HOP MARKET QUIET; PRICES STEADY

Dealers today reported a fair movement in the hop market, though for the most part at prices slightly under those quoted a week ago. One of the best known local traders quoted 18 cents as the outside figure on the best hops now available in the state, admitting at the same time that holdings of grade were scant in the extreme, and quoted 12 1/2 to 15 cents on the next best grades. Buyers were said to be more disposed to take hold than was the case last week and growers at the same time were reported to be more inclined to sell.

In some quarters slightly higher prices were quoted, but the bulk of the trade now passing was admitted to be at figures within the range of those given above. Producers having fair to good grade hops, however, are not pushing to the market.

One of the reasons for the activity on the part of the buyers at this time is the advance in freight rates on shipments to the Atlantic seaboard that will go into effect November 20. The advance will amount to about \$5 a car over the previous charge, and naturally is an item of importance to shippers. Buyers on the coast having commitments for delivery East now are loading and dispatching care to the extent of their ability, but are seriously hampered by the scarcity of cars.

Dealers are said to be averaging about 10 days' notice on cars ordered for the traffic outward, the demand for cars for the movement of all sorts of agricultural products being so great that the railroad companies cannot supply the needed rolling stock on short notice. On consignments sent out now the advance in freight charges will be saved, and to effect this saving dealers are said to be pushing out more hops than yet sold, with a view to disposing of them while the cars are on their way east.

The school will convene each Sunday at 2:30 P. M. and all are invited to attend. As this is a union Sunday school, all denominations are interested and the success of the new organization is assured.

GOOD APPLES IN DEMAND IN EAST

There is practically no change in the prices of poultry in the local market, but pork has gone from 16c to 10-12c.

There is an excellent tone in the Eastern as well as foreign trade for good sized, well colored apples. Extra fancy Spitzenberg and Yellow Newtowns of similar quality are commanding better than \$2 a box at leading groving centers and according to the big shippers there is not enough of this class of stock coming forward to fill the wants of the trade. The best apples that will stand shipping are sought for.

Owing to the advance of \$1 a barrel in the price of cranberries in the East, a similar rise in prices is shown in the market. Many of the farmers of Clackamas County are becoming discouraged over the continual rains, and some who are anxious to prepare the ground for seeding are unable to do so.

Most of the apples in Clackamas County have practically been gathered and the crop is large.

There are still few grapes left on the vines, but the present rain will no doubt cause many to rot. The markets are pretty well supplied with Concord and California grapes.

SHIPMENT OF HOGS ARRIVE IN PORTLAND

Country killed hogs are showing a weak tone in the Portland markets for the day and the prices are lower.

As a rule the better class offerings are being quoted at 10c a pound, although an occasional transaction for something extra select may perhaps be a fraction better than this.

Receipts for dressed hogs in the Portland markets during the last 48 hours were very heavy. Wednesday's express brought a more liberal supply than has been received here for many a day.

Retailer's wants are now quite well taken care of and much difficulty is shown at the moment in unloading with promptness. The recent heavy runs of live hogs have added to the weakness in the dressed hog trade, the former having a direct effect on the latter.

While dressed hogs are weaker and lower a steady tone is ruling for country killed hogs. Prices in this line are showing no change for the day, offerings moving off quite well at the previous range.

The fair concrete building now under construction is being rushed to complete the contract some time in January.

POSTOFFICE READY FOR PARCEL POST

RANDALL WARNS PATRONS NOT TO USE ORDINARY STAMPS ON MAIL

PARCELS MAILABLE AT THE OFFICES

All Packages Must Bear Return Address of Sender or They Will Not Be Accepted by Postmaster

Postmaster Randall announced Wednesday that he had made arrangements for the starting of the parcel post service in this city and county January 1. He said that there were many things in relation to the service which the public must thoroughly understand in order to prevent friction and delay at the start. Mr. Randall has received instructions from headquarters that distinctive parcel post stamps must be used on all fourth class matter (parcel post) and that matter bearing ordinary stamps will be "held for postage."

"Parcels will be mailable only at postoffices," said Mr. Randall, "branch postoffices, lettered and local stations and such numbered stations as may be designated by the postmaster. All parcels must bear a return address of the sender, and if they do not they will not be accepted for mailing."

Mr. Randall thinks there will be a large parcel post business in this county, and he expects the assistance of the public, in that the rules shall be strictly adhered to at the beginning. The new service will cause much more work at the office and eventually it is probable that more persons will be employed.

CATTLE RECEIPTS LIGHT; QUALITY GOOD

The Portland Union Stock Yards Company reports as follows:

Receipts for the week have been cattle 576; calves 65; hogs 2728; sheep 6734. Horses and mules 113.

Cattle receipts have been light volume this week, most of the stuff received being cows and heifers, well finished and of good quality. Choice steers are in demand, but prices about the same as a week ago, however, prices will improve now since the heavy liquidation has discontinued. Heifers range from \$5.25 to \$6.00 and a few extra choice were up to \$6.25, but this could not be obtained for any large bunch. There is a good demand for bulls and light veal calves.

The arrivals of hogs have been as heavy as last week, consequently the price jumped up 10c since last Monday's opening. Top hogs are selling at \$7.55 with the prospect of a steady market.

With an increase in the receipts of sheep and lambs over last week, top lambs are selling from \$5.75 to \$5.85. Best wethers \$4.50 to \$4.55. Ewes \$3.50 to \$3.55.
