

When the cold winds blow after the snow falls, the needles on the pine trees that cover the mountains like a great shaggy coat drop off. They protect the snow from the rays of the sun and retain it on the mountainside until well into the summer. When one digs in these forests it is sometimes possible to find as many as ten to fifteen layers of snow and ice between blankets of pine needles, from which the water melts slowly and steadily to feed the streams.—Exchange.
